MARKING GUIDELINES

ACCOUNTING

(PAPER 1)

12 pages

MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a □.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

Coaching Your Classroom Garnet Hillman, Mandy Stalets, 2019-07-08 Maximize student self efficacy and growth by providing high quality feedback students can act on In Coaching Your Classroom authors Garnet Hillman and Mandy Stalets share a fresh perspective on effective classroom feedback for all grade levels and content areas Explore the parallels between teaching students and coaching athletes and then learn how you can coach every student to success every day Use this book to implement effective classroom communication and student feedback Analyze the impact of learning centered classroom language and formative assessment on student learning Understand the importance of effective communication in the classroom as well as how giving feedback works and what a student centered culture looks like Embrace the qualities of actionable classroom feedback and examine the effect on student engagement and intrinsic motivation Learn how to deliver individualized next steps and support students through the feedback loop and the gradual release of responsibility Read real world accounts and examples from teachers who have successfully coached their classrooms with effective classroom communication Contents Introduction Chapter 1 Adopt a Language of Learning Chapter 2 Coach Every Student Chapter 3 Craft High Quality Feedback Chapter 4 Utilize Feedback Methods Chapter 5 Ensure Productive Response Chapter 6 Employ Self and Peer Assessment Epilogue References and Resources *Teaching and Learning Secondary School Mathematics* Ann Kajander, Jennifer Holm, Egan J Chernoff, 2018-10-24 This volume brings together recent research and commentary in secondary school mathematics from a breadth of contemporary Canadian and International researchers and educators It is both representative of mathematics education generally as well as unique to the particular geography and culture of Canada The chapters address topics of broad applicability such as technology in learning mathematics recent interest in social justice

contexts in the learning of mathematics as well as Indigenous education The voices of classroom practitioners the group ultimately responsible for implementing this new vision of mathematics teaching and learning are not forgotten Each section includes a chapter written by a classroom teacher making this volume unique in its approach We have much to learn from one another and this volume takes the stance that the development of a united vision supported by both research and professional dialog provides the first step

Trust-Based Observations Craig Randall,2020-07-30 The results are in observations are not improving teaching and learning Pertinently the Gates Foundation s recently completed effort to improve student outcomes through enhancing the teacher evaluation process failed to achieve substantive improvement The way observations are currently designed serve as an obstacle to teacher risk taking Teachers fear negative evaluations when their pedagogy is rated and they lack faith in being supported by supervisors because a trusting relationship between them and their observer has not been built Trust Based Observations Maximizing Teaching and Learning Growth is a schema changing evaluation model that understands people perform at their best when they feel safe and supported It begins with twelve 20 minute observations per week followed by collegial conversations driven by reflective questions sharing observed teaching strengths and the building of safe and trusting relationships with teachers Add the elimination of rating pedagogical skills and replace it with rating mindset and teachers trust When teachers fully embrace risk taking and innovation it leads to remarkable teaching transformations and improved student learning

Effective Grading Practices for Secondary Teachers Dave Nagel,2015-03-04 Enact innovative grading systems that more accurately describe student progress This book challenges traditional grading practices and provides alternatives that can have direct impact on student success By making subtle shifts toward standards based grading systems schools can reduce unnecessary course failures provide students and their families a more accurate picture of current progress and increase opportunities for success The author offers a range of grading reform strategies that are built from practical frameworks that are effective and simple to adapt Among the many strengths of this book are Practical application of existing research and evidence base for effective secondary grading reforms A framework for schools and districts to apply and adapt failure prevention strategies such as early failure detection Amnesty Days and meaningful stipulated second chance opportunities for students to reach mastery Functional strategies and actions for shifting toward standards based referenced grading without entirely abandoning letter grades Countering resistance to change through a clearly articulated plan for conducting school wide and classroom level action research around the effectiveness of new or adjusted grading practices Informative and pragmatic this book is spot on with analysis of this elephant in the room issue Nagel uses both empathy and humor in getting to the heart of a process to generate real solutions while underscoring the ultimate need for teacher voice in any successful implementation He provides ready made strategies for real impactful change I m left hopeful that feedback will rule the day Bruce Potter Superintendent Berkshire UFSD Nagel offers an insightful and articulate voice to secondary improvement and alignment through grading practices His

X-raying Zero Hunger (SDG2) Targets in Africa and Other Regions: Progress, Synergies, Opportunities, and Challenges, volume II Mojisola Olanike Kehinde, Barbara Sawicka, Oluwaseun Ariyo, Olutosin Ademola Otekunrin, 2025-09-29 The field of global food security is currently grappling with the immense challenge of feeding over 8 billion people worldwide, a task that is particularly daunting for low and middle-income countries (LMICs). According to the State of Food Security and Nutrition (SOFI) 2023 report, between 690 and 783 million people experienced hunger in 2022, with an increase of 122 million more people facing hunger compared to the pre-pandemic period of 2019. Projections indicate that by 2030, approximately 600 million people will suffer from chronic hunger. Alarmingly, Africa bears a disproportionate burden, with about 20% of its population affected by hunger, compared to lower percentages in Asia, Latin America, the Caribbean, and Oceania. The United Nations Sustainable Development Goal 2 (SDG 2), known as Zero Hunger, aims to eradicate hunger, achieve food security, improve nutrition, and promote sustainable agriculture by 2030. Despite the concerted efforts of many nations to implement food and nutrition-sensitive policies since the SDG 2 agenda's inception in 2015, significant challenges persist, particularly in Africa. These include extreme poverty, rapid population growth, high food prices, unemployment, social exclusion, extreme weather events, corruption, and conflicts, all of which hinder progress towards achieving Zero Hunger. Recent initiatives such as the United Nations Food System Summit underscore the need for a comprehensive approach to address these multifaceted challenges.
