Growth of the Soil Knut Hamsun's Nobel Prize winning novel is an abiding classic of Scandinavian literature At the time it was published the literary world was in the throes of shifting to a modernist style Popular novels were set in the contemporary present with technological and societal advancements forming part of the narrative backdrop Growth of the Soil openly displays the conflicts between the old traditions of agrarian society and the ever mounting wonders and conveniences offered by modern society The farmer Isak scarcely acknowledges the values of modern living Illiterate but capable of carrying out the business of running a farm he has physical strength and works with his hands Although initially amazed by Isak's prowess his wife Inger who came into contact with modern society when imprisoned for killing her infant due to its birth defect return to the home much less impressed by the country life

Bodies Inhabiting the World Niels Henrik Gregersen, Derek R. Nelson, Bengt Kristensson Uggle, 2023-11-20 Bodies Inhabiting the World Scandinavian Creation Theology and the Question of Home offers a multidimensional investigation of how houses bodies communities and the whole universe may be conceived and refigured as places where we belong where we are at home in God's creation In this way revisiting the tradition of Scandinavian creation theology provides profound resources to make theological affirmations of God's omnipresence in the human condition we all share The emergence here of an exciting new theological program can be recognized beyond the limitations of other contemporary agendas cul de sacs blind spots and diffidence What it is to have a home is a universal question closely connected to what it means to be human and to live a good

flourishing life But the negative experiences of homelessness broken homes statelessness and alienation always lurk in the background of the universal quest to find one's home in the world This book contains fourteen essays exploring the dynamics of the human experience of finding losing and finding again a home *In Praise of Paths* Torbjørn Ekelund, 2020-05-05 What Ekelund is addressing is the intention to walk one's way to meaning the walk as spiritual exercise a kind of vision quest A key strategy for finding ourselves then is to first get lost The New York Times Book Review An ode to paths and the journeys we take through nature as told by a gifted writer who stopped driving and rediscovered the joys of traveling by foot Torbjørn Ekelund started to walk everywhere after an epilepsy diagnosis affected his ability to drive The more he ventured out the more he came to love the act of walking and an interest in paths emerged In this poignant meandering book Ekelund interweaves the literature and history of paths with his own stories from the trail As he walks with shoes on and barefoot through forest creeks and across urban streets he contemplates the early tracks made by ancient snails and traces the wanderings of Romantic poets amongst other musings If we still understand ourselves in relation to the landscape Ekelund asks then what do we lose in an era of car travel and navigation apps And what will we gain from taking to paths once again A charming read celebrating the relationship between humans and their bodies their landscapes and one another The Washington Post This book was made possible in part thanks to generous support from NORLA *The Oxford Handbook of Land Politics* Saturnino M. Borrás, Jennifer C. Franco, 2025-08-29 Access to land in all its multiple meanings is necessarily diverse complex and contentious and facilitating and maintaining such access constitutes a mosaic of social relations and institutional instruments rather than the minimalist and simplistic reduction of land to land property that in turn tends to be interpreted always as individual private property The Oxford Handbook of Land Politics offers heterodox analytical tools to help the reader make sense of the complexity of the politics of land *Nordic Literature* Steven P. Sondrup, Mark B. Sandberg, Thomas A. DuBois, Dan Ringgaard, 2017-12-15 Nordic Literature A comparative history is a multi volume comparative analysis of the literature of the Nordic region Bringing together the literature of Finland continental Scandinavia Sweden Norway Denmark and S pmí and the insular region Iceland Greenland and the Faroe Islands each volume of this three volume project adopts a new frame through which one can recognize and analyze significant clusters of literary practice This first volume Spatial nodes devotes its attention to the changing literary figurations of space by Nordic writers from medieval to contemporary times Organized around the depiction of various scapes and spatial practices at home and abroad this approach to Nordic literature stretches existing notions of temporally linear nationally centered literary history and allows questions of internal regional similarities and differences to emerge more strongly The productive historical contingency of the North as a literary space becomes clear in this close analysis of its literary texts and practices **Penguin Classics** Penguin (Firm), 2001 **Insight Guides Scandinavia** Insight Guides, 2012-07-06 Insight Guide Scandinavia is illustrated throughout with hundreds of specially commissioned colour photographs Our inspirational Best of
