British Detective Story Julie H. Kim, 2005-07-15 In 1929 Ronald Knox a prominent member of the English Detection Club included in his tongue in cheek Ten Commandments for Detective Novelists the rule that No Chinaman must figure in the story In 1983 Ruth Rendell published *Speaker of Mandarin* reflecting not only a change in British detective fiction but also a dramatic change in the British cultural landscape Like much of the rest of British popular culture the detective novel became more and more ethnically diverse and populated by characters with increasingly varied religious backgrounds Ten essays examine the changing nature of British detective fiction focusing on the shifting view of otherness of such authors as Ruth Rendell Elizabeth George Peter Ackroyd Caroline Graham Christopher Brookmyer Denise Mina and John Mortimer Unlike their American counterparts British detective writers have been until recently overwhelmingly white and the essays here explore how these authors delve into ethnic diversity within a historically homogeneous culture Religion has also played an important role in the genre ranging from the moral certainty of the early part of the 20th century to the skepticism and hostility that is part of contemporary fiction How this transition was made and how it reflects the changing nature of British culture are detailed here

The Case of Literature Arne Höcker, 2020-06-15 In *The Case of Literature* Arne Höcker offers a radical reassessment of the modern European literary canon His reinterpretations of Goethe Schiller Büchner Döblin Musil and Kafka show how literary and scientific narratives have determined each other over the past three centuries and he argues that modern literature not only contributed to the development of the human sciences but also established itself as the privileged medium for a modern style of case based reasoning *The Case of Literature* deftly traces the role of narrative fiction in relation to the scientific knowledge of the individual from eighteenth century psychology and pedagogy to nineteenth century sexology and criminology to twentieth century psychoanalysis Höcker demonstrates how modern authors consciously engaged casuistic forms of writing to arrive at new understandings of literary discourse that correspond to major historical transformations in

the function of fiction He argues for the centrality of literature to changes in the conceptions of psychological knowledge production around 1800 legal responsibility and institutionalized forms of decision making throughout the nineteenth century and literature s own realist demands in the early twentieth century

Ortiz,2022-05-23 Gordon Merrick and the Great Gay American Novel is the first biography of Gordon Merrick the most commercially successful writer of gay novels in the twentieth century This book shows how Merrick s novels were largely based on his own life and time as a Princeton theater star a Broadway actor a New York reporter an OSS spy and the friend of countless artists and celebrities as an expatriate in France Greece and Sri Lanka He lived much of his life as an openly gay man with his longtime partner Charles Hulse His 1970 novel The Lord Won t Mind broke new ground by showing that an affirming explicitly gay novel could be a bestseller His subsequent gay novels were both a cultural phenomenon and a lightning rod for literary critics This book also examines the complex often conflicting responses to Merrick s novels by gay readers and critics and it thus recovers the early post Stonewall debates over the definition of gay literature By reconstructing Merrick s life and critical fortunes this book expands our understanding of what it means to be a gay man in the twentieth century

Novel Style Ben Masters,2017-12-08 We live in a time of linguistic plainness This is the age of the tweet and the internet meme the soundbite the status the slogan Everything reduced to its most basic components Stripped back Pared down Even in the world of literature where we might hope to find some linguistic luxury we are flirting with a recessionary mood Big books abound but rhetorical largesse at the level of the sentence is a shrinking economy There is a prevailing minimalist sensibility in the twenty first century Novel Style is driven by the conviction that elaborate writing opens up unique ways of thinking that are endangered when expression is reduced to its leanest possible forms By re examining the works of essential English stylists of the late twentieth century Anthony Burgess Angela Carter Martin Amis as well as a newer generation of twenty first century stylists Zadie Smith Nicola Barker David Mitchell Ben Masters argues for the ethical power of stylistic flamboyance in fiction and demonstrates how being a stylist and an ethicist are one and the
