Havana Modern Twentieth Century Architecture And Interiors:

Havana Modern Michael Connors, 2014-10-07 A revealing collection of astonishingly fresh and undiscovered midcentury architecture and interiors in Havana Caribbean design expert and historian Michael Connors leads the reader on an unprecedented tour in Havana of the stunning and architecturally important private homes and buildings that have been meticulously preserved previously unphotographed and mostly inaccessible to visitors This lavish book represents the modern movement in Cuban architecture from art nouveau and art deco to the flowering of high modernism just before the Revolution spanning from the early 1900s to 1965 At a time when travelers are rediscovering Cuba this volume offers a range of the city's twentieth century cultural achievements The photographs shot exclusively for the book show examples from the artsy Vedado neighborhood the seaside streets of Miramar Central Havana and Havana's posh Country Club Park area Included are iconic places such as Cuba's remarkably futuristic National Schools of Art the art deco landmark Bacardi building Casa de Alfred von Schultess by Richard Neutra the stylish Habana Riviera Hotel and its original 1957 interiors the Hotel Nacional de Cuba designed by McKim Mead and the world famous Tropicana cabaret nightclub by architect Max Borges Havana Modern is a pioneering book of modern design that shows a corner of the world where modern architecture thrived and has been carefully preserved *Aesthetics and the Revolutionary City* James Clifford Kent, 2018-09-22

Aesthetics and the Revolutionary City engages in alternative ways of reading foreign visual representations of Havana through analysis of advertising images documentary films and photographic texts It explores key narratives relating to the projection of different Havana imaginaries and focuses on a range of themes including pre revolutionary Cuba the dream of revolution and the metaphor of the city frozen in time The book also synthesizes contemporary debates regarding the notion of Havana as a real and imagined city space and fleshes out its theoretical insights with a series of stand alone important case studies linked to the representation of the Cuban capital in the Western imaginary The interpretations in the book bring into focus a range of critical historical moments in Cuban history including the Cuban Revolution and the Special Period and consider the ways in which they have been projected in advertising documentary film and photography outside the island

Lejeune, 2021-02-08 In the 20th century modern architecture thrived in Cuba and a wealth of buildings was realized prior to the revolution 1959 and in its wake The designs comprise luxurious nightclubs and stylish hotels sports facilities elegant private homes and apartment complexes Drawing on the vernacular their architects defined a way to be modern and Cuban at the same time creating an architecture oscillating between tradition and avantgarde Audacious concrete shells curving ramps elegant brises soleils and a fluidity of interior and exterior spaces are characteristic of an airy often colorful architecture well suited to life in the tropics New photographs and drawings were specially prepared for this publication A biographical survey portraits the 40 most important Cuban architects of the era *Cuban Modernism* Victor Deupi, Jean-Francois Lejeune, 2021-02-08 For several decades 20th century architecture thrived in Cuba and a wealth of buildings was realized prior to the revolution 1959 and in its wake The designs comprise luxurious nightclubs and stylish hotels sports facilities elegant private homes and apartment complexes Drawing on the vernacular their architects defined a

way to be modern and Cuban at the same time creating an architecture oscillating between tradition and avantgarde Audacious concrete shells curving ramps elegant brises soleils and a fluidity of interior and exterior spaces are characteristic of an airy often colorful architecture well suited to life in the tropics New photographs and drawings were specially prepared for this publication A biographical survey portraits the 40 most important Cuban architects of the era The Politics of Furniture Fredie Floré,Cammie McAtee,2017-02-10 In many different parts of the world modern furniture elements have served as material expressions of power in the post war era They were often meant to express an international and in some respects apolitical modern language but when placed in a sensitive setting or a meaningful architectural context they were highly capable of negotiating or manipulating ideological messages The agency of modern furniture was often less overt than that of political slogans or statements but as the chapters in this book reveal it had the potential of becoming a persuasive and malleable ally in very diverse politically charged arenas including embassies governmental ministries showrooms exhibitions design schools libraries museums and even prisons This collection of chapters examines the consolidating as well as the disrupting force of modern furniture in the global context between 1945 and the mid 1970s The volume shows that key to understanding this phenomenon is the study of the national as well as transnational systems through which it was launched promoted and received While some chapters squarely focus on individual furniture elements as vehicles communicating political and social meaning others consider the role of furniture within potent sites that demand careful negotiation whether between governments cultures or buyer and seller In doing so the book explicitly engages different scholarly fields design history history of interior architecture architectural history cultural history diplomatic and political history postcolonial studies tourism studies material culture studies furniture history and heritage and preservation studies Taken together the narratives and case studies compiled in this volume offer a better understanding of the political agency of post war modern furniture in its original historical context At the same time they will enrich current debates on reuse relocation or reproduction of some of these elements *The Tropical Modern House* Raul A. Barreneche,2011 Raul A Barreneche has searched the globe including such spectacular locales as Hawaii St Barts Malaysia Singapore Indonesia Australia and India to bring together a collection of luxurious modern homes designed by such luminaries as Isay Weinfeld Marcio Kogan Kerry Hill and Patrick Jouin and Sanjit Manku among many others **North American Women Artists of the Twentieth Century** Jules Heller,Nancy G. Heller,2013-12-19 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company **Camera Constructs** Andrew Higgott,Timothy Wray,2016-12-05 Photography and architecture have a uniquely powerful resonance architectural form provides the camera with the subject for some of its most compelling imagery while photography profoundly influences how architecture is represented imagined and produced Camera Constructs is the first book to reflect critically on the varied interactions of the different practices by which photographers artists architects theorists and historians engage with the relationship of the camera to architecture the city

and the evolution of Modernism The title thus on the one hand opposes the medium of photography and the materiality of construction but on the other can be read as saying that the camera invariably constructs what it depicts the photograph is not a simple representation of an external reality but constructs its own meanings and reconstructs its subjects Twenty three essays by a wide range of historians and theorists are grouped under the themes of Modernism and the Published Photograph Architecture and the City Re imagined Interpretative Constructs and Photography in Design Practices They are preceded by an Introduction that comprehensively outlines the subject and elaborates on the diverse historical and theoretical contexts of the authors approaches Camera Constructs provides a rich and highly original analysis of the relationship of photography to built form from the early modern period to the present day **Cuba** Ted A.
