Magical Urbanism Latinos Reinvent The Us Big City:

Magical Urbanism Mike Davis, 2000 Explores the Latinization of the American urban landscape discusses the impact it has had on society the economy and politics **Becoming Neighbors in a Mexican American Community** Gilda L. Ochoa, 2010-01-01 On the surface Mexican Americans and Mexican immigrants to the United States seem to share a common cultural identity but often make uneasy neighbors Discrimination and assimilationist policies have influenced generations of Mexican Americans so that some now fear that the status they have gained by assimilating into American society will be jeopardized by Spanish speaking newcomers Other Mexican Americans however adopt a position of group solidarity and work to better the social conditions and educational opportunities of Mexican immigrants Focusing on the Mexican origin working class city of La Puente in Los Angeles County California this book examines Mexican Americans everyday attitudes toward and interactions with Mexican immigrants a topic that has so far received little serious study Using in depth interviews participant observations school board meeting minutes and other historical documents Gilda Ochoa investigates how Mexican Americans are negotiating their relationships with immigrants at an interpersonal level in the places where they shop worship learn and raise their families This research into daily lives highlights the centrality of women in the process of negotiating and building communities and sheds new light on identity formation and group mobilization in the U S and on educational issues especially bilingual education It also complements previous studies on the impact of immigration on the wages and employment opportunities of Mexican Americans **Hispanic New York** Claudio Iván Remeseira, 2010 Over the past few decades a wave of immigration has turned New York into a microcosm of the Americas and enhanced its role as the crossroads of the English and Spanish speaking worlds Yet far from being an alien group within a mainstream and supposedly pure Anglo America people referred to as Hispanics or Latinos have been part and parcel of New York since the beginning of the city s history They represent what Walt Whitman once celebrated as the Spanish element of our nationality Hispanic New York is the first anthology to offer a comprehensive view of this multifaceted heritage Combining familiar materials with other selections that are either out of print or not easily accessible Claudio Iván Remeseira makes a compelling case for New York as a paradigm of the country s Latinoization His anthology mixes primary sources with scholarly and journalistic essays on history demography racial and ethnic studies music art history literature linguistics and religion and the authors range from historical figures such as José Martí Bernardo Vega or Whitman himself to contemporary writers such as Paul Berman Ed Morales Virginia Sánchez Korrol Roberto Suro and Ana Celia Zentella This unique volume treats the reader to both the New York and the American experience as reflected and transformed by its Hispanic and Latino components **Cinema and the City** Mark Shiel, Tony Fitzmaurice, 2011-07-15 This book brings together the literature of urban sociology and film studies to explore new analytical and theoretical approaches to the relationship between cinema and the city and to show how these impact on the realities of life in urban societies The Latino Question Armando

Ibarra, Alfredo Carlos, Rodolfo D Torres, 2018-08-20 While so many Latino Chicano Americans struggle in pursuit of the American dream while figures such as Donald Trump are accepted in mainstream politics and scaremongering and paranoia is rife the need for a vivid empirically grounded study on Latino politics culture and society has never been greater The Latino Question fulfils this need offering a cutting edge analysis of the transformative nature of Latino politics in the US In a radical alternative to dominant ideas the authors emphasise the importance of political economy for understanding Latino politics culture and social issues It draws from original research and a number of critical traditions including the thought of Karl Marx and Antonio Gramsci to understand the politics of race and ethnicity in a modern capitalist society Including case studies of how Latino Chicano communities across the US are not only resisting but also reinventing and transforming ethnic politics in the age of neoliberalism this book is required reading for all those hoping to understand the Latino question in contemporary America

Hispanic and Latino New Orleans Andrew Sluyter, Case Watkins, James P. Chaney, Annie M. Gibson, 2015-12-07 Often overlooked in historic studies of New Orleans the city's Hispanic and Latino populations have contributed significantly to its development Hispanic and Latino New Orleans offers the first scholarly study of these communities in the Crescent City This trailblazing volume not only explores the evolving role of Hispanics and Latinos in shaping the city's unique cultural identity but also reveals how their history informs the ongoing national debate about immigration As early as the eighteenth century the Spanish government used incentives of land and money to encourage Spaniards from other regions of the empire particularly the Canary Islands to settle in and around New Orleans Though immigration from Spain declined markedly in the wake of the Louisiana Purchase the city quickly became the gateway between the United States and the emerging independent republics of Latin America The burgeoning trade in coffee sugar and bananas attracted Cuban and Honduran immigrants to New Orleans while smaller communities of Hispanics and Latinos from countries such as Mexico Puerto Rico and Brazil also made their marks on the landscapes and neighborhoods of the city particularly in the aftermath of Hurricane Katrina Combining accessible historical narrative interviews and maps that illustrate changing residential geographies Hispanic and Latino New Orleans is a landmark study of the political economic and cultural networks that produced these diverse communities in one of the country's most distinctive cities

Remaking Citizenship Kathleen Coll, 2010-02-12 Standing at the intersection of immigration and welfare reform immigrant Latin American women are the target of special scrutiny in the United States Both the state and the media often present them as scheming welfare queens or long suffering silent victims of globalization and machismo This book argues for a reformulation of our definitions of citizenship and politics one inspired by women who are usually perceived as excluded from both Weaving the stories of Mexican and Central American women with history and analysis of the anti immigrant upsurge in 1990s California this compelling book examines the impact of reform legislation on individual women's lives and their engagement in grassroots political organizing Their accounts of personal and political transformation offer a new vision of politics rooted

in concerns as disparate as domestic violence childrearing women s self esteem and immigrant and workers rights

great value of this new Encyclopedia is that it gives readers a chance to sample the many uses of the term and gain clarity about the issues at stake. It is a major contribution to a more coherent understanding of this fundamental idea. Robert Bellah, Professor of Sociology Emeritus, University of California Berkeley and co-author of *Habits of the Heart*, SAGE Publications is proud to announce the Encyclopedia of Community, a major reference work that summarizes the many fascinating and important concepts of a global topic. Community itself is a concept, an experience, and a central part of being human. Whether the reader is a student, researcher, or professional in the field of psychology, sociology, or even economics, this three-volume work will provide the necessary definitions of community beyond traditional views. Arranged in an A to Z fashion, the Encyclopedia can also be viewed topically via a Reader's Guide. This allows for interdisciplinary compare and contrast among topics such as types of communities, social capital, technology, urban life, politics, and law, community design, and global studies. Edited by the award-winning team at Berkshire Reference and assisted by an editorial board of world-renowned scholars, the Encyclopedia of Community will prove to be one of the most widely used reference works in your collection.

La Vida Sacra, James Empereur, Eduardo C. Fernández (s.j.), 2006-10-12. Presents an insightful approach to the sacraments from the perspective and actual practice of Latinos over the centuries. This work offers a distinctive take on the belief and enculturation of the sacraments in the Latino experience and context. It is suitable for theology courses as well as directors of ministerial programs and their students.

Barrio Dreams, Arlene Dávila, 2004-07-02. Dávila's keen insights into the politics of marketing ethnicity, community marginalization, and class divisions cut through neo-liberal postures to glaringly reveal the real issue: who will construct and control East Harlem's future? Well-versed in the scholarship, Dávila has produced a book that is essential for understanding the increasingly important role and aspirations of Puerto Rican and Latino communities in New York's history.

Virginia Sánchez Korrol, author of *From Colonia to Community: The History of Puerto Ricans in New York City*. Providing an expansive ethnographic portal into New York's famous El Barrio, Dávila documents the ways in which the neighborhood's Latino cultures can be commodified as a magnet for gentrification, as well as providing an obstacle to it. An absorbing read providing a unique contemporary perspective on East Harlem.

Neil Smith, author of *American Empire*, *Roosevelt's Geographer*, and *The Prelude to Globalization*. Unlike most ethnographers of the urban poor in search of authentic street experience, Dávila gives us an ethnography of power. With rich insights and sensitivity, she documents the pitched battles between developers, politicians, long-time residents, newcomers, Puerto Ricans, Mexicans, and African Americans over space, gentrification, and cultural representation in East Harlem. Dávila peels back the many layers of local stories in order to reveal a complex national story of resistance against urban neoliberalism.

Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination*.

Made in California, Stephanie Barron, Sheri Bernstein, Ilene Susan Fort, 2000. Unusually inclusive, visually intriguing, and beautifully

produced *Made in California* will appeal to anyone who has lived in, visited or imagined California. *Latino Crossings* Nicholas De Genova, Ana Yolanda Ramos-Zayas, 2004-08-02 First published in 2003 Routledge is an imprint of Taylor Francis an informa company. *The Near Northwest Side Story* Gina Perez, 2004-10-04 An original and significant contribution to Puerto Rican Latino and Latin American studies drawing on the perspective of ordinary men and women. Gina Perez's fine work is based on intensive research in two distant but interconnected places conducted by a perceptive and sensitive observer-participant herself immersed in two languages, cultures and nations. Clearly written and cogently argued, her book will be of great interest to students of migration, ethnicity and gender. Jorge Duany, author of *The Puerto Rican Nation on the Move: Identities on the Island and in the United States*. In this fresh textured original multi-sited ethnography, Perez traces the changing ways that Puerto Ricans have experienced poverty, displacement and discrimination and how they imagine and build deeply rooted but transnational lives through the extended families, dense social networks and meaningful communities. Perez exposes the limits of citizenship for racialized minorities, the contradictory constrained agency in community mobilizations and urban uprisings and the often failed promise of transnational migration as a place to build a counter-hegemonic political space. Brett Williams, Professor of Anthropology, American University. This is a fascinating account of transnational migration as survival strategy, one bound up in kin region and economic restructuring. Vicki L. Ruiz, author of *From Out of the Shadows*. **Resilience in the Post-Welfare Inner City** Geoffrey DeVerteuil, 2016-08-17 Resilience has become one of the first fully fledged academic and political buzzwords of the 21st century. Within this context, Geoffrey DeVerteuil proposes a more critically engaged and conceptually robust version, applying it to the conspicuous but now residual clusters of inner-city voluntary sector organisations deemed service hubs. The process of resilience is compared across ten service hubs in three complex but different global inner-city regions: London, Los Angeles and Sydney. In response to the threat of gentrification-induced displacement, DeVerteuil shows that resilience can be about holding on to previous gains but also about holding out for transformation. The book is the first to move beyond theoretical works on resilience and offers a combined conceptual and empirical approach that will interest urban geographers, social planners and researchers in the voluntary sector. **Concrete and Clay** Matthew Gandy, 2003-08-29 An interdisciplinary account of the environmental history and changing landscape of New York City. In this innovative account of the urbanization of nature in New York City, Matthew Gandy explores how the raw materials of nature have been reworked to produce a metropolitan nature distinct from the forms of nature experienced by early settlers. The book traces five broad developments: the expansion and redefinition of public space; the construction of landscaped highways; the creation of a modern water supply system; the radical environmental politics of the barrio in the late 1960s and early 1970s; and the contemporary politics of the environmental justice movement. Drawing on political economy, environmental studies, social theory, cultural theory and architecture, Gandy shows how New York's environmental history is bound up not only with the upstate landscapes that stretch beyond the city's

political boundaries but also with more distant places that reflect the nation's colonial and imperial legacies. Using the shifting meaning of nature under urbanization as a framework, he looks at how modern nature has been produced through interrelated transformations ranging from new water technologies to changing fashions in landscape design. Throughout, he considers the economic and ideological forces that underlie phenomena as diverse as the location of parks and the social stigma of dirty neighborhoods.

Ethnic Entrepreneurs Monica DeHart, 2010-02-02 Indigenous groups are not often recognized as driving forces in the push for economic development. However, in development efforts across Latin America, governments and corporations have begun to see ethnic cultural difference as an advantage. *Ethnic Entrepreneurs* explores how diverse groups, historically seen as obstacles to development, have become valuable to state and regional development initiatives. From collaboration between a Maya organization and Walmart to a UN-sponsored program that recruits diasporic Latinos, states and corporations are pursuing strategies that complement regional neoliberal shifts. This book examines how ethnic difference is produced through development policy, breaking down the micropolitics of identity and development. It uncovers surprising convergences between ethnic community businesses and corporate social responsibility practices and illuminates how formulations of ethnic difference influence not only changing cultural identifications but also the political and moral projects that shape Latin America.

Handbook of Latina/o Theologies Edwin David Aponte, Miguel A. De La Torre, 2006-05-01 *Handbook of Latino a Theologies* explores the varied theological, ecclesiastical, spiritual, and cultural expressions associated with the term Latino a or Hispanic theology. There is no single definition of Hispanic/Latino theology, but rather a multiplicity of perspectives within the diverse Latino a communities that articulate a distinctive and relevant Hispanic viewpoint. This collection of thirty-four essays surveys how Latinos understand and do theology within those varied contexts. It gives attention to the history, nature, sources, and development of Latino a theological expressions within the U.S. and their contribution to the overall theological discourse and to the individual groups that gave rise to them. Part I of the handbook presents essays on many traditional topics in Christian theology, representative both of the individual authors and various beliefs found in Latino a communities. Part II focuses on trends and contextual issues within the overall Hispanic/Latino theological conversation.
