Model Railroad Craftsman, 1985

Fixing the Engine of Justice David Tunno, 2012-07-24. It has been many years since O. J. Simpson walked free from a downtown Los Angeles courtroom. For many, it was the demolition of the fundamental principle of right and wrong, and many debated the deficiencies of the American justice system. Since then, we have witnessed the Casey Anthony case and others that remind us of issues unaddressed and questions unanswered. In *Fixing the Engine of Justice*, author David Tunno presents the symptoms of a defective jury system and offers comprehensive, intelligent, and thought-provoking solutions. Tunno, a trial consultant for more than twenty years, has studied and researched key trials and has gleaned stories from his personal experiences to show a system beset with representation issues, incompetence, bias, misconduct, and lack of support and public perception based on misconceptions. He analyzes the flaws in the jury selection process, its lack of effectiveness, and the ways in which it contributes to the delivery of justice. Often humorous and irreverent, *Fixing the Engine of Justice* offers a diagnosis of the problems and a list of needed repairs to the American legal system. With the prime focus on juries, Tunno also takes aim at judges, attorneys, and other issues relevant to the health of the system.
