Avital, 2017-04-28 In the past century the borders have blurred between art and design Designers artists aestheticians curators art and design critics historians and students all seem confused about these borders Figurative painting was reduced to graphic design while still being called art Figurative sculpture was reduced to nonfunctional industrial design while being called sculpture This fundamental blunder resulted from total misunderstanding of the concept of abstraction by the founders of modern art Comprehensive analysis shows that so called abstract art is neither abstract nor art but a very simple even trivial kind of design In this book the prehistoric philosophical logical historic and religious sources of the confusion between art and design are analyzed A new and coherent conceptual framework is proposed to distinguish between art and design Nearly one hundred distinctions contradistinctions and comparisons between art and design are presented showing clearly that they are totally independent domains Philosophy of art books are written by philosophers for philosophers not for artists and designers therefore they are irrelevant for the latter especially for students who normally lack the necessary conceptual training This book is not only for theoreticians but for art and design practitioners at all levels This is a new kind of book an illustrated philosophical book for the art and design world which can make philosophical knowledge accessible and useful for solving real problems for designers and artists who are mostly visual rather than conceptual thinkers The book contains over two hundred images thus art and design people can easily follow the arguments and reasoning presented in this book in their own language images Lack of distinction between art and design harms both Design is contaminated by the ills of modern art while modern art cannot recover from its current stagnation whilst under the illusion that it is actually art rather than design **Art History as Social Praxis** David Craven, 2017-08-21 Art History as Social Praxis The Collected Writings of David Craven brings together more than thirty essays that chart the development of Craven's voice as an unorthodox Marxist who applied historical materialism to the study of modern art This book demonstrates the range and versatility of David Craven's praxis as a democratic socialist art historian who assessed the essential role the visual arts play in imagining more just and equitable societies The essays collected here reveal Craven's lifelong commitment to exposing interstices between western and non western cultures by researching the reciprocating influences between First and Third World artists critics and historians A Glimpse into Surreality Pasquale De

*Red Kant: Aesthetics, Marxism and the Third Critique* Michael Wayne, 2014-09-25 Is Kant really the bourgeois philosopher that his advocates and opponents take him to be In this bold and original re thinking of Kant Michael Wayne argues that with his aesthetic turn in the Third Critique Kant broke significantly from the problematic philosophical structure of the Critique of Pure Reason Through his philosophy of the aesthetic Kant begins to circumnavigate the dualities in his thought In so doing he shows us today how the aesthetic is a powerful means for imagining our way past the apparent universality of contemporary capitalism Here is an unfamiliar Kant his concepts of beauty and the sublime are reinterpreted as attempts to socialise the aesthetic while Wayne reconstructs the usually hidden genealogy between Kant and important Marxist concepts such as totality dialectics mediation and even production In materialising Kant's philosophy this book simultaneously offers a Marxist defence of creativity and imagination grounded in our power to think metaphorically and in Kant's concept of reflective judgment Wayne also critiques aspects of Marxist cultural theory that have not accorded the aesthetic the relative autonomy and specificity which it is due Discussing such thinkers as Adorno Bourdieu Colletti Eagleton Lukacs Ranciere and others *Red Kant Aesthetics Marxism and the Third Critique* presents a new reading of Kant's Third Critique that challenges Marxist and mainstream assessments of Kant alike
