Vladimir Kanovei, Michael Reeken, 2013-03-09 In the aftermath of the discoveries in foundations of mathematics there was surprisingly little effect on mathematics as a whole. If one looks at standard textbooks in different mathematical disciplines especially those closer to what is referred to as applied mathematics there is little trace of those developments outside of mathematical logic and model theory. But it seems fair to say that there is a widespread conviction that the principles embodied in the Zermelo-Fraenkel theory with Choice (ZFC) are a correct description of the set-theoretic underpinnings of mathematics. In most textbooks of the kind referred to above there is of course no discussion of these matters and set theory is assumed informally although more advanced principles like Choice or sometimes Replacement are often mentioned explicitly. This implicitly fixes a point of view of the mathematical universe which is at odds with the results in foundations. For example, most mathematicians still take it for granted that the real number system is uniquely determined up to isomorphism which is a correct point of view as long as one does not accept to look at unnatural interpretations of the membership relation.

Flightpath Teacher's Book Philip Shawcross, Jeremy Day, 2011-08-25 Flightpath is the definitive course for pilots and Air Traffic Controllers who need an ICAO4 level of English to work in the industry. Written by Philip Shawcross, one of the world's leading Aviation English experts and reviewed by a panel of aviation English specialists, this course offers a thorough grounding in the range of communication skills needed by both pilots and Air Traffic Control Officers (ATCOs) aiming to reach ICAO4 level or above. The Teacher's Book is a complete manual and subject matter reference book for Aviation English teachers of any level of experience with detailed notes and instructions for each unit. The teacher's notes provide further support and will help the trainer customise the course for pilots, ATCOs and mixed classes.
