to gain knowledge To understand our natural world To understand space To understand those things so tiny we can never see them We want to understand what other people are saying insight into what they are feeling and what makes them tick For most people it is natural to want to understand more about a wide variety of topics and disciplines Perhaps the most important understanding of them all is the knowledge of self Adult babies have traditionally not fared well in the area of understanding of ourselves The few professional attempts to explain ABDL behaviour and thinking have been less than helpful and often insulting and deeply offensive Being described as a paraphilia alongside and adjacent to paedophilia and other serious disorders has been the nightmare that has haunted the community for a generation Slowly however the light has been dawning on the extraordinary world of the adult baby The first step was the recognition that being an adult baby is no mere affectation fetish or odd choice of behaviour It was the understanding that the baby self is a genuine and subjectively real identity Not a thing not a concept or a feeling but an identity A few professionals have belatedly drifted onto the scene and made a few inroads but they have been well behind the small group of hard working ABDLs themselves who have sought to build a body of understanding on who we are Knowing who we are is the key to success happiness and the ability to move forward The works of B Terrance Grey Rosalie and Michael Bent led the way to building an intellectual basis of understanding of who Adult babies are Then came Dylan Lewis whose canon of work in this area has no peer This new book *Living Happily as an Adult Baby* makes a promise in its title that is almost obscene in its arrogance Adult Babies have often struggled with the power of their baby identity and happiness especially long term happiness has often eluded them This work is commended to all adult babies their family and friends as it seeks to further humanity's understanding of this most complex identity structure *The Adult Baby* *Heroic Egoism* Darin Penzera, 2012-08-17 *Heroic Egoism* explains the great moral art the sculpting of moral character showing you how to sculpt your soul into the form of greatness The purpose of this book is to provide an ethical training system for creating ideal human beings This book will provide you with a step by step guide on how to practice a rational code of morality in your everyday life When you exercise in the steps of moral training outlined in these pages consistently and sincerely they will produce in you true strength of character *Living Well in a World Worth Living in for All* Kristin Elaine Reimer, Mervi Kaukko, Sally Windsor, Stephen Kemmis, Kathleen Mahon, 2024-06-12 This open access book is the second of a two volume series that explores how people are living well and creating a World Worth Living in for All It engages in deep listening of voices from across the world and considers the role of education in creating a more just and sustainable world for the future The book asks what can be learnt to create change in policy and practice in order to enact praxis It showcases chapters from international authors who discuss current or new projects to address the overarching questions explored in the book It also provides an overview of perspectives that connect both volumes and the individual projects presented together through the lens of practice architectures
