## **Making Babies The Hard Way Making Babies The Hard Way:**

**Making Babies the Hard Way** Caroline Gallup, 2007-04-15 Making Babies the Hard Way is a frank account of one couple's discovery that they cannot have children of their own and their ensuing struggle through four years of fertility treatment Writing with humour and honesty Caroline Gallup describes the social emotional spiritual and physical impact of infertility on her and her husband Bruce

**Getting Pregnant the Hard Way** Mikael Svanström, 2007 This is the hilarious tale from a man's perspective of a five year journey through fertility and infertility Mikael doesn't set himself up as an expert on fertility and he doesn't try and push any particular way to get pregnant He simply tells the story of the roller coaster he and his wife went through trying to conceive and give birth to their two daughters

**Ending the Homework Hassle** John Rosemond, John K. Rosemond, 1990 Homework can be one of the most frustrating of all problem areas for children and parents In this helpful guide Rosemond warns against parental interference and demonstrates ways to help children learn to work on their own and to take responsibility for getting the work done themselves

**Reproductive Ageing** Susan Bewley, William Ledger, Dimitrios Nikolaou, 2009-06-01 Reproductive ageing affects both individuals and wider society and obstetricians and gynaecologists are witness to the impact of reproductive ageing and to some of the fears and misapprehensions of the general public This book raises awareness of societal trends and their implications The wider importance of the subject to the whole of society is emphasized by contributions from outside the world of obstetrics and gynaecology both within and outside medicine The 56th RCOG Study Group brought together a range of experts to examine reproductive ageing This book presents the findings of the Study Group with sections covering background to ageing and demographics basic science of reproductive ageing pregnancy the ageing mother and medical needs the outcomes children and mothers future fertility insurance screening cryopreservation or egg donors sex beyond and after fertility fertility treatment science and reality the NHS and the market the future dreams and waking up

**The Social Context of Birth** Gurcharan Rai, 2017-09-07 Greatly expanded revised and updated with an entirely new chapter on disability The Social Context of Birth Second Edition provides an essential understanding of how social issues affect midwives the birth process and motherhood Childbirth is much more than a biological event or a set of case notes No one has an uneventful pregnancy and women seek narratives through which they can explain and try to make sense of what has happened to them This is often neglected in the relentlessly technocratic modern culture of childbirth Appreciating the social context surrounding an individual enriches the understanding a midwife must have if she is to work successfully alongside a woman and her family throughout a pregnancy and birth in an insightful intelligent and informed manner This comprehensive guide provides countless valuable insights for midwives nurses obstetricians and health visitors into the many different lives experiences and expectations of women in their childbearing years their babies and families in the 21st Century Written by a team of highly experienced health professionals it also covers contentious areas of maternity care such

as new reproductive technologies and fetal surveillance      Reproductive Health Psychology Olga B. A. van den Akker, 2012-04-02 REPRODUCTIVE HEALTH PSYCHOLOGY This wide ranging and well researched book goes well beyond the traditional confines of reproductive psychology It expertly interweaves evidence on the biological psychological social and cultural factors that affect the reproductive development behaviours and decision making of both women and men As well as the expected chapters on sexual development pregnancy and birth and artificial reproduction it addresses sex and gender development across the lifespan from childhood to old age parenthood and reproductive issues for under represented groups such as homosexual men and women intersex individuals and those who are childless by choice The book will be a valuable reference for psychologists and sociologists as well as midwives gynaecologists and obstetricians and indeed anyone with research or clinical interests that intersect with reproduction and with gender Christina Lee Professor of Health Psychology University of Queensland This book provides a comprehensive and accessible introduction to psychological aspects of reproductive health throughout the lifespan Drawing on psychological theory and a wealth of empirical research the importance of psychological factors in reproductive health is clearly demonstrated conceptualized within a broadly bio psycho social model The coverage of a broad range of topics from foetal growth to menopause including adolescence menstruation contraception abortion fertility pregnancy and post natal experience along the way is a great strength This book will become a key resource for health psychologists nurses and medical students who wish to understand psychological aspects of reproductive experience Jane M Ussher Professor of Women s Health Psychology University of Western Sydney and Author of *The Madness of Women Myth and Experience* This much needed resource brings together the most up to date and relevant research from a variety of disciplines to give a comprehensive account of the psychological factors surrounding reproductive health today Olga van den Akker provides a multidisciplinary exploration of all stages of the reproductive life span from embryonic infant child and adolescent sexual and reproductive development through reproductive and sexual health in adulthood and old age The book addresses the psychological influences on and impacts of sex gender and reproduction as well as adjustment to life after sexual or reproductive success failure or disease and disability Together the wide variety of topics are illuminating and challenging fostering a deeper understanding of the context of reproductive health through the life span      **Gay Fathers, Their Children, and the Making of Kinship** Aaron Goodfellow, 2015-06-01 While

the topic of gay marriage and families continues to be popular in the media few scholarly works focus on gay men with children Based on ten years of fieldwork among gay families living in the rural suburban and urban area of the eastern United States *Gay Fathers Their Children and the Making of Kinship* presents a beautifully written and meticulously argued ethnography of gay men and the families they have formed In a culture that places a premium on biology as the founding event of paternity Aaron Goodfellow poses the question Can the signing of legal contracts and the public performances of care replace biological birth as the singular event marking the creation of fathers Beginning with a comprehensive review of

the relevant literature in this field four chapters each presenting a particular picture of paternity explore a range of issues such as interracial adoption surrogacy the importance of physical resemblance in familial relationships single parenthood delinquency and the ways in which the state may come to define the norms of health The author deftly illustrates how fatherhood for gay men draws on established biological theological and legal images of the family often thought oppressive to the emergence of queer forms of social life Chosen with care and described with great sensitivity each carefully researched case examines gay fatherhood through life narratives Painstakingly theorized *Gay Fathers Their Children and the Making of Kinship* contends that gay families are one of the most important areas to which social scientists might turn in order to understand how law popular culture and biology are simultaneously made manifest and interrogated in everyday life By focusing specifically on gay fathers *Goodfellow* produces an anthropological account of how paternity sexuality and masculinity are leveraged in relations of care between gay fathers and their children

*Beyond Expectation* Jacquelyne Luce,2010-01-01 An in depth study of lesbian bi and queer women s experiences of thinking about and trying to become a parent *Beyond Expectation* draws on eighty two narrative interviews conducted during the late 1990s in British Columbia Jacquelyne Luce chronicles these women s experiences which took place from 1980 to 2000 during a period that saw significant changes to the governance of assisted reproduction and the status of lesbian gay bisexual and transgender parents and same sex partners *Beyond Expectation* looks closely at the changing contexts in which women s experiences occurred and draws attention to complex issues such as contracting relationships mediating understandings of biology and genetics and decision making amidst various social legal and medical developments Luce skillfully juxtaposes the stories of her interviewees with the wider public discourses about lesbian bi queer parenting and reproductive technology and highlights gaps in existing legislative reforms Most importantly *Beyond Expectation* foregrounds the lived experiences of lesbian bi and queer women as they negotiate kinship at the intersection of reproduction technology and politics

**Out the Window** Gerry Mulligan,2022-10-19 The Citrus County Chronicle was a small county seat weekly when Gerry Mulligan joined it in the late 1970 s Over the next 43 years he led the charge to turn the newspaper into a seven day daily in one of the state s fastest growing markets Along the way he was bitten by snakes screamed at by sheriffs maligned by politicians and ultimately had poop in his shoe from his own dog Over four decades he never once missed writing his weekly column For more than 2 200 consecutive weeks he told the stories of his community Some were funny some were sad and a few put Mulligan in the hospital In *Out the Window* you can enjoy some of the best

Joanne Rock     What's Making Our Children Sick? Michelle Perro,Vincanne Adams,2017-11-22 Exploring the links between GM foods glyphosate and gut health With chronic disorders among American children reaching epidemic levels hundreds of thousands of parents are desperately seeking solutions to their children s declining health often with little medical guidance from the experts What s Making Our Children Sick convincingly explains how agrochemical industrial production and genetic modification of foods is a culprit in this epidemic Is it the only culprit No Most chronic health disorders have multiple causes and require careful disentanglement and complex treatments But what if toxicants in our foods are a major culprit one that if corrected could lead to tangible results and increased health Using patient accounts of their clinical experiences and new medical insights about pathogenesis of chronic pediatric disorders taking us into gut dysfunction and the microbiome as well as the politics of food science this book connects the dots to explain our kids ailing health What s Making Our Children Sick explores the frightening links between our efforts to create higher yield cost efficient foods and an explosion of childhood morbidity but it also offers hope and a path to effecting change The predicament we now face is simple Agroindustrial innovation in a previous era hoped to prevent the ecosystem disaster of DDT predicted in Rachel Carson s seminal book in 1962 Silent Spring However this industrial agriculture movement has created a worse disaster a toxic environment and consequently a toxic food supply Pesticide use is at an all time high despite the fact that biotechnologies aimed to reduce the need for them in the first place Today these chemicals find their way into our livestock and food crop industries and ultimately onto our plates Many of these pesticides are the modern day equivalent of DDT However scant research exists on the chemical soup of poisons that our children consume on a daily basis As our food supply environment reels under the pressures of industrialization via agrochemicals our kids have become the walking evidence of this failed experiment What s Making Our Children Sick exposes our current predicament and offers insight on the medical responses that are available both to heal our kids and to reverse the compromised health of our food supply Perro and Adams book is an alarming eye opening read that documents more clearly than ever the devastating consequences that pervasive pesticide use in food production is having on our health and the urgent need to protect our children from a system that prefers we treat illness and disease with pills rather than prevention Carey Gillam journalist author of *Whitewash*     *The Newborn Twins Sleep Guide* Natalie Diaz,Kim West, MSW,2024-03-05 Parenting twins Double the joy double the fun and double the sleep deprivation Let the dynamic duo of Natalie Diaz from Twiniversity and Sleep Lady Kim West come to the rescue equipping you and your adorable twinnies with the ultimate gentle sleep solutions right from the moment they enter this world through the first five months Raising twins doesn t have to fill you with sleep dread There are many small ways to help them sleep just a little bit better right now long before your duo is ready for sleep training and together these can add up to significantly better sleep for everyone As founder of Twiniversity Natalie Diaz has welcomed millions of parents into the rewarding world of parenting twins Now she and longtime friend Kim West known around the world as The Sleep Lady turn their attention to
