Debussy's Resonance François de Médicis, Steven Huebner, 2018 Some of Debussy's most beloved pieces as well as lesser known ones from his early years set in a rich cultural context by leading experts from the English and French speaking worlds The music of Claude Debussy has always been widely beloved by listeners and performers alike more perhaps than that of any of the other pioneers of musical modernism However rich in itself his creative output also participated and continues to participate in a network of cultural connections the scope and meaning of

which can only be gleaned through multiple interpretive frameworks Debussy's *Resonance* offers twenty new studies by some of the most active and respected English and French language scholars of French music The book treats a large swath of the composer's music from previously unexplored modalities of his early years to late pieces such as the ballet *Jeux* and the *Douze études* and takes into consideration the numerous contexts that helped shape the works and the different ways that musicologists and critics have explained them

Los libros de viaje Leonardo Romero, Leonardo Romero Tobar, Patricia Almarcegui, 2005-10-13

El viajero que cuenta su viaje revive para él y para otros la que ha sido en origen una experiencia personal intransferible Viajar es trasladarse y contar es también trasladar con palabras Traslado o metáfora el viaje es también imagen de la vida humana como se viene repitiendo desde la Antigüedad Por ello quizá los relatos de viajes constituyen un producto textual inagotable que se manifiesta en todos los tiempos y en las más variadas modalidades literarias La investigación hispanística y la industria editorial española de los años recientes han neutralizado un juicio erróneo y han suscitado cada una desde el ámbito de su influencia un gran interés por los textos de viajeros antiguos y contemporáneos Existe pues un vigoroso esfuerzo intelectual sobre los libros de viaje que podemos documentar tanto en las publicaciones recientes como en las abundantes actividades académicas que enriquecen la investigación sobre este gran continente de textos Todo ello se traduce en la cada vez mayor interrelación entre los especialistas en el tema que trabajan en España y los que trabajan en otros países tal como se muestra en este volumen
