Question 3:

Give two examples of each.

(a) *Kharif* crop

(b) *Rabi* crop

Answer 3:

(a) **Kharif crop:** Paddy, maize, soyabean, groundnut, cotton, etc.

(b) **Rabi crop:** Wheat, gram, pea, mustard, etc.

Question 4:

Write a paragraph in your own words on each of the following.

(a) Preparation of soil

(c) Weeding

(b) Sowing

(d) Threshing

Answer 4:

(a) **Preparation of soil:** The preparation of soil is the first step before growing a crop. One of the most important tasks in agriculture is to turn the soil and loosen it. This allows the roots to penetrate deep into the soil. The loosened soil helps in the growth of earthworms and microbes which are friends of the farmer and add humus to it. Also, turning and loosening of soil brings the nutrient-rich soil to the top so that plants can use these nutrients.

(b) **Sowing:** Sowing is the most important part of crop production. Before sowing, good quality seeds are selected. Good quality seeds are clean and healthy seeds of a good variety. Seeds can be sown by seed drill or manually.

Learning outcomes in science education Sascha Bernholt, Knut Neumann, Peter Nentwig, 2012 One of the central features in current educational reforms is a focus on learning outcomes Many countries have established or revised standards to describe what teachers are supposed to teach and students are expected to learn More recently the emphasis has shifted to considerations of how standards can be operationalized in order to make the outcomes of educational efforts more tangible This book is the result of a symposium held in Kiel that was arranged by two science education groups one at the IPN Leibniz Institute for Science and Mathematics Education at the University of Kiel in Germany and the other at the University of York UK The seminar brought together renowned experts from 12 countries with different notions of the nature and quality of learning outcomes The aim was to clarify central conceptions and approaches for a better understanding among the international science education community The book is divided into five parts In Part A the organizers set the scene describing the rationale for arranging the symposium Part B provides a broad overview about different approaches challenges and pitfalls on the road to the clarification of meaningful and fruitful learning outcomes The set of papers in Part C provides deep insights into different although comparable approaches which aim to frame to assess and to promote learning and learning outcomes in science education Smaller projects are presented as well as broad coordinated national programs The papers in Part D outline the individual historical development from different national perspectives reflecting the deficits and problems that led to current reforms Finally a summary of the organizers analyses the conclusions from different vantage points **Fourteen Weeks in Popular Geology** Joel Dorman Steele, 1877 *Oil, The 4th Renewable Resource* Shawn Alli, 2012-11-20 The first and last book you'll ever need to understand oil and the myth of

fossil fuels The myth of fossil fuels and peak oil has been a part of the North American lifestyle for almost 100 years Beginning first in the schools children are anxious for an education but instead are indoctrinated to believe this deception As a student grows up they hear the same message propagating through governments media and various interest groups eventually accepting it as a scientific fact But the truth is now within your grasp in finding this book In *Oil The 4th Renewable Resource* you ll learn How the myth of fossil fuels begins How oil corporations are taking advantage of this myth The beginning of the abiogenic oil theory in 1877 How the myth of global warming and oil corporations go hand in hand Which renewable resource is the best And what actions you can take to affect change in the schools and government policy

Semiotic Approaches in Science Didactics Catherine Houdement,Cécile de Hosson,Christophe Hache,2022-11-01 The sciences are in essence highly semiotized Our ways of thinking and communicating about science are based on permanent transformations from one system of signs to another such as scriptural graphic symbolic oral and gestural signs The semiotic focus studied in this book makes it possible to grasp part of the complexity of teaching and learning phenomena by focusing on the variety of possible interpretations of the signs that circulate within the science classroom *Semiotic Approaches in Science Didactics* brings together contributions from didactic research involving various disciplines such as mathematics chemistry physics and geography which mobilize different types of semiotic support It offers the key to understanding and even reducing some of the misunderstandings that can arise between a speaker and a receiver in scientific teaching situations *ONTERIS Abstracts* Ontario. Balancing Dilemmas in Assessment and Learning in Contemporary Education Anton Havnes,Liz

McDowell, 2007-11-21 This book focuses on dilemmas inherent in the practice of assessment in the contemporary context. New forms of assessment are being introduced in all sectors of education and training and the culture of assessment is shifting. The authors in this volume discuss the practice of assessment reporting empirical research on modes of assessment within a variety of educational contexts while also addressing conceptual and theoretical aspects of assessment. Though most publications on assessment do not go beyond one sector or phase of education and only consider assessment in one national context, this volume is cross sectoral and international in scope. This groundbreaking book illustrates the conceptual and practical dilemmas of assessment and raises issues that are relevant and applicable across a variety of modes of assessment and across various contexts where assessment takes place.
