Tackling Tough Texts Sarah M. Lupo, Dan Reynolds, Christine Hardigree, 2024-11-20 Filling a crucial need this book provides concrete ways to support all students in grades 6 12 as they engage with rigorous grade level texts in English language arts science and social studies The authors offer fresh insights into adolescent reading and what makes a given text tough including knowledge demands text structure and complexity vocabulary and more Research based step by step strategies are presented for explicitly scaffolding these challenges in the context of purposeful learning activities that leverage students individual strengths and interests The book includes planning tips text selection guidelines sample text sets and vivid case studies from culturally and linguistically diverse classrooms Fourteen reproducible forms and handouts can be photocopied or downloaded for use with students

Curriculum-Based Assessment for Instructional Design Matthew K. Burns, David C. Parker, 2014-04-02 In Curriculum based Assessment for Instructional Design Burns and Parker described a number of authentic research based strategies and tools for assessing the student s prior knowledge existing skill level and preferred mode of learning in order to maximize the instructional process Indeed in this book Burns and Parker have developed a natural and practical extension of a conceptual format that was originally called simply curriculum based assessment The book provides much needed clarification of the several terms that have been used over the past three decades and it provides hands on application of the instructional principles involved

Understanding Psychological Assessment William I. Dorfman, Michel Hersen, 2013-11-11 Introductory texts on psychological testing and evaluation historically are not in short supply Typically however such texts have been relatively superficial in their discussion of clinical material and have focused primarily on the

theoretical and psychometric properties of individual tests More practical clinically relevant presentations of psychological instruments have been confined to individual volumes with advanced and often very technical information geared to the more sophisticated user Professors in introductory graduate courses are often forced to adopt several advanced texts to cover the material at the same time helping students wade through unnecessary technical information in order to provide a basic working knowledge of each test Understanding Psychological Assessment is an attempt to address these concerns It brings together into a single volume a broad sampling of the most respected instruments in the psychologist's armamentarium along with promising new tests of cognitive vocational and personality functioning Additionally it presents the most updated versions of these tests all in a practical clearly written format that covers the development psychometrics administrative considerations and interpretive hypotheses for each instrument Clinical case studies allow the reader to apply the interpretive guidelines to real clinical data thereby reinforcing basic understanding of the instrument and helping to insure that both the student and practitioner can actually begin to use the test Understanding Psychological Assessment includes cognitive and personality tests for adults children and adolescents as well as chapters on the theory of psychological measurement and integrated report writing

Functional Literacy and the Schools Donald L. Fisher, 1978 The New Rules of Measurement Susan E. Embretson, Scott L. Hershberger, 1999-02-01 In this volume prominent scholars from both psychology and education describe how these new rules of measurement work and how they differ from the old rules Several contributors have been involved in the recent construction or revision of a major test while others are well known for their theoretical contributions to measurement The goal is to provide an integrated yet comprehensive reference source concerned with contemporary issues and approaches in testing and measurement

Leading Standards-Based Education Reform Linda R. Vogel, 2010-11-16 Standards based education SBE has been the dominant educational reform movement since the early 1980s reinforced by federal and state accountability systems This book examines the efforts of educational leaders in implementing SBE to improve student achievement in a variety of demographic contexts but with common challenges Four stages of SBE implementation are identified that focus on strong district leadership of the articulation of how SBE can benefit students an investment in collaborative structures and teacher training and the facilitation of dialogue among all educational stakeholders The descriptions of leadership actions and educator development at each stage can serve as a guide for educators and policy makers to assess which stage schools and districts are in and what steps can be taken to effectively move SBE reform efforts forward The reflective questions for district school and teacher leaders at each stage can facilitate the dialogues that can ensure that SBE reform supports changes in classroom instruction that improve the learning opportunities and educational outcomes of all students

Linking and Aligning Scores and Scales Neil J. Dorans, Mary Pommerich, Paul W. Holland, 2007-10-15 In their preface to the second edition of Test Equating Scaling and Linking Mike Kolen and Bob Brennan 2004 made the following observation Prior to 1980 the subject of equating was ignored by most

people in the measurement community except for psychometricians who had responsibility for equating p vii The authors went on to say that considerably more attention is now paid to equating indeed to all forms of linkages between tests and that this increased attention can be attributed to several factors 1 An increase in the number and variety of testing programs that use multiple forms and the recognition among professionals that these multiple forms need to be linked 2 Test developers and publishers in response to critics often refer to the role of linking in reporting scores 3 The accountability movement and fairness issues related to assessment have become much more visible Those of us who work in this field know that ensuring comparability of scores is not an easy thing to do Nonetheless our customers the test takers and score users either assume that scores on different forms of an assessment can be used interchangeably or like the critics above ask us to justify our comparability assumptions And they are right to do this After all the test scores that we provide have an impact on decisions that affect people's choices and their future plans From an ethical point of view we are obligated to get it right

Models for Implementing Response to Intervention Edward S. Shapiro, Naomi Zigmond, Teri Wallace, 2011-01-25
This book examines the implementation of three empirically supported response to intervention RTI models in four different school districts The book addresses the complexity of putting RTI into place in the elementary grades showing how the process actually took place and what impact it had on school climates and student learning and behavior from publisher description
Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts James Flood, Shirley Brice Heath, Diane Lapp, 2011 The Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts a comprehensive overview of research on this topic extends conceptualizations of literacy to include all of the communicative arts reading writing speaking listening viewing and the visual arts of drama dance film art video and computer technology
