Egyptian Art in the Age of the Pyramids Metropolitan Museum of Art (New York, N.Y.), 1999 The Egyptian Old Kingdom c 2650 2150 BC was an era of extraordinary artistic achievement the period that gave us the Sphinx and the pyramids as well as a rich legacy of private tombs wall paintings reliefs statuary jewelry and decorative arts This book the companion volume to a major traveling exhibition organized by New York's Metropolitan Museum of Art and the Louvre in Paris showcases the most impressive assemblage of Egyptian art and artifacts since the Tutankhamun exhibition of the late 1970s Scholarly essays and 650 illustrations bring to life a remarkable panoply of Old Kingdom objects temple and tomb reliefs striking gold jewelry handsome stone vessels monumental statues stelae and exquisite statuettes Together text and images create a stunning tribute to the world of the Pharaohs Publisher's description Historical Outlook, 1926 *Honourable Conquests* A.J Smithers, 1998-11-12 The origin of the Corps of Royal Engineers now affectionately known as The Sappers but then as the King's Military Engineers has been traced as far as 1414 though it was not until 1716 that a permanent officer corps of engineers was established by the Board of Ordnance with the title Corps of Engineers Being part of the Regular Army it is hardly surprising that the Corps should be associated in the public mind with such tasks as building roads bridges and defensive works or breaching those of the enemy and scant attention was hitherto been paid to the remarkable achievements of the Corps in times of peace In *Honourable Conquests* A.J Smithers sets out to redress that balance Britain having acquired an Empire more by accident than design it fell to the lot of the Army first in India and later in other parts of the Empire to act in the role of unofficial Colonial Policemen As well we all know the policemen's lot is not a happy one so the ingenious

Engineers found better ways to pass the time thereby leaving behind them some remarkable testimonies not only to their professional skills but to their very considerable contribution to the welfare of mankind in India in Canada in Australia and other parts of the Empire It is to such men as General Pasley Colonel By General Cotton and Sir Colin Scott Moncrieff truly great men now all but forgotten on whom Smithers turns his narrative skill and wry humour in this fascinating book As the completion of the Channel Tunnel approaches his penultimate chapter concerning the involvement of the Royal Engineers with that project over a hundred years ago will be of particularly topical interest

From early reports of the invention to its wide application during World War I the idea of photography created anticipation and participation in the modern world The first volume of *A History of Photography in Canada* captures this phenomenon by looking at hundreds of photographs generated in and about Canada in the making and by listening to the chords they struck in the collective imagination Emphasizing technological readiness and cultural eagerness for the medium Martha Langford shows how photography served ideals of progress and improvement as Canada's settler society looked to master the world by seizing its visible traces The imposition of these programs on Indigenous Peoples and indentured labourers is confronted throughout this volume which offers both narratives and counternarratives of subjectification Reproducing images of people places events and objects from the unceded territories of the First Nations Inuit and Métis from British North America and from the Dominion of Canada and the Dominion of Newfoundland Langford asks where and when photographs were taken why and by whom How did the making and preservation of a photograph alter the circumstances in which it was produced and how did this affect individual and collective consciousness Alongside accomplished portraits landscapes still lifes and their vernacular counterparts the book draws glimmers of photographic experience from treatises and doggerel official reports and personal diaries newspapers magazines letters and travelogues *Anticipation to Participation* chronicles eight decades of reinvention and repurposing from a wondrous discovery to the wide adoption of a basic tool for knowledge gathering artmaking and journaling Langford's sweeping narrative rewrites the history of photography from the bottom up vividly expanding the definition of photographic experience *The Athenæum*, 1858
