*Griechische Denominativa in ihrer geschichtlichen Entwicklung und Verbreitung* Ernst Fraenkel, 1906      **The Languages of Aristophanes** Andreas Willi, 2003-09-19 By examining linguistic variation in Aristophanic comedy Andreas Willi opens up a new perspective on intra dialectal diversity in Classical Attic Greek A representative range of registers technical languages sociolects and comic idiolects is described and analysed Stylistic and statistical observations are combined and supplemented by typological comparisons with material drawn from sociolinguistic research on modern languages The resulting portrayal of the Attic dialect deepens our understanding of various socio cultural phenomena reflected in Aristophanes work such as the spread of sophistic culture the re evaluation of gender roles and the status of foreigners in Athenian society      *The Reflexes of Syllabic Liquids in Ancient Greek* Lucien van Beek, 2021-11-08 How can we explain metrical irregularities in Homeric phrases like What do such phrases tell us about the antiquity of the epic tradition And how did doublet forms such as beside originate In this book you will find the first systematic and complete account of the syllabic liquids in Ancient Greek It provides an up to date comprehensive and innovative etymological treatment of material from all dialects including Mycenaean A new model of linguistic change in the epic tradition is used to tackle two hotly debated problems metrical irregularities in Homer including muta cum liquida and the double reflex The proposed solution has important consequences for Greek dialect classification and the prehistory of Epic language and meter      **Geschichte der griechischen nomina agentis auf [-tērḥ, -tōrh, -tēs(-t-)]:** t. **Entwicklung und verbreitung der nomina im epos, in der elegie und in den ausserionisch-attischen dialekten** Ernst Fraenkel, 1910      *Catalogue of Books in the Calcutta University Library* University of Calcutta. Library, 1926      **Sub-Indo-European Europe** Guus Kroonen, 2024-10-21 The dispersal of the Indo European language family from the third millennium BCE is thought to have dramatically altered Europe s linguistic landscape Many of the preexisting languages are assumed to have been lost as Indo European languages including Greek Latin Celtic Germanic Baltic Slavic and Armenian dominate in much of Western Eurasia from historical times To elucidate the linguistic encounters resulting from the Indo Europeanization process this volume evaluates the lexical evidence for prehistoric language contact in multiple Indo European subgroups at the same time taking a critical stance to approaches that have been applied to this problem in the past      Josephus and Faith Lindsay, 2018-12-10 Explores the use of the words pistis and pisteuein as faith terminology by Josephus This is the first major study of the pist word group in the writings of Josephus The first part of the book examines the development of a religious understanding of the Greek word group Special emphasis is given to the religious use of the pist words in Classical and Hellenistic Greek in the Septuagint in Sirach and in Philo The second and main part of the book deals specifically with the use of the word group both secular and religious by Josephus His use of this faith terminology is compared with that of the New Testament This section includes a critical look at the thesis that faith in the New Testament is primarily a Hellenistic concept      *Der Gebrauch des Konjunktivs*

 This volume proposes a multidisciplinary approach to the history of Ancient Greek. Each of its ten papers offers a methodological example of how the study of Greek can be greatly enhanced by a truly multidisciplinary perspective in which the analysis of language interacts with epigraphy, textual philology and comparative linguistics yet without neglecting the role that linguistic features play in the texts in which they are used and hence in the culture which produced both. The first four papers tackle epic language addressing eccentric pronouns and formulas, the role and semantics of the middle perfect and the development of hexameter poetry in the colonial West. The next two papers are devoted to lyric poetry and its linguistic influence in Greek literature and tackle fragments by Corinna and Epicharmus respectively. The remaining four contributions look into a variety of topics spanning from early Ionic prose to the diachronic development of the Greek lexicon and its reception in Byzantine lexicography. They all provide examples of how Greek literary language evolved across the centuries, how it was perceived by ancient scholars and what contribution modern linguistic approaches can provide to our understanding of both these issues.
