**Knowledge Leadership** Steven A. Cavaleri, Sharon Seivert, 2012-06-14 In Knowledge Leadership Cavaleri and Seivert describe the dawning of a new era in which individuals are leading rather than managing knowledge In the past many knowledge based initiatives have failed because leaders underestimated the powerful link between knowledge and performance improvement and also because they mistakenly thought that information was the same as knowledge Cavaleri and Seivert claim that while information is a necessary precursor to knowledge it is not sufficient in itself for improving business performance The authors describe notable organizations that use the pragmatic knowledge strategies they describe to gain competitive advantage Pragmatic knowledge is the result of individuals developing a deeper understanding of how and why things work best in practice The process of creating pragmatic knowledge transforms key lessons from systems

thinking total quality management and organization learning into a powerful new business strategy To help readers apply the concepts and tools in this book Cavaleri and Seivert draw on case examples and a decade of original cross cultural research about knowledge leadership They also invite readers to use The Knowledge Bias Profile to discover their knowledge leadership style The book systematically outlines a user friendly strategy for becoming a knowledge leader and for building high performing knowledge based organizations *Promoting Executive Function in the Classroom* Lynn
