Growing Up The Chinese Way Chinese Child And Adolescent Development:

Growing Up the Chinese Way Sing Lau, 1996 This volume is a collection of current research on Chinese child development the context of development cognitive development social development and new issues related to the topic

Fatherhood, Adolescence and Gender in Chinese Families Qiong Xu, 2017-02-07 Little is known about the roles of fathers in non western cultures Given the changing socio economic and political circumstances of China Xu identifies the importance of investigating Chinese fathers particularly in dual earner families as women s participation in the labour market increases This study of father daughter relationships examines their perspectives on their relationships and identities The book seeks to understand how girls construct their feminine identities as teenage girls and how fathers understand their masculine identities outside the workplace It further explores their family practices and how they negotiate parental authority and adolescent independence Inviting us to think about Chinese people s attitudes family practice emotions and aspirations which constitute a crucial complement to our understanding of the remaking of Chinese society and Chinese lives **Fatherhood Adolescence and Gender in Chinese Families** focuses on how the widespread social and economic reforms interact with traditional attitudes rooted in Confucianism to provide new contexts for parent child and gender relationships

Learning and Teaching in the Chinese Classroom Shane N. Phillipson, Bick-har Lam, 2011-10-01 A major concern of all education authorities around the world is the challenge that schools face in catering for learner diversity That this concern is shared by authorities in East Asia including the Education Bureau EDB of Hong Kong is surprising given the high academic achievement of students from this part of the world This book helps to meet this challenge for teachers in East Asia by focusing on specific research that helps explain the basis for diversity in the Chinese learner Although there are many textbooks that cover the basic principles of educational psychology few do not focus on the Chinese learner This book makes the link between the broad field of educational psychology and how these theories contribute to our understanding of the Chinese learner This book is unique in that it draws on recent research to illustrate the application of these theories thereby helping teachers and students in teacher education programmes understand the variability in student achievement Our book is based on the idea that the Chinese context is in many ways different to other cultural contexts and that teachers can make a difference to the outcomes of student learning We also draw on our many years of experience in educating future teachers where our students want us to focus on the Chinese classroom Our student teachers also want to be educated by professors who are themselves researchers In drawing on research about the Chinese learner we also bring to our student teachers the richness and value of educational research We also encourage our student teachers to think of themselves as professional researchers in terms of developing an understanding of the research literature and in finding solutions to their classroom problems

Beyond the Century of the Child Willem Koops, Michael Zuckerman, 2012-10-30 In 1900 Ellen Key wrote the international bestseller *The Century of the Child* In this enormously influential book she proposed that the world s children

should be the central work of society during the twentieth century. Although she never thought that her century of the child would become a reality, in fact it had much more resonance than she could have imagined. The idea of the child as a product of a protective and coddling society has given rise to major theories and arguments since Key's time. For the past half century, the study of the child has been dominated by two towering figures: the psychologist Jean Piaget and the historian Philippe Ariès. Interest in the subject has been driven in large measure by Ariès's argument that adults failed even to have a concept of childhood before the thirteenth century and that from the thirteenth century to the seventeenth there was an increasing childishness in the representations of children and an increasing separation between the adult world and that of the child. Piaget proposed that children's logic and modes of thinking are entirely different from those of adults. In the twentieth century, this distance between the spheres of children and adults made possible the distinctive study of child development and also specific legislation to protect children from exploitation, abuse, and neglect. Recent students of childhood have challenged the ideas those titans promoted; they ask whether the distancing process has gone too far and has begun to reverse itself. In a series of essays, *Beyond the Century of the Child* considers the history of childhood from the Middle Ages to modern times, from America and Europe to China and Japan, bringing together leading psychologists and historians to question whether we unnecessarily infantilized children and unwittingly created a detrimental wall between the worlds of children and adults. Together, these scholars address the question whether a hundred years after Ellen Key wrote her international sensation, *The Century of the Child*, has in fact come to an end.

Parent-Youth Relations Stephan Wilson, Gary W. Peterson, Suzanne Steinmetz, 2012-12-06

Explore the most fundamental human relationship between parent and child. Western social science has long neglected to acknowledge that family relationships must always be examined from a culturally sensitive perspective. *Parent-Youth Relations: Cultural and Cross Cultural Perspectives* fills this void by exploring in depth the most fundamental human relationship between parent and child in different societies around the world. International experts provide a comprehensive collection of original research and theory on how parental styles and the effects of culture are interconnected. Written from diverse perspectives, this unique resource reveals deep insight into these relationships by focusing on the individuals, the structure of the family, and societal and cultural influences. Parental relations and cultural belief systems both play integral parts on how socialization and development occur in children. *Parent-Youth Relations: Cultural and Cross Cultural Perspectives* presents several viewpoints, some comparing similarities and differences across societies or nations, others exploring relationships within a single culture. This probing global look at parent-youth relations provides sensitively nuanced information valuable for every professional or student in the social sciences. Detailed tables illustrate research data, while thorough bibliographies offer opportunities for further study. *Parent-Youth Relations: Cultural and Cross Cultural Perspectives* explores parenting style and its effects on children in Chinese culture, parenting style in problem-solving situations in Hong Kong, cross-national perspectives on parental acceptance/rejection theory, multinational

Talking about Right and Wrong Cecilia Wainryb, Holly E. Recchia, 2014-03-20 Though it is generally acknowledged that parents are directly implicated in how and what their children learn about right and wrong little is known about how the process of moral socialization proceeds in the context of family life and how it gets played out in actual parent child conversations This volume brings together psychological research conducted in different countries documenting how parents and their children of different ages talk about everyday issues that bear on right and wrong More than 150 excerpts from real parent child conversations about children s own good and bad behaviors and about broader ethical concerns that interest both parents and children such as global warming or gender equality provide a unique window into the moral socialization process in action Talking about Right and Wrong also underscores distinct psychological and sociocultural processes that explain how such everyday conversations may further or hinder children s moral development

Handbook of Moral Development Melanie Killen, Judith G. Smetana, Judith Smetana, 2005-07-06 The psychological study of moral development has expanded greatly both in terms of the diversity of theoretical perspectives that are represented in the field as well as in the range of topics that have been studied This Handbook of Moral Development represents the diversity and multidisciplinary influences on current theorizing about the psychological study of moral development and the range and broad scope of topics being considered by scholars in the field

The World's Youth Benson Bradford Brown, Reed W. Larson, T. S. Saraswathi, 2002-10-10 The life stage of adolescence now occurs in most corners of the world but it takes different forms in different regions. Peers with such a central role in Western adolescence play a comparatively minor role in the lives of Arabic and South Asian adolescents. Emotional turmoil and individuation from family occur in some societies but not others. Adolescent sexual revolutions are sweeping through Japan and Latin America. In this 2002 book, scholars from eight regions of the world describe the distinct nature of adolescence in their regions. They draw on research to address standard topics regarding this age: family and peer relationships, schooling, preparation for work, physical and mental health, and show how these have a different cast across societies. As a whole, the book depicts how rapid global change is dramatically altering the experience of the adolescent transition, creating opportunities and challenges for adolescents, parents, teachers, and concerned others.

The Child in World Cinema Debbie Olson, 2018-02-19 This collection seeks to broaden the discussion of the child image by close analysis of the child and childhood as depicted in non-Western cinemas. Each essay offers a counter-narrative to Western notions of childhood by looking critically at alternative visions of childhood that does not privilege a Western ideal. Rather, this collection seeks to broaden our ideas about children, childhood, and the child's place in the global community. This collection features a wide variety of contributors from around the world who offer compelling analyses of non-Western, non-Hollywood films starring children.

The Psychology of Asian Learners Ronnel B. King, Allan B. I. Bernardo, 2015-10-12 This book celebrates the scholarly achievements of Prof. David A. Watkins, who has pioneered research on the psychology of Asian learners and helps readers grasp the cognitive, motivational, developmental, and socio-cultural aspects of Asian learners' learning experiences. A wide range of empirical and review papers, which examine the characteristics of these experiences as they are shaped by both the particularities of diverse educational systems, cultural milieus, and universal principles of human learning and development, are showcased. The individual chapters, which explore learners from fourteen Asian countries, autonomous regions, and/or economies, build on research themes and approaches from Prof. Watkins' research work and are proof of the broad importance and enduring relevance of his seminal psychological research on learners and the learning process.

A Comparison of Eastern and Western Parenting Low Yiu Tsang, Andrew, 2019-03-06 Parenting adolescents is a challenging task for parents. Professionals offer a range of support and parenting programmes to support parents. However, the importance of culturally adapting parenting programmes to benefit parents and their adolescent children hasn't always been understood. This book provides a comparison of East and West parenting approaches and parenting programmes to show how vital a culturally sensitive approach is to the positive development of the parent-adolescent relationship. It offers a comprehensive overview of current theories and research on parenting adolescents. It focuses on comparing the differences in parenting style and practice between Chinese parents and their Western counterparts and the policy context in Chinese culture with that in the West. It also offers guidance on how to

conduct an evaluation of parenting programmes and how to adapt them for the right cultural setting Postgraduate students studying parenting developmental psychology or social work will find this work particularly useful as will researchers in any of these areas

Young Chinese in Urban China Alex Cockain, 2012-08-21 This book examines the condition of being a young person in China and the way in which changes in various dimensions of urban life have affected Chinese youths' quests to understand themselves The author examines social factors such as changes in the physical construction of urban neighbourhoods changes in family life including reduced family size increasing rates of divorce and increased physical mobility of the family unit school life and mounting pressure to perform well in examinations and be a good student access to foreign and domestic media as well as access to the internet Drawing on the fields of social and cultural anthropology Alex Cockain shows that the process of self understanding in a changing spatial social and cultural world involves ongoing disjointed efforts to achieve a sense of security and belonging on the one hand and a degree of increased autonomy in their relationships with for example parents and teachers on the other This book will appeal to anyone interested in Chinese Society Social and Cultural Anthropology Asian Anthropology and Youth Studies

Using Narrative Inquiry for Educational Research in the Asia Pacific Sheila Trahar, Wai Ming Yu, 2015-04-10 Narrative inquiry is being used more widely in the UK the USA Canada Australia New Zealand and Northern European countries to conduct research across a range of disciplines It is gaining popularity in Hong Kong Macao and Mainland China but research in these contexts continues to be dominated by quantitative and more traditional qualitative approaches Narrative inquirers in these areas can therefore find it problematic to have the value of their work acknowledged This book demonstrates creatively accessibly and rigorously the ways in which narrative inquiry as a methodological approach already more firmly established in Australia and New Zealand is gaining a foothold in other parts of the Asia Pacific region Contributors to the book write about their use of narrative inquiry in for example the Confucian heritage cultures CHC of Hong Kong Mainland China Singapore Macao and the Anglo Celtic cultures of Australia and New Zealand Chapters in the book include Creative Non Fiction Across Cultures in Asia Pacific Contexts Riding the Wave of Education Reform Using a Reflecting Team to Explore the Professional Identities of School Counsellors in Hong Kong Is the Silent Mode On Researching Teachers' Voices in Macao through Narrative Research Narrative Inquiry and the Exploration of Culture for Improving Teacher Education This book will appeal to researchers across all sectors of education in particular those who are exploring the use of qualitative research methods in their context Those interested in comparative education and cross cultural studies will also find this book valuable

Raising Global Families Pei-Chia Lan, 2018-07-17 Public discourse on Asian parenting tends to fixate on ethnic culture as a static value set

disguising the fluidity and diversity of Chinese parenting Such stereotypes also fail to account for the challenges of raising children in a rapidly modernizing world full of globalizing values In *Raising Global Families* Pei Chia Lan examines how ethnic Chinese parents in Taiwan and the United States negotiate cultural differences and class inequality to raise children in the contexts of globalization and immigration She draws on a uniquely comparative multisited research model with four groups of parents middle class and working class parents in Taiwan and middle class and working class Chinese immigrants in the Boston area Despite sharing a similar ethnic cultural background these parents develop class specific context sensitive strategies for arranging their children s education care and discipline and for coping with uncertainties provoked by their changing surroundings Lan s cross Pacific comparison demonstrates that class inequality permeates the fabric of family life even as it takes shape in different ways across national contexts
