**Arts Integration in Diverse K-5 Classrooms** Liane Brouillette, 2019-07-12 Partnerships are now pervasive in global education and development but are they creating equitable cooperative and positive relationships Through case studies of prominent multistakeholder partnerships including the Education Cannot Wait Fund and Global Partnership for Education as well as a comprehensive analysis of the global education network this book exposes clear power imbalances that persist in the international aid environment The author reveals how actors and organizations from high income countries continue to wield disproportionate influence while the private sector holds a growing degree of authority in public policy circles In light of such evidence this book questions if partnerships truly ameliorate power asymmetries or if they instead reproduce the precise inequities they are meant to eliminate This text offers a thoughtful look into both theoretical and practical issues surrounding arts integration as a viable strategy for increasing students achievement and access to higher education and career pathways It is especially timely in the context of a widespread focus on equity and inclusion as teachers are facing more diversity in the classroom than ever before
