The Archaeology of Harriet Tubman's Life in Freedom Douglas V. Armstrong,2022-09-09 Harriet Tubman s social activism as well as her efforts as a soldier nurse and spy have been retold in countless books and films and have justly elevated her to iconic status in American history Given her fame and contributions it is surprising how little is known of her later years and her continued efforts for social justice women s rights and care for the elderly Tubman housed and cared for her extended family parents brothers sisters nieces and nephews as well as many other African Americans seeking refuge Ultimately her house just outside of Auburn New York would become a focal point of Tubman s expanded efforts to provide care to those who came to her seeking shelter and support in the form of the Harriet Tubman Home for the Aged In this book Armstrong reconstructs and interprets Tubman s public and private life in freedom through integrating his archaeological findings with historical research The material record Tubman left behind sheds vital light on her life and the ways in which she interacted with local and national communities giving readers a fuller understanding of her impact on the lives of African Americans Armstrong s research is part of a wider effort to enhance public interpretation and engagement with the Harriet Tubman Home Harriet Tubman Kristen T. Oertel,2015-08-20 Escaped slave Civil War spy scout and nurse and champion of women s suffrage Harriet Tubman is an icon of heroism Perhaps most famous for leading enslaved people to freedom through the Underground Railroad Tubman was dubbed Moses by followers But abolition and the close of the Civil War were far from the end of her remarkable career Tubman continued to fight for black civil rights and campaign fiercely for women s suffrage throughout her life In this vivid concise narrative supplemented by primary documents Kristen T Oertel introduces readers to Tubman s extraordinary life from the trauma of her childhood slavery to her civil rights activism in the late

The American Stamp Laura Goldblatt, Richard Handler, 2023-02-13 More than three thousand different images appeared on United States postage stamps from the middle of the nineteenth century to the end of the

twentieth Limited at first to the depiction of a small cast of characters and patriotic images postal iconography gradually expanded as the Postal Service sought to depict the country's history in all its diversity This vast breadth has helped make stamp collecting a widespread hobby and made stamps into consumer goods in their own right Examining the canon of nineteenth and twentieth century American stamps Laura Goldblatt and Richard Handler show how postal iconography and material culture offer a window into the contested meanings and responsibilities of U S citizenship They argue that postage stamps which are both devices to pay for a government service and purchasable items themselves embody a crucial tension is democracy defined by political agency or the freedom to buy The changing images and uses of stamps reveal how governmental authorities have attempted to navigate between public service and businesslike efficiency belonging and exclusion citizenship and consumerism Stamps are vehicles for state messaging and what they depict is tied up with broader questions of what it means to be American Goldblatt and Handler combine historical sociological and iconographic analysis of a vast quantity of stamps with anthropological exploration of how postal customers and stamp collectors behave At the crossroads of several disciplines this book casts the symbolic and material meanings of stamps in a wholly new light

Charting the Afrofuturist Imaginary in African American Art Elizabeth Carmel Hamilton, 2022-08-12 This book examines Afrofuturism in African American art focusing specifically on images of black women and how those images expand the discourse of representation in visual culture of the United States This volume defines a visual language of Afrofuturism that includes materiality temporality and black liberation

Elizabeth Hamilton discusses the visual progenitors of Afrofuturism In the artworks of Pierre Bennu Sanford Biggers Alison Saar Mequitta Ahuja Robert Pruitt Renee Cox Dawolu Jabari Anderson Alma Thomas and Harriet Powers the fantastic narratives of Afrofuturism are uncovered through in depth case studies These case studies engage with Afrofuturism as a black feminist visual theory that helps to unburden the images of black women from the stereotypical visual scripts that are so common in contemporary visual culture of the United States The book will be of interest to scholars working in art history visual studies American literature gender studies popular culture and African American studies The Agitators Dorothy Wickenden,2022-02-22 Harriet Tubman strategically brilliant and uncannily prescient rescued some seventy enslaved people from Maryland s Eastern Shore and shepherded them north along the underground railroad In Auburn New York she entrusted passengers to Martha Coffin Wright a Quaker abolitionist and leader of the women s rights movement and Frances A Seward whose husband served as New York s governor and senator and then as secretary of state under Abraham Lincoln The Agitators opens in the 1820s when Tubman is enslaved in Maryland and Wright and Seward are young homemakers in upstate New York bound by law and tradition and it ends after the Civil War Many of the most prominent figures of the era William H Seward Lincoln Frederick Douglass Elizabeth Cady Stanton Charles Sumner John Brown William Lloyd Garrison are seen through the discerning eyes of the protagonists So are the most explosive political debates about the civil rights of African Americans and women about the enlistment of Black troops and about opposing interpretations of the Constitution Wickenden traces the second American revolution these women fought to bring about and its lasting effects on the country Profoundly relevant to our own time The Agitators brings a vibrant original voice to this transformative period in our history Book jacket Toward an Intellectual History of Black Women Mia E. Bay, Farah J. Griffin, Martha S. Jones, Barbara D. Savage,2015-04-13 Despite recent advances in the study of black thought black women intellectuals remain often neglected This collection of essays by fifteen scholars of history and literature establishes black women s places in intellectual history by engaging the work of writers educators activists religious leaders and social reformers in the United States Africa and the Caribbean Dedicated to recovering the contributions of thinkers marginalized by both their race and their gender these essays uncover the work of unconventional intellectuals both formally educated and self taught and explore the broad community of ideas in which their work participated The end result is a field defining and innovative volume that addresses topics ranging from religion and slavery to the politicized and gendered reappraisal of the black female body in contemporary culture Contributors are Mia E Bay Judith Byfield Alexandra Cornelius Thadious Davis Corinne T Field Arlette Frund Kaiama L Glover Farah J Griffin Martha S Jones Natasha Lightfoot Sherie Randolph Barbara D Savage Jon Sensbach Maboula Soumahoro and Cheryl Wall **Characters of Blood** Celeste-Marie Bernier,2012-12-06 Across the centuries the acts and arts of black heroism have inspired a provocative experimental and self reflexive intellectual political and aesthetic tradition In Characters of Blood Celeste Marie Bernier illuminates the ways in which six iconic men and women Toussaint

Louverture Nathaniel Turner Sengbe Pieh Sojourner Truth Frederick Douglass and Harriet Tubman challenged the dominant conceptualizations of their histories and played a key role in the construction of an alternative visual and textual archive. While these figures have survived as symbolic touchstones, Bernier contends that scholars have yet to do justice to their complex bodies of work or their multifaceted lives. Adopting a comparative and transatlantic approach to her subjects' remarkable life stories, the author analyzes a wealth of creative work from literature, drama, and art to public monuments, religious tracts, and historical narratives to show how it represents enslaved heroism throughout the United States, Africa, and the Caribbean. In mapping this Black diasporic tradition of resistance, Bernier intends not only to reveal the limitations and distortions on record but also to complicate the definitions of Black heroism that have been restricted by ideological boundaries between heroic and anti-heroic sites and sights of struggle.

African American Literature in Transition, 1850-1865: Volume 4, 1850-1865 Teresa Zackodnik, 2021-05-13 The period of 1850-1865 consisted of violent struggle and crisis as the United States underwent the prodigious transition from slaveholding to ostensibly free nation. This volume reframes mid-century African American literature and challenges our current understandings of both African American and American literature. It presents a fluid tradition that includes history, science, politics, economics, space, and movement; the visual and the sonic. Black writing was highly conscious of transnational and international politics, textual circulation, and revolutionary imaginaries. Chapters explore how Black literature was being produced and circulated, how and why it marked its relation to other literary and expressive traditions, what geopolitical imaginaries it facilitated through representation, and what technologies, including print, enabled African Americans to pursue such a complex and ongoing aesthetic and political project.

Religious Speech and the Quest for Freedoms in the Anglo-American World Wendell Bird, 2023-04-20 In the secular contemporary world, many people question the relevance of religion. Many also wonder whether religiously informed speech and beliefs should be tolerated in the public square and whether religions hinder freedom. In this volume, Wendell Bird reminds us that our basic freedoms are the important legacies of religious speech arising from the Judeo-Christian tradition. Bird demonstrates that religious speech, rather than secular or irreligious speech based on other belief systems, historically made the demands and justifications for at least six critical freedoms: speech and press rights for the criminally accused, higher education, emancipation from slavery, and freedom from discrimination. Bringing an historically informed approach to the development of some of the most important freedoms in the Anglo-American world, this volume provides a new framework for our understanding of the origins of crucial freedoms. It also serves as a powerful reminder of an aspect of history that is steadily being forgotten or overlooked: that many of our basic freedoms are the historical legacies of religious speech arising from Judeo-Christian faiths.

Freeman's Challenge Robin Bernstein,2024-05 Robin Bernstein relates a bloody tale of race murder and injustice that forces us to rethink the origins and consequences of America s immoral system of prisons for profit Bernstein brings to life the story of William Freeman a free Black man who in 1840 was forced into unpaid labor as an inmate of Auburn State Prison in New York After his release he murdered four members of a white family as revenge for the theft of his labor His trial saw the crystallization of a nefarious ideology the idea that African Americans are inherently criminal yet it also shaped Auburn as an important node in the long battle for Black freedom
