

# FERGUSON TRACTOR OPERATOR'S MANUAL

The Ferguson Tractor is a precision built machine designed for efficient performance, economy, and ease of operation. Although it is unusually rugged and capable of giving outstanding service, it should not be abused or neglected. To obtain the high outstanding service for which the tractor has been designed and developed, the operator is recommended to note the following points:

1. Keep a new tractor on light work for fifty hours.
2. Do not attempt to turn sharply using one brake when traveling at high speed.
3. Do not attempt to pull from the top link connection.
4. Drive slowly in difficult going.
5. Do not carry anything on the implement.
6. Keep all nuts and bolts tight. This precaution is a general practice with all good operators, who have found that it prolongs the life of the tractor by keeping all parts in perfect alignment.
7. Use an adequate shield to protect the power take-off universal joints.
8. Do not use the drawbar without the drawbar stays.
