AERIAL PHENOMENA Martin Shough, 2019-06-28 UNRAVELLING AERIAL MYSTERIES OF THE PAST Charles Fort published his first and most influential book The Book of the Damned a century ago in 1919 collecting together many historical reports of strange aerial phenomena Since the birth of the UFO controversy in 1947 Fort's writings have been cited in countless books and web pages Yet this is the first time in a hundred years that researchers have systematically verified the sources and content of every one of these oft recycled stories correcting many errors placing each case in its historical context and submitting it to a careful scientific investigation in an attempt to find a conventional answer What were these reported phenomena Is it possible to find non exotic explanations With the advantage of modern knowledge methods and resources in most cases the answer proves to be yes Some of the solutions found may shock the general reader and surprise even specialists Yet in the end a few well documented events remain unexplained

separate chapters speak to two important and integrated issues The first is methodological all the chapters demonstrate the rewards of long term study of a culture The second issue is how he became truer to the Songhay through increased sensual awareness
