

In this remarkable book we see a comprehensive battle plan. A ten step program that begins to address and resolve the network of interlinked challenges that society needs to confront... In fact, this kind of symbiotic networking system could profoundly change society."

Ronald E. Coifman, Philip Professor of Mathematics, Yale University
Recipient of the US Congressional Medal of Science

This is not another book written on this vital topic. It is a unique proposal that could change the world... if adopted, it can and will eradicate pensioner poverty."

Professor Sam Sagie, Hebrew University of Jerusalem

In my opinion this is highly original work which provides a clear and well organised way forward which is of potential national importance. The solution which you suggest is truly breathtaking in its scale, scope and potential beneficial impact."
