Transcending Architecture Julio Bermudez,2015 Please fill in marketing copy The Origins of Shamanism, Spirit Beliefs, and Religiosity H. Sidky,2017-06-21 In The Origins of Shamanism Spirit Beliefs and Religiosity H Sidky examines shamanism as an ancient magico religious divinatory medical and psychotherapeutic tradition found in various parts of the world Sidky uses first hand ethnographic fieldwork and scientific theoretical work in archaeology cognitive and evolutionary psychology and neurotheology to explore the origins of shamanism spirit beliefs the evolution of human consciousness and the origins of ritual behavior and religiosity *Public Performances* Jack Santino,2017-12-15 *Public Performances* offers a deep and wide ranging exploration of relationships among genres of public performance and of the underlying political motivations they share Illustrating the connections among three themes the political the carnivalesque and the ritualesque this volume provides rich and comprehensive insight into public performance as an assertion of political power Contributors consider how public genres of performance express not only celebration but also dissent grief and remembrance examine the permeability of the boundaries between genres and analyze the approval or regulation of such events by municipalities and other institutions Where the particular use of public space is not sanctioned or where that use meets with hostility from institutions or represents a critique of them performers are effectively reclaiming public space to make public statements on their own terms an act of popular sovereignty Through these concepts *Public Performances* distinguishes the sometimes overlapping dimensions of public symbolic display Carnival and thus the carnivalesque is understood to possess tacit social

permission for unconventional or even deviant performance on the grounds that normal social order will resume when the performance concludes. Ritual and the ritualesque leverages a deeper symbolic sensibility one believed or at least intended by the participants to effect transformative longer term change.

El Niño Fidencio and the Fidencistas Antonio Noé Zavaleta Ph.D., 2016-08-17

El Nio Fidencio and the Fidencistas Folk Religion on the U S Mexican Borderland is a biographical ethnography examining the life of Mexico's most famous folk healer as well as the folk religious healing cult that has followed him since his death in 1938. Dr Zavaleta examines curanderismo, the transmigrational patterns of Mexicans in the United States as well as Latino social psychology and importance of folk beliefs and practices in their daily lives. In 2009 Zavaleta's lifetime of research supporting Mexican nationals living abroad, *Mexicanos en el Extranjero*, earned him the prestigious Ohtli, a Nahuatl Aztec word meaning pathfinder. The Ohtli is regarded as the highest community minded award which the Republic of Mexico bestows to non Mexican citizens for their service to Mexico. In 2010 Zavaleta was appointed by President Obama to the Good Neighbor Environmental Commission of the EPA, which reports directly to the President and is dedicated to observing and analyzing ongoing events within the cross border eco systems of the United States Mexico borderlands. Zavaleta studied anthropology at The University of Texas at Austin, completing a doctoral degree in 1976. For the past 40 years he has been a faculty member and administrator at The University of Texas at Brownsville and Texas Southmost College and The University of Texas Rio Grande Valley. Dr Zavaleta retired in 2016 and lives in Brownsville, Texas.

The Religious Men in Jebel Marra Bakheit M. Nur Mohammed, 2017

The study investigates how Muslim religious specialists (fuqar) acquire Qur'anic knowledge in the context of the communities of practice. It contextualises the Qur'anic schools of Jebel Marra in the Sudan, arguing that the fuqar increase their access to knowledge of the Qur'an by socially interacting with each other. The book is grounded in an ethnographic study of Qur'anic memorisation and activities that the fuqar perform after graduation from Qur'anic schools. It thus provides a fresh perspective to Islamic learning and epistemology. The great value of the study lies in the author's reconstruction of the practices and techniques (cognitive and corporeal) which are systematically employed to memorise the whole of the Qur'an. Religion and Anthropology Brian Morris, 2006

This important textbook provides a critical introduction to the social anthropology of religion, focusing on more recent classical ethnographies. Comprehensive, free of scholastic jargon, engaging and comparative in approach, it covers all the major religious traditions that have been studied concretely by anthropologists: Shamanism, Buddhism, Islam, Hinduism, Christianity, and its relation to African and Melanesian religions, and contemporary Neopaganism. Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system, the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological analysis. The book will appeal to all

students of anthropology whether established scholars or initiates to the discipline as well as to students of the social sciences and religious studies and for all those interested in comparative religion *The Evolution of Morality* Todd K. Shackelford, Randal D. Hansen, 2015-08-10 This interdisciplinary collection presents novel theories includes provocative reworkings of longstanding arguments and offers a healthy cross pollination of ideas to the morality literature Structures functions and content of morality are reconsidered as cultural religious and political components are added to the standard biological environmental mix Innovative concepts such as the Periodic Table of Ethics and evidence for morality in non human species illuminate areas for further discussion and research And some of the book s contributors question premises we hold dear such as morality as a product of reason the existence of moral truths and the motto life is good Highlights of the coverage The tripartite theory of Machiavellian morality judgment influence and conscience as distinct moral adaptations Prosocial morality from a biological cultural and developmental perspective The containment problem and the evolutionary debunking of morality A comparative perspective on the evolution of moral behavior A moral guide to depravity religiously motivated violence and sexual selection Game theory and the strategic logic of moral intuitions *The Evolution of Morality* makes a stimulating supplementary text for advanced undergraduate and graduate courses in the evolutionary sciences particularly in psychology biology anthropology sociology political science religious studies and philosophy **Violins**

Pamela Moro, 2018-12-07 *Violins Local Meanings Globalized Sounds* examines the violin as an object of meaning in a variety of cultural and historical contexts and as a vehicle for introducing anthropological issues Each chapter highlights concepts as taught in lower level anthropology courses and includes teaching and learning tools Chapters range from a memoir like social biography of a single instrument to explorations of violins in relation to technology labor the environment migration globalization childhood cultural understandings of talent and virtuosity and prestige *Traditional Ritual as Christian Worship* Burrows, William R., Shaw, R. Daniel, 2018-03-27 A necessary task of missionaries in recent decades has been to help local Christians inculturate or contextualize their faith although the criteria for doing so often came from outside the context in which new believers developed their understanding of Christianity Highlighting the voices of non Western scholars this work recognizes the importance of ritual and ceremony in the life of communities that seek to worship God in ways that reflect culturally appropriate responses to Scripture The contributors some of missiology s leading lights discuss rituals beliefs and practices of diverse peoples supporting the conclusion that orthodox Christianity is hybrid Christianity
