and was stressed because of a long drive She was also shivering with cold Luckily the blanket had already been warmed up so the first thing she did was to take a long deep sigh of relief and sheer pleasure Imagine yourself being cold stressed and tired being put on a soft warm bed I think we can all relate to the pleasure it brings However this was only the beginning of a 2 hour pampering experience Joe s tired body was given an hour long magnesium oil massage to which put her to sleep halfway through She was then put on a sheet soaked in magnesium chloride solution wrapped up in it and covered with the top part of the far infrared blanket In her own words it felt like being wrapped in a warm cocoon Here is what she wrote Imagine yourself being scrubbed and massaged gently but deeply to ease your aches and pains then being placed in a warm cocoon for an hour or so You are deeply relaxed your mind is so relaxed that you are falling asleep You are feeling so wonderful that you want it to last and last Joe said to me that it was just what she needed Being a Yoga instructor can be tough on the muscles and joints To add to that she had a hard time with her business so was feeling very stressed The treatment addressed both her mental and physical problems by bringing profound relaxation and a feeling of pure bliss Apart from the psychological benefits of being cared for her body was warmed through on a very deep level with far infrared which also helped to speed up the delivery of magnesium ions to all the body cells Magnesium is the 4th most abundant element in the body We need it for over 300 body processes It takes part in the formation of neurotransmitters hormones muscle and bone tissues It takes care of the normal muscle and nerve function steady heart rhythm normal blood pressure healthy immune system and strong bones It also helps to maintain blood sugar at normal levels It plays a vital role in preventing heart disease diabetes cancer osteoporosis and a whole range of other issues Among other things magnesium deficiency in many people has led to a rise in obesity diabetes chronic fatigue depression anxiety heart attacks cancer and many other physical and mental problems The big issue with magnesium is that while food is seen as the best way to keep its levels stable our food has become poor in magnesium due to the soil growing food becoming impoverished due to extensive agriculture methods I have read many research pieces which show how magnesium poor soil contributes to a rise in heart disease and cancer What can we do Many of us take magnesium supplements However not everybody can benefit from oral supplementation First of all as we age our intestinal tract becomes clogged with all sorts of mucus which makes absorption of nutrients much less effective so much of oral magnesium just passes through the body Second you need to take it for a substantial period of time in order to reduce the deficiency Third there is always a risk of taking too much which at best can cause diarrhoea and at worst affect the kidneys especially in people with kidney problems This makes a very good case for transdermal supplementation The skin is a wonderful organ which can regulate what comes into the body and how much Far Infrared Magnesium Wraps are a very fast way to reduce magnesium deficiency bringing a whole range of benefits with it Moreover far infrared technology is in itself very powerful in promoting magnesium ion absorption softening the tissues and facilitating sweating which helps to remove toxic waste You can read about all the other benefits of magnesium salts and far

infrared when you go through the course modules The course is aimed both at therapists and members of the public who want to help improve their health I hope that having read the book you will decide to enrol on the online course and get certified to offer the treatment to your clients Please get in touch with me regarding enrolment details and any questions you might have Check PureNatureCures.com for more information

#### **Magnificent Magnesium** Dennis Goodman,2013-11-01

Despite the development of many breakthrough drugs designed to combat its effects heart disease remains the number one killer of Americans Is there a simpler solution The answer is yes For many years scientists and medical researchers have known about a common mineral that can effectively prevent or remedy many cardiovascular conditions And unlike the pharmaceuticals usually prescribed this supplement has no dangerous side effects In this book world renowned cardiologist Dr Dennis Goodman shines a spotlight on magnesium the mineral that can maximize your heart health The author first establishes a firm foundation for understanding heart disease detailing its many forms and providing a brief overview of its fundamental mechanisms Next he examines the important role magnesium plays in many life processes and explores how a deficiency of this substance can lead to many of our nation's most common health conditions including cardiovascular disease The author then details magnesium's astounding benefits not only for heart disease but for other health problems including obesity type 2 diabetes gastrointestinal disorders osteoporosis and insomnia Finally this knowledge is put to work as Dr Goodman offers clear guidelines on how to select and use magnesium supplements to greatest effect Many drugs are designed to relieve the symptoms of heart disease but none of them eliminates the root cause of the problem In *Magnificent Magnesium* you will discover how a simple all natural mineral can improve the function of your heart and help you regain control of your health
