Major Power Relations In Northeast Asia Win Win Or Zero Sum Game:

Major Power Relations in Northeast Asia; Win-Win or Zero-Sum Game David M. Lampton, 2001-10 Three countries China Japan and the United States and relations among them are likely to have a disproportionate impact on prospects for peace and prosperity in Asia Pacific in the twenty first century If the differences among these major actors are managed successfully the prospects for the region are bright indeed Conversely if the three fail to manage their relationship successfully or if relations between any two of the parties are seen to threaten the third the risks for the region and beyond will increase dramatically *The Economy-security Nexus in Northeast Asia* T. J. Pempel, 2013 The dynamics of Northeast Asia have traditionally been considered primarily in military and hard security terms or alternatively along their economic dimensions This book argues that relations among the states of Northeast Asia are far more comprehensible when the mutually shaping interactions between economics and security are considered simultaneously It examines these interactions and some of the key empirical questions they pose the answers to which have important lessons for international relations beyond Northeast Asia Contributors to this volume analyze how the states of the region define their security and how bilateral relations in hard security issues and economic linkages play out among Japan China and the two Koreas Further the chapters interrogate how different patterns of techno nationalist development affect regional security ties and the extent to which closer economic connections enhance or detract from a nation's self perceived security The book concludes by discussing scenarios for the future and the conditions that will shape relations between economics and security in the region This book will be welcomed by students and scholars of Asian politics Asian economics security studies and political economy

Conflict Management and Dispute Settlement in East Asia Ramses Amer, 2016-05-23 Through a multi disciplinary approach this volume studies the management and settlement of conflict and disputes in East Asia Conflict and disputes exist everywhere in human society The management and settlement of them has become an imperative This volume is a significant contribution to a broader understanding of the complexities involved in managing and settling disputes and conflicts at regional inter state and intra state levels in the East Asian region Drawing on expertise in Peace and Conflict International Relations and International Law the volume presents to the reader a general picture of how conflict can be managed at the international and regional levels through various mechanisms in particular through prominent regional organizations such as ASEAN It then moves on to case studies at the regional level including inter state and intra state conflicts and disputes The last part of the volume highlights how states resolve their maritime disputes This has drawn much attention from the international community due to various factors such as the increasing demand for natural resources from the oceans These disputes disrupt the smooth development of international relations as well as trigger tensions and confrontation between states *Japan's Foreign Policy, 1945-2009* Kazuhiko Tōgō, 2010 This book stands out amongst the crop of textbooks on Japanese foreign policy that have been available to date because of its authoritative insider voice Here we not only learn

what happened in postwar Japan's foreign policy but what the thinking was behind these decisions This is an invaluable element that brings the reader inside the policy making rooms of the Ministry of Foreign Affairs itself In the process Japan's world view and its own self image are concurrently revealed in fascinating and unexpected ways This book destroys stereotypes and vastly improves the quality of our understanding of Japan as an international player We are spoiled by the wisdom and experience of not just one but three major forces in the shaping of Japan's international existence Mr Togo's own formidable experience plus the seminal contributions of his father and grandfather who was instrumental in the closing phases of World War II All of this makes this book indispensable to those who wish to truly understand Japan in her own terms and through her own eyes Rikki Kersten Professor Modern Japanese Political History Australian National University

Ambassador Togo's distinctive account of Japanese foreign policy highlights the impact of the vacuum left by the humiliation of defeat in 1945 It bears witness to the intellectual and diplomatic challenge of finding answers to unresolved issues including managing the U S alliance and enhancing cooperation in Asia Updated to cover the results of the 2009 victory of the Democratic Party of Japan this book shows how its change of course fits into a long term narrative In contrast to more impersonal often unsympathetic analysis of Western authors and the self serving writing of many Japanese Togo offers a guide to Japan's quest not a defense of its choices The result is a wide ranging look at foreign policy over more than 60 years seen from the perspective of an insider attentive to a proud nation's search for its bearings Gilbert Rozman Musgrave Professor of Sociology Princeton University

Legacies of World War II in South and East Asia David Koh Wee Hock, 2007 Illustrates how the political and social fallout from the World War II is still alive and divisive in South and East Asia

The US Policy Making Process for Post Cold War China Wenzhao Tao, 2017-07-13 Combining a study of American Think Tanks and a study of American diplomatic policy on China following the Cold War this book explores in detail the policy making process procedures and mechanisms as well as the roles of various interest groups in the policy making process for China related policies Further it dissects the policy making process with regard to selected sensitive policies such as the US diplomatic policy on Taiwan China US trade policy on China US human rights policy on China and US environmental and energy policy on China and analyzes the function and influence of the American Think Tanks in the policy debates Characterized by its high theoretical value wealth of historical materials and painstaking analysis the book is not only of important academic value but also offers a valuable reference guide to support the practical work of related departments in the Chinese government

China's Rise - Threat Or Opportunity? Herbert S. Yee, 2010-10-15 This book presents a comprehensive overview of how China's rise is perceived in a wide range of countries and regions these include China's neighbours other world powers the parts of China not part of mainland China Taiwan Hong Kong and Macau and regions of the world where China is having an unexpected impact such as the Middle East

Japan's Foreign Policy, 1945-2003 Kazuhiko Togo, 2005-08-01

Encyclopedia of the Developing World Thomas M. Leonard, 2013-10-18 A RUSA 2007

Outstanding Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries Containing more than 750 entries the Encyclopedia encompasses primarily the years since 1945 and defines development broadly addressing not only economics but also civil society and social progress Entries cover the most important theories and measurements of development relate historical events movements and concepts to development both internationally and regionally where applicable examine the contributions of the most important persons and organizations and detail the progress made within geographic regions and by individual countries

Breaking the China-Taiwan Impasse Donald S. Zagoria,2003-10-30 Tensions between China and Taiwan are not likely to abate in the foreseeable future The question of Taiwan s sovereignty is the major point of friction and the continuing impasse between China and Taiwan is worrisome Zagoria presents perspectives from Washington Beijing and Taipei on cross strait tensions exploring ways to break the current standoff Tensions between China and Taiwan are not likely to abate in the foreseeable future The question of Taiwan s sovereignty is the major point of friction and the continuing impasse between China and Taiwan is worrisome Should critical political negotiations falter relations are likely to take on stronger military overtones and the PRC may well develop a sense of urgency about Taiwan drifting towards independence These at least are the broad conclusions drawn from the ongoing dialogues among top U S Chinese and Taiwanese figures sponsored by the National Committee on American Foreign Policy This Track II project provides a forum for top policy analysts from each country to discuss trilateral relations in a frank and constructive manner and is an effort to explore means of peacefully resolving the current impasse Among the more significant findings is that the more serious risks of conflict will probably occur in the distant future hinging on whether economic integration can gradually lead to a reduction of political tensions and that the United States should continue to oppose any declaration of independence by Taiwan and any use of force by China

Japanese Strategic Thought toward Asia G. Rozman,K. Togo,J. Ferguson,2007-01-22 Japanese leaders and often the media too have substituted symbols for strategy in dealing with Asia This comprehensive review of four periods over twenty years exposes the strategic gap in viewing individually and collectively China Taiwan the Korean peninsula Russia Central Asia and regionalism

Between Ally and Partner Chae-ho Chŏng,2008 Definitive study on China s relations with the Korean peninsula since the 1970 s concentrating on the burgeoning relationship between the Chinese and South Korean governments societies and business communities

Terrorism and the International Business Environment Gabriele G. S. Suder,2004-01-01 The volume reveals how the pre 9 11 era of contemporary economic history gave birth to a nexus of a globalization b increased systemic vulnerability and complexity and c the transitions of terrorism As a result the post 9 11 era is one which should incorporate risk analysis audits on a regular basis political and geopolitical risk research the use of quantitative risk assessment and qualitative risk analysis to implement risk strategy planning its management and appropriate risk transfer considerations

China and India Waheguru Pal Singh Sidhu,Jing Dong Yuan,2003 The hardline

view of Sino Indian relations found in the published reports of Indian and Chinese security analysts is often at considerable odds with the more tempered opinions those same analysts express in private interviews and conversations What is the reality of the increasingly important security relationship between the two countries The authors of this new study address that question in depth Sidhu and Yuan explore a range of key issues including mutual distrust and misperception perhaps the most important factor the undemarcated border the status of Tibet and Sikkim trade the tussle over various nonproliferation treaties terrorism the regional roles of the U S and Pakistan and the impact of domestic public opinion and special interests They do see a trend toward a more pragmatic approach in Beijing and New Delhi to managing differences and broadening the agenda of common interests Nevertheless they conclude significant obstacles remain to the amicable relationship necessary for regional peace and stability posing a daunting challenge to policymakers in these two rising powers **Japan**

in Decline Purnendra Jain,Brad Williams,2011-03-21 To what extent is Japan in decline In recent years popular writings media commentaries and analysts often take the view that the rise of Japan is long since over and that the world s second largest economy is not just treading water but that society and the economy are failing with potential catastrophic outcomes But is this really the case Could it be that once again Japan is being misread and misinterpreted Are there not both obvious and less obvious signs of renewal and recovery And how might the new DPJ led government reform Japan Based on papers given at a major international conference held at the University of Adelaide in November 2009 this thesis is examined here by a group of the world s leading specialists in their fields addressing many of the key issues facing Japan today from the economy and environment to education social policy politics internationalization diplomacy security This volume will have wide ranging interdisciplinary relevance for students and specialists alike **New Dimensions of Chinese Foreign Policy**

Sujian Guo,Shiping Hua,2007-01-01 The concept peaceful development has become the new thinking in Chinese foreign policy under the fourth generation leadership But what are the new dimensions of Chinese foreign policy and how do they impact China s foreign relations This is the first edited volume that attempts to address this significant question and its insightful contributions will enrich understanding of new dimensions of Chinese foreign policy and their implications for China s relations with the world **Great Power Strategies - The United States, China and Japan** Quansheng

Zhao,2022-09-05 This book provides a comparative study of the strategies of great powers in the Asia Pacific namely the United States China and Japan known as the Pacific Three It examines the evolution of each power s strategic thinking and analyzes the three powers respective foreign policies and internal debates in the policymaking process It analyzes the three countries conflict and cooperation from past to the present It stresses the importance of the interactions between internal and external factors in the policymaking process and emphasizes the great significance of these interactions for international relations theory For example it highlights the role of strategic advisers in think tanks and government agencies in the United States Japan s informal and balanced policymaking process and the impact of traditional culture in China especially

Confucianism and the part played by Chinese think tanks **The Nexus of Economics, Security, and International Relations in East Asia** Avery Goldstein, Edward D. Mansfield, 2012-08-29 While over the last 30 years the global economy's center of gravity has shifted to East Asia the region has remained surprisingly free of interstate military conflict Yet this era of peace and growth has been punctuated by periodic reminders of enduring security problems in the region from China's military modernization to unresolved territorial disputes to persistent tensions on the Korean peninsula This volume is one of the first to treat these issues of economics and security as interconnected rather than separate Its authors leading scholars from the U S and China shed new light on this important nexus by applying insights from a rich variety of approaches to explore and explain the dynamics of a region whose importance for students of both international political economy and international security has grown dramatically They show that both economic and security fundamentals matter if one is to understand the reasons for and evaluate the durability of East Asia's recent peace and prosperity **New Perspectives on U.S.-Japan Relations** Curtis, Gerald L., 2000-12 How relevant today is an alliance that was forged between a powerful United States and a weak Japan in the context of a cold war struggle with the Soviet Union In what ways have the changes in the relative power positions of the two countries and the structural changes in the world economy created new challenges to the U S Japan relationship and how are the two countries responding to those challenges These are some of the important questions addressed by the eight Japanese and American authors of this volume Their focus ranges from issues of military relations trade and financial management and shifting security perspectives to the roles of the mass media in the bilateral relationship A truly binational effort the book brings together the thinking of some of the best trained younger political scientists to focus on the present and future of one of the most important bilateral relationships in the world The Copenhagen Journal of Asian Studies ,2004
