

An aerial photograph of a group of people on a dark, tiled floor. Large, white, three-dimensional letters spell out 'make space'. People are interacting with the letters: one person is kneeling next to the 'k', another is sitting on the 's', and others are standing around. There are also some orange blocks and blue markers on the floor.

The Art of Co-Creation Bryan R. Rill, Matti M. Hämäläinen, 2018-08-20 This book illustrates how to design and implement co creation a powerful form of collective creativity that harnesses the potential of teams and can generate breakthrough insights Skilled leaders and facilitators can utilize this approach to unleash the creative potential of their organizations Drawing from years of applied research the authors bring together insights from the fields of design and organizational development into an evocative and pragmatic how to guidebook Taking a human centred rather than process oriented perspective the book argues that experience design separates true co creation from other forms of collective efforts and design thinking Collective moments of creative insight emerge from the space between an experience of flow and synchronicity from which new ideas spring forth How to create and hold this space is the secret to the art of co creation Collective breakthroughs require stakeholders to undergo a journey

from the world of their existing expertise into spaces of new potential It requires leaders moving from a position of dominating space to holding the space for others and developing core capacities such as empathy and awareness so that teams can engage each other co creatively This book uncovers the secrets of this journey enabling process designers to develop more effective programs

Handbook of Research on Engaging Digital Natives in Higher Education Settings Pinheiro, Margarida M.,Simões, Dora,2016-03-29 The integration of technology has become so deeply rooted into modern society that the upcoming generation of students has never known a world without such innovations This defining trait calls for an examination of effective methods in which to support and motivate these learners The Handbook of Research on Engaging Digital Natives in Higher Education Settings focuses on the importance of educational institutions implementing technology

into the learning and teaching process in order to prepare for students born into a digital world Highlighting relevant issues on teaching strategies and virtual education this book is a pivotal reference source for academicians upper level students practitioners and researchers actively involved in higher education *Awakening the Management of Coworking Spaces*
Ricarda B. Bouncken,2023-01-24 In *Awakening the Management of Coworking Spaces* the chapter authors combine a scientific approach with managing implications developing theoretic constructs reporting qualitative and quantitative findings about challenges potentials effects managerial solutions and success stories **Physical Language Learning Spaces in the Digital Age** Felix A. Kronenberg,2024-02-08 How do we intentionally design physical environments for language learning and teaching How can we build spaces that are inclusive accessible safe and equitable While the Covid 19 pandemic has advanced notions of online education it has also revealed the benefits and affordances of human to human interaction in physical learning spaces This book explores the design of physical spaces intended for language learning specifically From residential learning spaces to active classrooms from social and experiential spaces to zoom rooms and language centers from mobile community based learning to hybrid makerspaces language learners and educators have more choices than ever regarding their possible learning environments Changing pedagogies and new technologies provide ever more alternatives to the normalized technology of the classroom With a focus on creating new awareness of the affordances and benefits of physical spaces as active agents in the language learning and teaching processes this book takes a practical approach to introduce readers without any prior knowledge of design or architecture to the topic As language learning spaces need to consider stakeholders from diverse cultures Felix Kronenberg provides examples from language centers around the world including Asia Europe and the United States Readers will learn how to conceptualize and create supportive resilient flexible inclusive accessible affordable sustainable and safe physical learning spaces The book is an interdisciplinary introduction to this emerging field drawing from research in disciplines such as architecture learning spaces design second language acquisition pedagogy history and sociology *Developing Faculty Learning Communities at Two-Year Colleges*
Susan Sipple,Robin Lightner,2023-07-03 This book introduces community college faculty and faculty developers to the use of faculty learning communities FLCs as a means for faculty themselves to investigate and surmount student learning problems they encounter in their classrooms and as an effective and low cost strategy for faculty developers working with few resources to stimulate innovative teaching that leads to student persistence and improved learning outcomes Two year college instructors face the unique challenge of teaching a mix of learners from the developmental to high achievers that requires using a variety of instructional strategies and techniques Even the most experienced teachers can find this diversity demanding Faculty developers at many two year colleges still rely solely on the one day workshop model that while useful rarely results in sustained student centered changes in pedagogy or the curriculum and may not be practicable for the growing cohort of part time faculty members By linking work in the classroom with scholarship and reflection FLCs provide

participants with a sense of renewed engagement and stimulate collegial exploration of ways to achieve educational excellence FLCs are usually faculty instigated and cross disciplinary and comprise groups of six to fifteen faculty that work collaboratively through regular meetings over an extended period of time to promote research and an exchange of experiences foster community and develop the scholarship of teaching FLCs alleviate burnout and isolation promote the development testing and peer review of new classroom strategies or technologies and lead to the reenergizing and professionalization of teachers This book introduces the reader to FLCs and to the Scholarship of Teaching and Learning offering examples of application in two year colleges Individual chapters describe among others an FLC set up to support course redesign an Adjunct Connectivity FLC to integrate part time faculty within a department and collaborate on the curriculum a cross disciplinary FLC to promote student self regulated learning and improve academic performance and persistence a critical thinking FLC that sought to define critical thinking in separate disciplines examine interdisciplinary cross over of critical thinking and measure critical thinking more accurately an FLC that researched the transfer of learning and developed strategies to promote students application of their learning across courses and beyond the classroom Each chapter describes the formation of its FLC the processes it engaged in what worked and did not and the outcomes achieved Just as when college faculty fail to remain current in their fields the failure to engage in continuing development of teaching skills will equally lead teaching and learning to suffer When two year college administrators restrain scholarship and reflection as inappropriate for the real work of the institution they are in fact hindering the professionalization of their teaching force that is essential to institutional mission and student success When FLCs are supported by leaders and administrators and faculty learn that collaboration and peer review are valued and even expected as part of being a teaching professional they become intrinsically motivated and committed to collaboratively solving problems setting the institution on a path to becoming a learning organization that is proactive and adept at navigating change **Collaborative Creativity**

Robert Kelly, 2020-02-10 Collaborative creativity in education from theory to practice As the world undergoes massive change education systems need to prepare students to work collaboratively for innovative solutions that benefit everyone This preparation means fostering a culture of collaborative creativity from early childhood to postsecondary education Robert Kelly shows exactly what collaborative creativity in educational practice looks like He clarifies the conceptual architecture of collaborative creativity and then delves into how this new educational ecosystem can take root He invites us into his own program in teacher education where graduate students come to grips with and talk about a project whose success depends on collaborative creativity Between chapters Kelly presents conversations with experts in collaborative creativity and related fields from around the world *Cubed* Nikil Saval, 2015-01-06 A New York Times Notable Book Daily Beast Best Nonfiction of 2014 Inc Magazine s Most Thought Provoking Books of the Year Man is born free but he is everywhere in cubicles How did we get from Scrooge s office to Office Space From bookkeepers in dark countinghouses to freelancers in bright cafes What

would the world be like without the vertical file cabinet What would the world be like without the office at all In Cubed Nikil Saval chronicles the evolution of the office in a fascinating often funny and sometimes disturbing anatomy of the white collar world and how it came to be the way it is Drawing on the history of architecture and business as well as a host of pop culture artifacts from Mad Men to Dilbert and yes The Office and ranging in time from the earliest clerical houses to the surprisingly utopian origins of the cubicle to the funhouse campuses of Silicon Valley Cubed is an all encompassing investigation into the way we work why we do it the way we do and often don't like it and how we might do better

Design Thinking Research Christoph Meinel, Larry Leifer, 2021-03-26 Extensive research conducted by the Hasso Plattner Design Thinking Research Program at Stanford University in Palo Alto California USA and the Hasso Plattner Institute in Potsdam Germany has yielded valuable insights on why and how design thinking works The participating researchers have identified metrics developed models and conducted studies which are featured in this book and in the previous volumes of this series This volume provides readers with tools to bridge the gap between research and practice in design thinking with varied real world examples Several different approaches to design thinking are presented in this volume Acquired frameworks are leveraged to understand design thinking team dynamics The contributing authors lead the reader through new approaches and application fields and show that design thinking can tap the potential of digital technologies in a human centered way In a final section new ideas in neurodesign at Stanford University and at Hasso Plattner Institute in Potsdam are elaborated upon thereby challenging the reader to consider newly developed methodologies and provide discussion of how these insights can be applied to various sectors Special emphasis is placed on understanding the mechanisms underlying design thinking at the individual and team levels Design thinking can be learned It has a methodology that can be observed across multiple settings and accordingly the reader can adopt new frameworks to modify and update existing practice The research outcomes compiled in this book are intended to inform and provide inspiration for all those seeking to drive innovation be they experienced design thinkers or newcomers
