Makers of Modern Asia Ramachandra Guha, 2014-08-29 The twenty first century has been dubbed the Asian Century Highlighting diverse thinker politicians rather than billionaire businessmen Makers of Modern Asia presents eleven leaders who theorized and organized anticolonial movements strategized and directed military campaigns and designed and implemented political systems Makers of Modern Asia Ramachandra Guha, 2014-08-29 The twenty first century has been dubbed the Asian Century Highlighting diverse thinker politicians rather than billionaire businessmen Makers of Modern Asia presents eleven leaders who theorized and organized anticolonial movements strategized and directed military campaigns and designed and implemented political systems The Making of Martyrs in India, Pakistan & Bangladesh Faisal Khosa, 2021-05-18 Making of Martyrs unravels an epic saga of populist politics in the postcolonial Indian subcontinent Indira Gandhi Zulfikar Ali Bhutto and Sheikh Mujibur Rahman were towering figures and have been simultaneously loved and hated in equal measure During their heyday each of these leaders garnered extraordinary power and charisma Their followers admirers and loyal supporters continue to idolise and romanticise them yet in the eyes of their critics they were ruthless power hungry tyrants and partisan villains These dichotomies remain irreconcilable since their followers venerate them as a model for the future and their critics relegate them to a haunted past Drawing on years of research Faisal Khosa explores the turbulent lives and times of these three leaders and gives us a vivid account of their politics and personalities Nehru's Bandung Andrea Benvenuti, 2024 The history of an Indian vision for Asian peace driven by the energy of Prime Minister Nehru and the pressures of the early Cold War Outmaneuvered James A. Warren, 2025-03-04 From a celebrated military historian a highly engaging and thought provoking exploration of why the United States has failed again and again in irregular wars and military campaigns from Vietnam to Afghanistan Since the early 1960s the United States has fought in four major wars and a cluster of complicated and bloody irregular warfare campaigns The majority have ended in failure or something close to it Why has the US been so ineffective despite the American armed forces being universally recognized as the best in the world Most scholars and analysts believe that the primary cause of our abysmal war record since Vietnam has been the US military s overwhelmingly conventional approach to conflict which favors kinetic operations highly mobile precision firepower and sophisticated systems of command and control Here James Warren argues that a much more formidable obstacle to success has been pervasive strategic ineptitude at the highest levels of decision making including the presidency the national security council and the foreign policy community in DC Time and time again American presidents have committed military forces to operations in foreign countries whose politics and cultures they did not fully understand Presidents of both political parties including Johnson Reagan Bush Clinton and Obama have overestimated the capacity of US forces to alter the social and political landscape of foreign nations and underestimated the ability of insurgents and terrorists to develop effective protracted war strategies that in time sap

Washington's will to carry on the fight In the War on Terror Warren asserts that senior military officers have been complicit in extending bankrupt strategies by refusing to speak truthfully about them to their civilian bosses So have the American people who lost interest in the conflicts in Afghanistan and Iraq and refused to press their president and congress to bring an end to two futile conflicts Warren advocates for a less hubristic foreign policy and a broader conception of warfare as a political and military enterprise For readers of political military and US history as well as anyone interested in international relations and geopolitical strategy this book offers unparalleled insights into America's prior and potentially future military The Cambridge History of Communism: Volume 2, The Socialist Camp and World Power 1941-1960s Norman Naimark, Silvio Pons, Sophie Quinn-Judge, 2017-09-21 The second volume of The Cambridge History of Communism explores the rise of Communist states and movements after World War II Leading experts analyze archival sources from formerly Communist states to re examine the limits to Moscow's control of its satellites the de Stalinization of 1956 Communist reform movements the rise and fall of the Sino Soviet alliance the growth of Communism in Asia Africa and Latin America and the effects of the Sino Soviet split on world Communism Chapters explore the cultures of Communism in the United States Western Europe and China and the conflicts engendered by nationalism and the continued need for support from Moscow With the danger of a new Cold War developing between former and current Communist states and the West this account of the roots development and dissolution of the socialist bloc is essential reading The Global 1920s Richard Carr, Bradley W. Hart, 2016-01-29 The 1920s is often recognised as a decade of fascism flappers and film Covering the political economic and social developments of the 1920s throughout the world The Global 1920s takes an international and cross cultural perspective on the critical changes and conditions that prevailed from roughly 1919 to 1930 With twelve chapters on themes including international diplomacy and the imperial powers film and music art and literature women and society democracy fascism and science and technology this book explores both the big questions of capitalism class and communism on the one hand and the everyday experience of citizens around the globe on the other Utilising archival sources throughout it concludes with an extensive discussion of the circumstances surrounding the 1929 stock market crash and the onset of the Great Depression the effects of which were felt worldwide Covering topics from the oil boom in South America to the start of civil war in China employment advances and setbacks for women across the globe and the advent of radio and air travel the authors provide a concise yet comprehensive overview of this turbulent decade Containing illustrations and a selection of discussion questions at the end of each chapter this book is valuable reading for students of the 1920s in global history

*Crucible* Jonathan Fenby,2018-06-28 The Times Book of the Year BBC History Magazine Book of the Year Daily Telegraph Book of the Year BOOK OF THE WEEK The Times The strength of this book lies in the cold realities it delivers The thirteen months of 1947 48 writes Fenby provide trenchant examples of how realpolitik can serve a wider purpose if those in power know how to use it Crucible captures perfectly the urgency of the time Read this book for the light it shines on a turbulent

time cherish it for the lessons it provides Gerard DeGroot Looking back 70 years Jonathan Fenby argues convincingly that the period from 1947 to 1948 really did change the world His book is an assured gallop across the terrain of contemporary history in this fateful year The global devastation of the second world war had smashed longstanding institutions and bankrupted empires leaving behind the kind of power vacuums that were major openings for change and chaos Crucible swings from one region to the next in a fast moving account of how local actors filled those vacuums often with violence Mary Sarote Financial Times One year shaped the world we know today This is the page turning story of the pivotal changes which were forged in the space of thirteen months of 1947 48 Two years after the end of the second conflict to engulf the world in twenty years and the defeat of the Axis forces of Germany Italy and Japan this momentous time saw the unrolling of the Cold War between Joseph Stalin's Soviet Russia and the Western powers under the untried leadership of Harry Truman as America came to play a global role for the first time The British Empire began its demise with the birth of the Indian and Pakistan republics with the flight of millions and wholesale slaughter as Vietnam Indonesia and other colonies around the globe vied for freedom 1948 also marked the creation of the state of Israel the refugee flight of Palestinians and the first Arab Israeli war as well as the victories of Communist armies that led to their final triumph in China the coming of apartheid to South Africa the division of Korea major technological change and the rolling out of the welfare state against a backdrop of events that ensured the global order would never be the same again This dynamic narrative spans the planet with overlapping epic episodes featuring such historic figures as Truman and Marshall Stalin and Molotov Attlee and Bevin De Gaulle and Adenauer Mao Zedong and Chiang Kai shek Nehru and Jinnah Ben Gurion and the Arab leaders Between them they forged the path to our modern world Defending Legal Freedoms in Indonesia Tim Mann, 2024-08-23 Defending Legal Freedoms in Indonesia provides fresh insights into how cause lawyers navigate political and institutional change by presenting and analysing the Indonesian Legal Aid Foundation YLBHI the oldest and most influential legal and human rights organisation in Indonesia Based on rich ethnographic research this book charts the developments of the organisation since its founding in 1970 its contribution to the ending of the authoritarian military backed New Order 1966 1998 its relative decline in the years following Indonesia's democratisation and its revival in recent years as Indonesian democracy and human rights come under threat The author examines the tactics the organisation has used including show trials and working alongside grassroots communities organising them and educating them about their rights It highlights how this organisation flourished more under an authoritarian regime than under democracy and how its present prominent adversarial political version of cause lawyering is playing a leading role in civil society resisting further erosion of democracy and human rights The book addresses recent democratic erosion under President Joko Widodo and documents pivotal moments in Indonesia's contemporary history such as the Reform Corrupted mass demonstrations in 2019 illuminating how democracy shrinks and how lawyers push back The first book on Indonesia's crucially important cause lawyering activist

lawyers group this book will be of interest to researchers in Asian Law Indonesian Studies It is also an essential point of reference for future research in public lawyering in Asia **Turbulent Empires** Mike Mason,2018-04-09 As Europe rebuilt after the devastation of the Second World War the former colonies of the major imperial powers sought their independence at the same time that the United States extended its economic and political power globally In Turbulent Empires Mike Mason analyzes the struggles for post colonial sovereignty and economic domination and how these competing forces led to conflicts and shifting alliances around the postwar world Turbulent Empires surveys the major polities and economies of Africa Asia Latin America Russia and the West and traces the trajectory of nationalist ruling classes bent on exercising sovereign control over economic resources It emphasizes the convulsions that brought about unanticipated realignments and shocking reversals such as the rise and fall of regimes continuous interventions in the Muslim world the sudden collapse of the commodities supercycle and the continuing challenge of inequality By the second decade of the twenty first century the global economic crisis of 2008 raised the question of a new global order while the question of American decline captured in the slogan Make America Great Again became commonplace Both erudite and accessibly written Turbulent Empires provides an insightful and sweeping analysis of world political and economic history that is an ideal introduction to postwar political science history and development studies
