Early Childhood Curriculum Nancy Amanda Branscombe, Jan Gunnels Burcham, Kathryn Castle, Elaine Surbeck, 2013-07-24 Through its unique integration of curriculum and learning principles *Early Childhood Curriculum A Constructivist Perspective* 2nd Edition fosters authentic developmentally appropriate practice for both preschool and early elementary classrooms The

constructivist format of this book encourages active involvement on the part of readers by asking them to observe question reflect research and analyze thus allowing readers to create their own knowledge through their responses and actions Early Childhood Curriculum examines curricular goals such as autonomy development and problem solving and links those goals with constructivist principles of learning It explores ways teachers can create meaningful learning environments and choose curriculum tasks appropriately in all content areas that are linked to the learning and development needs of young children The text provides a wealth of practical detail about implementing constructivist curriculum as the authors discuss classroom climate and management room design play and cooperative learning among other topics The book also includes information about how teachers can meet required mandates and national and state standards in appropriate ways as they plan their curriculum and examines the early childhood educator s role with community agencies reform and legal mandates and public relations Special Features Curriculum Strategies highlight models for developing curriculum including projects curricular alignment integration of various subject matter areas and types of knowledge Constructions promote problem solving by allowing students to explore revisit examine and learn from first hand experience Multiple Perspectives from the Field provide interviews with teachers and other early childhood professionals offering students a realistic look at the profession from a diverse group of educators Teacher Dialogues explore a wide range of student concerns including curriculum learning environments assessment and documentation representing a collaborative support group for pre service teachers and readers

Literacy, Power, and the Schooled Body Kerryn Dixon, 2010-11-15 What effects do space and time have on classroom management discipline and regulation How do teachers practices create schooled and literate students To explore these questions this book looks at early childhood classrooms charting the shifts and continuities as four year old children begin preschool move from preschool into primary school and come to the end of the first phase of schooling at nine years The literacy classroom is used as a specific site in which to examine how children s bodies are disciplined to become literate This is not a book that theorizes space time discipline bodies and literacy in abstract ways Rather working from a Foucaultian premise that discipline is directed onto children s bodies it moves from theory to practice Photographs lesson transcripts interviews and children s work show how teachers practices are enacted on children s bodies in time and space In this way teachers are offered practical examples from which to think about their own classrooms and classroom practice and to reflect on what works why it works and what can be changed
