Dr. Josef A. Howard, 2018-11-17 Many books have been written about our relationship with God Some of them give us distorted images of ourselves life as a whole or how our relationship ought to be with God This book is an exception to the rule In writing this book my goal was not to point out our flaws and God s disdain for us On the contrary it was to show how in and of ourselves we disappoint God continuously like the children of Israel and that God has made a way for us to honor him through Christ Jesus I therefore had six goals in mind each time I sat to pen this book under the guidance of the Holy Spirit First and foremost Where Is My Honor is intended to help us reflect on how we are personally honoring God in our lives and not necessarily looking at how others are honoring him Second it is intended to be a mirror through which we see the dirt in our lives Third it is a tool to help us do a reality check in terms of our relationship with God Do we truly love him Are we honoring him in ways that he deserves If he were to ask us Where is my honor what would we say to him In other words this masterpiece should help us to stop sleepwalking spiritually Fourth this book is provocative to us After recognizing and acknowledging the dirt we see through this mirror it calls on us to seek the help of the Holy Spirit to remove the dirt Fifth this book helps us to see how fine beautiful or handsome we are after we

have been cleansed by the blood of the lamb Finally Where Is My Honor helps us see understand and fully appreciate how good big and truly awesome God is Architecture and Participation Peter Blundell Jones, Doina Petrescu, Jeremy Till, 2013-07-04 Bringing together leading international practitioners and theorists in the field ranging from the 1960s pioneers of participation to some of the major contemporary figures in the field Architecture and Participation opens up the social and political aspects of our built environment and the way that the eventual users may shape it Divided into three sections looking at the politics histories and practices of participation the book gives both a broad theoretical background and more direct examples of participation in practice Respectively the book explores participation s broader context outlining key themes and including work from some seminal European figures and shows examples of how leading practitioners have put their ideas into action Illustrated throughout the authors present to students practitioners and policy makers an exploration of how a participative approach may lead to new spatial conditions as well as to new types of architectural practices and investigates the way that the user has been included in the design process
