Personal Note from the Author I wrote The MANual in an effort to share with other men what I have learned over the years on my own I did not know how to set goals or even if it was worth it nor did I know how to make simple daily life choices in running a family but I figured it out I grew up in a single parent household with no strong male leadership in the home on a daily basis The information in this book is designed to address the day to day issues of living your life It contains my solutions learned through a lifetime of struggle failure and achievement I have found over the years that many books have been written to help in every area of life but not one of them offered a solution that applied to all areas of life and answers to those impossible questions that come up Questions like What do I do when my paycheck is 1000 00 and I have 1200 00 worth of bills due How would you answer that question I encourage you to take the first step in changing your life forever You may not agree with all I have written in here but that s ok the book provides a framework for forging your own path in life and how to make your own choices Your life is the sum of all your choices up to this point If you want a different life then start making different choices I wrote this book not to tell you what to decide but how to decide what you really believe and how to act upon it By purchasing this book you are putting yourself on the path to a brighter future Enjoy Flint Anderson **Career**
