Bennett, Gail W. Cope, 1985 **Decisions and Orders of the National Labor Relations Board** United States. National Labor Relations Board, 1991 *El-Hi Textbooks & Serials in Print, 2003*, 2003 **America, the Owner's Manual** Bob Graham, Chris Hand, 2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don't have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special

interests command the levers of power and that everyday Americans can't fight City Hall. That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly, they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book, you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you, not the other way around.

El-Hi Textbooks & Serials in Print, 2005 ,2005 **How to Make Meetings Not Suck** Jonathan Vehar, Cathi Brese Doeblen, 2024-08-13

A 2014 Harris Poll involving over 2000 people found that almost half of the respondents indicated that they would rather do any unpleasant activity, e.g., go to the Department of Motor Vehicles, than attend a project status meeting. A recent survey by Salary.com found that too many meetings was rated the number one time waster in the office by 47% of respondents. One analysis estimates that the cost of meetings in the US alone is 1.4 trillion per year, equaling close to 10% of the US GDP. Every day in the US, there are fifty-five million meetings, and a substantial percentage of them are inefficient time wasters. To address this problem of meetings that suck, this book is designed to be a practical guide for managers and leaders who want to maximize the effectiveness of time spent with their teams and colleagues. This book will help you improve the effectiveness and efficiency of the meetings that you run: Status meetings, Tactical meetings, Strategic planning meetings, Problem solving meetings, Project team meetings, Informational meetings, Social connection meetings. This easy-to-read practical guidebook is focused on the mindset, skillset, and toolset for running meetings, with step-by-step guides on various techniques. The authors are both facilitators at the world-renowned Center for Creative Leadership, where they work with senior executives to help them be more effective in their leadership. In their own businesses, they've worked with teams and executives at companies like Subaru, T Rowe Price, NASA, National Grid, and the US Joint Special Forces University.
