Curriculum Teaching foundation subjects well details the insightful and transformational steps that a school can take towards designing and delivering a rich rigorous and wide ranging curriculum Foreword by Mary Myatt Rather than being a model curriculum that can be uprooted and planted in any school the book is a model schools can use to design their own curriculum one that not only encourages children to be active participants in their own learning but also to see the benefits of being part of a bigger wider family of learners The authors concentrate on the foundation subjects particularly history geography and science but also design and technology DT and art and design areas that are often challenging for teachers in primary schools Subjects are brought together and explored under big ideas and crucially the emphasis is on avoiding the superficial and trivial and rooting teaching in extending and challenging children In A Curious Curriculum Claire Banks and Mick Waters share the story of one multi academy trust MAT which designed and delivered a shared educational vision a rationale for excellence in the curriculum and the resources and support given to help reduce teachers workload Claire and Mick present a clear model both for supporting a group of schools or leading one school offering a fresh perspective on working on a MAT wide curriculum as well as providing a range of snapshot examples of the curriculum in action in the form of documents plans photos and the learners own work The book shares transferrable lessons from the trust s journey to success setting out an educational philosophy that pairs pedagogy with a well structured curriculum designed with learners best interests at its heart All children deserve an engaging exciting curriculum designed to spark their curiosity feed their imagination and develop their skills and knowledge With clear timelines and an honest and transparent dialogue about the challenges and benefits of working together collaboratively and the importance of external expertise A Curious Curriculum is an essential read for all school leaders Suitable for executive leaders head teachers curriculum coordinators and subject leaders in primary school settings

Educational Curricula Jennifer N. Casey, 2008 In formal education a curriculum plural curricula is the set of courses and their content offered at a school or university As an idea curriculum stems from the Latin word for race course referring to the course of deeds and experiences through which children grow and mature in becoming adults Crucial to the curriculum is the definition of the course objectives that usually are expressed as learning outcomes and normally include the program s assessment strategy These outcomes and assessments are grouped as units or modules and therefore the curriculum comprises a collection of such units each in turn comprising a specialised specific part of the curriculum So a typical curriculum includes communications numeracy information technology and social skills units with specific specialised teaching of each This book presents research on educational curricula from around the world
