Proceedings of the 2nd UPY International Conference on Education and Social Science (UPINCESS 2023) Ari Kusuma Wardana, 2023-12-31 This is an open access book Technology has had a huge impact on education and social dynamics around the world Since the introduction of information and communication technologies ICTs such as the internet smartphones and social media much has changed in the way we learn and interact with others In education technology has enabled students and teachers to access more diverse and engaging educational resources With internet access students and teachers can access educational resources from all over the world and learn about various topics and disciplines In addition technology also enables distance learning which allows students and teachers to connect from different locations However there are also negative impacts of using technology in education For example excessive use of social media and the internet can cause concentration disorders and addiction in students In

addition too much reliance on technology can also reduce students ability to think critically and solve problems independently In social dynamics technology has allowed us to connect with people from all over the world and paved the way for greater collaboration and cultural exchange However technology has also brought negative impacts on social dynamics such as the spread of fake news or hoaxes cyberbullying and social media addiction In this regard technology can be a very useful tool if used wisely and with proper understanding of its impact Therefore to support this Universitas PGRI Yogyakarta was hold an international conference and Call for Papers The 2nd UPY International Conference on Education and Social Science UPINCESS The Impact of Technology on Education and Social Dynamics on September 27 2023 The conference aims to discuss in depth about the impact of technology on education and social dynamics as well as finding appropriate solutions and strategies to minimize its negative impact and maximize its benefits Experts researchers and practitioners in the field of education and technology from around the world can share their knowledge and experience in this conference and can encourage collaboration and innovation in this field

Petroleum Geology of Myanmar A. Racey, M.F. Ridd ,2015-09-18 With the social political and economic changes taking place in Myanmar formerly Burma there is a keen interest among international resource companies to explore opportunities for investment in the country As early as the 1700s oil was being produced onshore from deep hand dug wells and was exported as far afield as India But in the petroleum sector the most dramatic change has been the discovery offshore of major gasfields The present volume is the first to bring together information on the offshore as well as the onshore petroleum geology The readership is likely to include not only those in the petroleum industry seeking an overview of the habitat of Myanmar s oil and gas but also researchers in the broader field of SE Asian geology As in many parts of the world it has been the petroleum industry that has provided data of value to stratigraphers structural geologists and those seeking to decipher the tectonic history of the region
