Ki 61 And Ki 100 Aces Aircraft Of The Aces:

Ki-61 and Ki-100 Aces Nicholas Millman,2015-11-20 This is the story of the elite Japanese Army Air force JAAF aces that flew the Kawasaki Ki 61 Hien Swallow and the Ki 100 Goshikisen in the Pacific Theatre of World War 2 The former codenamed Tony by the allies was a technically excellent aircraft possessing power stability and a good rate of climb differing radically from the usual Japanese philosophy of building light ultra manoeuvrable fighters Its pilots soon realised however that the type was plagued by a number of dangerous mechanical issues Then as the war moved relentlessly closer to Japan s doorstep a desperate expedient innovation to the Ki 61 airframe by fitting it with a radial instead of inline engine resulted in one of the finest fighters of World War 2 the Ki 100 This book uses the latest findings to provide a gripping account of some of the most remarkable and hard pressed fighter pilots of the war It reveals how these men unlike so many of their unfortunate late war colleagues could surprise Allied aircraft in high performance fighters and claim successes in the face of enormous odds

Desperate Sunset Mike Yeo,2019-12-26 In a last desperate bid to stave off defeat Japan s High Command launched the terrifying kamikaze attacks By the middle of 1944 Imperial Japan s armed forces were in an increasingly desperate situation Its elite air corps had been wiped out over the Solomons in 1942 43 and its navy was a shadow of the force that had attacked Pearl Harbor in 1941 But the Japanese had one last desperate card to play The Japanese High Command decided that the way to inflict maximum damage on the superior enemy forces was to get the poorly trained Japanese pilots to crash their explosive laden aircraft onto their target essentially turning themselves into a guided missile The kamikazes announced themselves in the immediate aftermath of the Leyte Gulf naval battles sinking the USS St Lo and damaging several other ships The zenith of the kamikaze came in the battle of Okinawa which included ten kikusui Floating Chrysanthemum operations which involved up to several hundred aircraft attacking the US fleet Fully illustrated throughout Desperate Sunset examines the development and evolution of the kamikaze using first hand accounts combat reports and archived histories

Japanese Army Air Force Aces 1937-45 Henry Sakaida,2012-10-20 Little has been published in English on the Japanese Army Air Force JAAF let alone its most successful fighter pilots no less than 150 of them achieved ace status during eight years of near constant war They are all listed in this volume From the arid plains of the Mongolian border region to the lush jungles of New Guinea the JAAF was more than a match for the many opponents it fought against for control of the skies Indeed even when the mighty Allied war machine proved almost overwhelming from early 1944 onwards the elite fighter pilots of the various sentais within the JAAF fought on with near fanatical loyalty in defence of the Home Islands

Aces At War Eric Hammel, 2020-12-05
ACES AT WAR The American Aces Speak Eric Hammel Adding to the first three volumes of his acclaimed series *The American Aces Speak*, leading combat historian Eric Hammel comes through with yet another engrossing collection of thirty-eight first-person accounts by American fighter aces serving in World War II, the Israeli War of Independence, the Korean War, and the Vietnam War. As are the three earlier volumes, *Aces At War* is a highly charged excursion into life and death in the air, told by men who excelled at piston engine and jet engine aerial combat and lived to tell about it. It is an emotional rendering of what brave airmen felt and how they fought in the now dim days of America's living national history. Ride with Flying Tigers ace Charlie Bond as he is shot down in flames over the Chinese city he alone has been able to defend against Japanese bombers. Share the loneliness of command as Lieutenant Commander Tom Blackburn decides the fate of the fellow Navy pilot whose F4U Corsair malfunctions in a desperate battle over Rabaul. Feel 2d Lieutenant Deacon Priest's overwhelming sense of duty to a friend as he lands his P-51 Mustang behind German lines to rescue his downed squadron commander. Share Lieutenant Colonel Ed Heller's desperation as he fights his way out of his uncontrollable F-86 Sabre jet over the wrong side of the Yalu River. And join Major Jim Kasler as he leads what might be the most important air strike of the Vietnam War. These are America's eagles, and the stories they tell are their own, in their very own words.

Aces Against Japan II Eric Hammel, 2020-12-05
ACES AGAINST JAPAN II The American Aces Speak Eric Hammel Leading combat historian Eric Hammel comes through again with an engrossing new collection of thirty-eight first-person accounts by American World War II fighter aces. Coupled with a clear overview of America's far-flung air war against Japan and a clear appreciation of the burgeoning industrial might backing the American war effort, Hammel's detailed interviews bring forth the most thrilling in-the-cockpit experiences that World War II's fabled Army, Navy, Marine, and Flying Tiger aces have chosen to tell. Ride with 2d Lieutenant Jack Donalson as he downs three Zeros over Luzon on the second desperate day of World War II in the Philippines. Share three lonely air battles over Burma and China with Flying Tiger aces RT Smith, Dick Rossi, and Joe Rosbert. Hear the cry of victory as 2d Lieutenant Don McGee survives yet another encounter with Zeros over embattled Port Moresby, New Guinea, in his substandard P-39 Airacobra. Feel your heart beat with anxiety as an injured Ensign Ed Wendorf races against time to land his damaged Hellcat aboard the USS Lexington before he bleeds to death. And thrill to the hunt as Pearl Harbor veteran 1st Lieutenant Frank Holmes seeks personal revenge against Admiral Isoroku Yamamoto on one of history's most important and most thrilling

world's premier carrier fighter plane **'Twelve to One' V Fighter Command Aces of the Pacific** Tony Holmes, 2013-01-20 This volume details the experiences of 107 elite American aces in combat against the Japanese. The highest scoring US pilots of World War 2 fought against the Japanese Army Air Force and Imperial Japanese Navy over the jungles of New Guinea and the Philippines. Flying P 38s and P 47s men such as Dick Bong and Thomas McGuire won the Medal of Honor for their successes in combat in 1943-45. Twelve to One is a rare document that details the tricks of the trade employed by these men. This volume also includes biographies of the men whose tips for aerial combat make up the text and the V Fighter Command Manual **Aces High** Bill Yenne, 2009-02-03 Capturing the hearts of a beleaguered nation the fighter pilots of World War II engaged in a kind of battle that became the stuff of legend. They cut through the sky in their P 38s to go one on one against the enemy and those who survived the deadly showdowns with enough courage and skill earned the right to be called aces. But two men in particular rose to become something more. They became icons of aerial combat in a heroic rivalry that inspired a weary nation to fight on. Richard Dick Bong was the bashful pink faced farm boy from the Midwest. Thomas Tommy McGuire was the wise cracking fast talking kid from New Jersey. What they shared was an unparalleled gallantry under fire which won them both the Medal of Honor and remains the subject of hushed and reverent conversation wherever aerial warfare is admired. What they had between them was a closely watched rivalry to see who would emerge as the top scoring American ace of the war. What they left behind is a legacy of pride we will never forget and a record of aerial victories that has yet to be surpassed anywhere in the world **Spitfire Aces of Burma and the Pacific** Andrew Thomas, 2013-02-20 The history of the 54 aces who flew Spitfires over Burma, India and Australia with first hand accounts and full colour artwork revealing how this much loved plane changed the fortunes of the Allied forces against the Japanese Army Air Force. The arrival of the Spitfire in Burma came at a crucial time as the RAF struggled against the Japanese to support the Chindit operation on the ground. Proving a huge boost to morale the Spitfire played a large part in defeating the enemy and covering the subsequent Allied advance through Burma protecting the ground troops and providing vital supplies. Covering this little documented aerial war this book tells the stories of the 54 aces who flew against the Japanese and also those who fought in India and Australia. Full colour artwork reveals the markings and paint schemes of this most famous of British planes whilst first hand accounts and archive photographs bring the aerial battles of Burma, India and Australia to life **Time of the Aces** Peter B. Mersky, 1993 *Japanese Naval Air Force Fighter Units and Their Aces, 1932-1945* Ikuhiko Hata, Yasuho Izawa, Christopher Shores, 2012-09-20 An extensive guide to Japan's Naval Air Force Fighter Units and their ace pilots during conflicts in the 1930s and 40s now in English. The book begins by looking at the land and aircraft carrier based navy fighter units and their operations from 1932 to 1945 as well as their history and achievements. This is followed with biographical details for all pilots who claimed eight or more aerial victories. The thorough appendix provides detailed listings of all pilots known to have claimed five or more victories and thus considered to be aces listings of

the graduation from training of all Japanese Navy fighter pilots and of fighter pilot casualties. Photographs, maps and artist's side view drawings and paintings of aircraft relevant to each of the units are also included. This revised edition is a companion volume to *Japanese Army Air Force Fighter Units and Their Aces 1931-1945* and *B-29 Superfortress vs Ki-44 "Tojo"*. Donald Nijboer, 2017-10-19. By the time the Americans began their aerial bombardment of Japan in 1944, both the JAAF and IJNAF were spent forces. What the Japanese did have though was the Ki-44 Tojo. Armed with two 40 mm cannons, it was the most heavily armed and feared single seat fighter to see action against the new American bomber, the B-29 Superfortress. For the bomber crews, they had what they believed was their ace in the hole: a fully armed B-29 carried four remotely operated gun turrets and a tail gunner's position, making it the world's most advanced self-defending bomber. In every respect, the Ki-44 pilots were fighting a desperate battle. Many who made their mark did so using suicidal ramming attacks or taiatari. Illustrated with full colour artwork, this volume examines why the Ki-44 was unable to break up bomber formations conventionally during the Pacific War and how its ramming tactics, while terrifying, graphically revealed Japan's inability to stop the B-29.

Aces Against Japan Eric Hammel, 2020-12-05. ACES AGAINST JAPAN: The American Aces Speak. Eric Hammel. In this superb, originally conceived offering, noted military historian Eric Hammel brings us first person accounts from thirty-nine of the American fighter aces who blasted their way across the skies of the Pacific and East Asia from December 7, 1941, until the final air battles over Japan itself in August 1945. Coupled with a clear view of America's far-flung air war against Japan, Hammel's detailed interviews bring out the most thrilling in the cockpit experiences of the air combat that the Pacific War's best Army, Navy and Marine pilots have chosen to tell. Meet Frank Holmes, who defied death in an outmoded P-36 while still clad in a seersucker suit he had worn to mass earlier that morning. Fly with Scott McCuskey as he single-handedly took out two waves of Japanese dive bombers that were attacking his precious aircraft carrier. Sweat out the last precious drops of fuel in a defective Marine Wildcat fighter as Medal of Honor recipient Jeff DeBlanc bores ahead to his target to keep the faith with the bomber crews he has been assigned to protect. Experience the ecstasy of total victory as Ralph Hanks becomes the Navy's first Hellcat ace in a day when he destroys five Japanese fighters over the Gilbert Islands in a single mission. A superb interviewer, Hammel has collected some of the very best air combat tales from America's war with Japan. Combined with the four other volumes in The American Aces Speak series, this work will stand as an enduring testament to the brave men who fought the first and last air war in which high performance piston engine fighters held sway. These are stories of bravery and survival of men and machines pitted against one another in heart-stopping, unforgiving, high speed aerial combat. The American Aces Speak is a highly charged, emotional rendering of what men felt in the now dim days of personal combat at the very edge of our living national history. There was never a war like it, and there never will be again. These are America's eagles, and the stories are their own, in their very own words. Eric Hammel is the author of nearly thirty other books, including Pacifica Press's *Carrier Clash*, *Carrier Strike*, *Aces Against Germany*, *Aces Against Japan II*, *Aces at War*.
