

2. POWER TRAIN

The transmission of this model consists of a series of gears and shafts as shown in previous page. The traveling system is chiefly composed of hydrostatic transmission section, range gear shift section and front wheel drive section.

[1] HYDROSTATIC TRANSMISSION (HST)

(1) Structure

The RTV900 has its HST built into the transmission case and incorporates a hydraulically operated servomechanism. The servomechanism controls the pedal operation hydraulically. As a result a smoother pedal operation can be achieved. The components of the RTV900 HST (transmission case) are variable displacement piston pump, fixed displacement piston motor, variable displacement piston motor, charge pump, servo-regulator and various valves. Refer to the next page for detailed parts in the HST.
