Issues of Governance, Security, and Development in Contemporary Africa Mohamed Saliou Camara, Alem Hailu, Sabella O. Abidde, 2023-12-15 Governance security and development are three critical components of a dialectical nexus that is both dominant and determinant for any objective and fruitful quest for the understanding of the trajectory of a country a region or in the case of Africa a continent from a colonial past to a neocolonial and meta colonial present and toward a future of strategic optimal independence and self reliance That colonial past and the ensuing neocolonial and meta colonial present have made these critical components and the dialectical nexus that they form particularly challenging for the African continent For this reason *Issues of Governance Security and Development in Contemporary Africa* offers an in depth interdisciplinary analysis of the challenges that contemporary Africa faces within these critical areas as well as the resources and prospects that the continent possesses and can leverage to overcome the said challenges Using case studies involving a range of countries across the continent Mohamed Saliou Camara Alem Hailu and Sabella O Abidde argue that Africa needs to decolonize the terms of reference that guide its nation building statecraft and national development agenda in ways that will facilitate the establishment of viable systems of governance and security and the promotion of genuine development

Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 *Thus Until* A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The

reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style

The Best Book On Elite Admissions (Former Stanford Admissions Officer's Plan For Select College Admissions) Erinn Andrews, 2011-11-17 ABOUT THE BOOK Applying to college is likely the most stressful and important moment in a teenager's academic life Pressure from friends family teachers and oneself add up to make this an overwhelming process to go through especially for students applying to the nation's most selective schools One major reason for this stress is the uncertainty of the application process Often the students who apply to top schools are used to feeling in control of their lives and planning their future but because there are no sure admittances in elite admissions the feeling of helplessness can be overwhelming There are a number of resources available to students who wish to maximize their chances of admission however I as a former admission officer at a selective university feel that many are misleading In some cases the advice given is very specific to one school which isn't useful for the majority of students or it's too vague And in some other cases students try to compare their statistics with the statistics of other seemingly similar students to gauge their chances of admission perhaps the worst resource of all MEET THE AUTHOR Erinn Andrews is the former Assistant Director of Undergraduate Admissions at Stanford University She read and evaluated thousands of applications from the US as well as more than 70 countries around the world and through that she has developed a unique perspective on what it takes to get into the nation's elite colleges She completed an M A in Education at Stanford University's School of Education in the Policy Organization and Leadership Studies Program She also earned a B A in History with Honors at Stanford She now works with students to help them uncover their intellectual and personal interests and present the best version of themselves in the elite admissions process EXCERPT FROM THE BOOK The purpose of the application in selective admissions is to understand the context from which the applicant is coming In order to decide which students to admit when admit rates are so low Once the context has been established then the admission officer tries to find out if the student has taken advantage of the opportunities available to him and has either a made a lasting impact in his community in some way or b has the potential to make a lasting impact in his future community college and beyond Despite popular belief every application is actually read in its entirety by an admission officer in the selective admissions process
