Maatschappelijk Verkeer:

Fundamental Rights in European Contract Law Chantal Mak, 2008-01-01 Our modern insistence on democratic social values has engendered an intense debate over the intersection of fundamental rights and contract law In particular case law in several European national jurisdictions has exerted significant pressure on traditional contract law instruments to conform more transparently with the fundamental rights enshrined in the EC Charter This pressure is clearly evident in a number of societal areas subject to contract law among them employment housing and privacy It can even be argued as this author does that fundamental rights intermediate between politics and law Taking its cue from many initiatives toward the development of a more coherent even harmonised European contract law this book is the first major study to examine the following essential questions with detailed reference to actual judicial developments To what extent do fundamental rights affect contract law In which types of cases can fundamental rights be applied What does the explicit consideration of fundamental rights add to contract law adjudication The author approaches the analysis along two different avenues first a comparative overview of developments in case law and second a more general theoretical view on the interaction between fundamental rights and rules of contract law which is tested against examples from various legal systems The focus throughout is on developments in case law because the impact of fundamental rights in contract law has been felt on the level of dispute resolution rather than on the level of legislation Germany and the Netherlands are chosen because their judiciaries have been notable for their early and continuing attention to the theme and England and Italy for perspectives on developments under common law and civil law systems respectively

uitgedaagd Remco van Wijk, Niels de Winne, 2014-03-15 Verantwoording is een maatschappelijk vraagstuk van de eerste orde maar ook een bron van groeiende zorg en irritatie voor veel organisaties In 2004 startten het ministerie van Financiën

en het ministerie van Justitie een onderzoek naar de mogelijke toepassing van eXtensible Business Reporting Language XBRL als uniforme gegevensstandaard voor verantwoording In 2006 lag er een architectuur voor Standard Business Reporting In 2007 werden de eerste berichten in XBRL via een generieke voorziening succesvol bij de Belastingdienst en de Kamer van Koophandel afgeleverd Eind 2009 werd er serieus ingezet op de grootschalige transitie van informatieketens Sinds 2013 biedt Logius met Standard Business Reporting een werkende en efficiënte standaardoplossing voor massale verantwoording De keten uitgedaagd Besturen en verantwoorden in een wereld vol ICT beschrijft de weg die Standard Business Reporting heeft afgelegd van opgave tot oplossing Specialisten uit de praktijk en wetenschappers geven een gefundeerd en gedetailleerd inzicht in de uitdagingen die komen kijken bij de transitie van informatieketens In haar veelzijdigheid is het boek exemplarisch voor de benodigde paradigmaverschuivingen binnen het veranderdomein Het boek biedt bovendien alle praktische informatie die partijen nodig hebben om de SBR oplossingen toe te passen in het eigen domein Het is inmiddels algemeen bekend dat het bij grootschalige ICT programma's om veel meer draait dan techniek alleen Met Standard Business Reporting als toonbeeld van een domein waarin informatieketens grondig werden aangepakt is De keten uitgedaagd een niet te missen handboek voor bestuurders en programmamanagers die willen besturen en verantwoorden in een wereld vol ICT

Liability Law for Failed Contract Negotiations Tom Hick, 2025-08-28 This book provides the European structure of liability for failed contract negotiations through a comparative lens with wider lessons for an international context The book demonstrates that all the analyzed legal systems in Belgium France Germany Italy and the Netherlands can be best understood through a binary structure in their approach to pre contractual liability or culpa in contrahendo This structure consists of two key elements first a general liability framework that allows for compensation of pure economic loss based on certain qualified conduct such as negligence and second an implicit obligation to contract which though not explicitly recognized is presumed in most systems The book argues that this dual framework provides valuable insights into ongoing scholarly debates and the challenges practitioners face in cases of failed contract negotiations Drawing on these insights it proposes a more effective approach to the obligation to contract one that encourages parties to collaborate in reaching an agreement voluntarily rather than imposing one upon them This book will be of interest to researchers in the field of comparative contract and tort law European private law and private law theory , *The enforceability of the human right to adequate food* Bart Wernaart, 2023-09-04 While the right to adequate food is often discussed in the context of developing countries especially in situations where access to adequate food is a problem on a larger scale this book focusses on the right to food in two Western countries in which theoretically the circumstances allow this right to be enjoyed by each individual Through a legal comparative study the enforceability of the right to food is compared between the Netherlands and Belgium in light of the current UN Human Rights system There seems to be a difference between what the countries do what they say they do and what they should do on the matter As it appears the coincidental constitutional circumstances mainly

determine the enforceability of the right to food rather than the content of the human right in itself This book includes a thorough analysis of suitable comparative legal methodology and the embedment of the right to food in the UN human right system Furthermore for both countries an in depth analysis of the case law on the right to food mostly concerning the status of foreigners the constitutional context in which the Judiciary operates and the relevant UN reports and subsequent procedures are outlined Finally recommendations are made to both countries and the relevant UN Committees

Christianity, Colonization, and Gender Relations in North Sumatra Sita T. van Bemmelen, 2017-11-20 In this book Sita van Bemmelen offers an account of changes in Toba Batak society Sumatra Indonesia due to Christianity and Dutch colonial rule 1861 1942 with a focus on customs and customary law related to the life cycle and gender relations The first part a historical ethnography describes them as they existed at the onset of colonial rule The second part zooms in on the negotiations between the Toba Batak elite the missionaries of the German Rhenish Mission and colonial administrators about these customs showing the evolving views on desirable modernity of each contestant The pillars of the Toba patrilineal kinship system were challenged but alterations changed the way it was reproduced and gender relations for ever **Company**

Financial Reporting Stephen A Zeff, Frans van der Wel, C. Camfferman, 2016-02-05 First published in 1992 Prior to this work no thorough study had been made of the Dutch institutional environment and of the Dutch practice of regulating the process of financial accounting despite a number of unique and influential practices originating there The book attempts to trace the conditions the sources and the connections of the regulatory processes for financial statements providing orientation for readers unfamiliar with the Dutch context and a chronological survey from the 19th century to the early 1990 s In addition to analysing the Dutch process comparison is made with the standard setting processes in the United States and UK The title will be of interest to students of Business and Economics **Civic Education and Contested Democracy** Wim

de Jong, 2020-10-14 This book explores citizenship education and democracy in the Netherlands From the Second World War to the present day debates about civic education and democracy have raged in the country this book demonstrates how citizens social movements and political elites have articulated their own notions of democracy Civic education illustrates democracy as an essentially contested concept the transmission of political ideals highlights conflicting democratic values and a problem of paternalism Ultimately who dictates what democracy is and to whom As expectations of citizens rise they are viewed more and more as objects of a pedagogical project itself a controversial notion Focusing on what democracy means practically in society this book will be of interest to scholars of citizenship education and post war Dutch political history **The Palgrave Handbook of ESG and Corporate Governance** Paulo Câmara, Filipe Morais, 2022-06-28 Since the 2008 Global Financial Crisis the prevailing economic development model based on an assumption of unlimited resources and therefore unlimited growth has been increasingly put into question by academics policy making agencies and even industry leaders themselves Climate change general environmental and natural resource degradation widespread

inequalities and systemic governance failures are pressing capitalism to renew itself to deliver sustainable outcomes for a broader base of stakeholders This has become known in more practical terms as the ESG Environmental Social and Governance and responsible investment movements The pressure to change how we organise ourselves as societies and economies has implications for how large and small corporations public or private are governed and to the benefit of whom This Handbook offers a rare combination of pluralistic and multidisciplinary perspectives from law economics finance and management as well as an interesting mix of latest academic thinking and practical recommendations on ESG for boards and executive teams Should companies be governed and managed for the benefit of their shareholders alone Can companies be governed to deliver for shareholders as well as the broader stakeholder base How can investors allocate capital to advance sustainability Part I provides a pluralistic discussion of some of these fundamental questions besetting academics and practitioners alike while Part II examines recent regulatory developments and assesses what may need to change in terms of law and regulation to both hold companies to account for sustainability while enabling them to continue to provide vital goods and services Part III of the book discusses how the different types of companies and investors are currently facing the sustainability imperative and incorporating ESG factors on how they operate and invest The concluding chapter provides an overview of the key regulatory ecosystem and board level gaps that require urgent and decisive action

Psychiatrische en Neurologische Bladen ,1897 **On the control of complex industrial organizations** J.E. van Aken,2012-12-06 This book is concerned with control issues in complex industrial organizations The word control is used here in a rather wide sense including decision making coordination and planning as well as activities such as the design and implementation of organizational structures or computerized information systems There are various ways of defining complexity here we use this term to indicate that the organizations in question consist of many sub organizations which are operationally interdependent but at the same time have a fair degree of independence of control The control of the interactions between these suborganizations through coordination will be a key issue in this book The discussion will be confined to industrial organizations our results are only applicable to a limited extent to other types of organizations such as universities hospitals or government offices The main contribution we intend to make in this book is the development of a

system of concepts on control and coordination in industrial organizations which can be used in the design of organizational control structures such as planning systems information systems or relations between positions or departments Rather eclectic use has been made of various scientific disciplines in the development of this conceptual system with some bias towards the use of system theory and cybernetics The book is intended for professional workers in the field of organizational control technology such as automation and organization specialists in complex organizations and workers in the related disciplines at University
