Gilded Age Ivan Franceschini, Nicholas Loubere, 2018-04-01 According to the Chinese zodiac 2017 was the year of the fire rooster an animal often associated with the mythical fenghuang a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing Considering the auspicious symbolism surrounding the fenghuang it is fitting that on 18 October 2017 President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the beginning of a new era for Chinese socialism However in spite of such ecumenical proclamations it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities Migrant workers for one remain disposable Lawyers activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world This Yearbook traces the stark new gilded age inaugurated by the Chinese Communist Party It does so through a collection of more than 40 original essays on labour civil society and human rights in China and beyond penned by leading scholars and practitioners from around the world

*Dysphoria Mundi* Paul B. Preciado, 2025-04-15 A revolutionary book tracing the collapse of the paradigms that have organized the world for centuries In *Dysphoria Mundi* Paul B Preciado best known for his 2013 cult classic *Testo Junkie* has written a mutant text assembled from essays philosophy poetry and autofiction that captures a moment of profound change and possibility Rooted in the isolation of the COVID 19 pandemic and taking account of the societal convulsions that have ensued Preciado tries to make sense of our times from within the swirl of a revolutionary present moment The central thesis of this monumental work is that dysphoria to be understood properly should not be seen as a mental illness but rather as the condition that defines our times Dysphoria is an abyss that separates a patriarchal colonial and capitalist order hurtling toward its end from a new way of being that until now has been seen as unproductive and abnormal but is in fact the way out of our current predicament With echoes of visionaries such as William S Burroughs and Kathy Acker Preciado's theoretical writing is propelled by lyric power while providing us with a critical toolbox full of new concepts that can guide our thinking and our actions transition cognitive emancipation denormalization disidentification electronic heroin digital coups necro kitsch *Dysphoria Mundi* is Preciado's most accessible and significant work to date in which he makes sense of a world in ruins around us and maps a joyous radical way forward

*China Imagined* Gregory Lee, 2018-12-15 If China as Lee argues is a product of Westernization then the West is itself in the process of becoming China

*On the Road to Global Labour History*, 2017-09-18 *Global Labour History* is a latecomer to historical science It has only developed in the last three decades This anthology provides a comprehensive overview of the state of the art Prominent representatives of the discipline discuss its fundamental methodological and conceptual aspects In addition the volume contains field and case studies from Africa and Latin America as well as from the Middle East and China In these studies the local regional and continental constitutive processes of the working class are discussed from a global historical perspective The anthology has been composed as a Festschrift dedicated to Marcel van der Linden the leading theoretician of

Carroll, J.P. Sapinski, 2018-12-06T00:00:00Z

Canada is ruled by an organized minority of the 1% a class of corporate owners managers and bankers who amass wealth by controlling the large corporations at the core of the economy But corporate power also reaches into civil society and politics in many ways that greatly constrain democracy In *Organizing the 1%* William K Carroll and J P Sapinski provide a unique evidence based perspective on corporate power in Canada and illustrate the various ways it directs and shapes economic political and cultural life A highly accessible introduction to Marxist political economy Carroll and Sapinski delve into the capitalist economic system at the root of corporate wealth and power and analyze the ways the capitalist class dominates over contemporary Canadian society The authors illustrate how corporate power perpetuates inequality and injustice They follow the development of corporate power through Canadian history from its roots in settler colonialism and the dispossession of Indigenous peoples from their land to the concentration of capital into giant corporations in the late nineteenth century More recently capitalist globalization and the consolidation of a market driven neoliberal regime have dramatically enhanced corporate power while exacerbating social and economic inequalities The result is our current oligarchic order where power is concentrated in a few corporations that are controlled by the super wealthy and organized into a cohesive corporate elite Finally Carroll and Sapinski offer possibilities for placing corporate power where it actually belongs in the dustbin of history      *Dying for an iPhone* Jenny Chan, Mark Selden, Pun Ngai, 2020-06-20

interns managers and trade union staff Dying for an iPhone is a devastating expose of two of the world's most powerful companies Foxconn and Apple As the leading manufacturer of iPhones iPads and Kindles and employing one million workers in China alone Taiwanese invested Foxconn's drive to dominate global electronics manufacturing has aligned perfectly with China's goal of becoming the world leader in technology This book reveals the human cost of that ambition and what our demands for the newest and best technology mean for workers Foxconn workers have repeatedly demonstrated their power to strike at key nodes of transnational production challenge management and the Chinese state and confront global tech behemoths Dying for an iPhone allows us to assess the impact of global capitalism's deepening crisis on workers **La**
