Procession to Machu Picchu

By Leonard A. Orcino

Machu Picchu is the site of a pre-Columbian (1492AD) Inca ruin, often referred to as "The Lost City of the Incas." It is situated on a mountain ridge 8,000 feet above the Urubamba Valley in Peru. American historian Hiram Bingham rediscovered the site and brought it to the attention of the world in 1911. Machu Picchu is now considered one the seven wonders of the modern world and is a highly visited tourist destination.

Procession to Machu Picchu is written in a bolero style and brings to life visions of the Incas as they marched to the summit over 500 years ago.

[A Suitcase Full of Wildflowers](#) Fil Bufalo, 2024-09-13. There were possibly twenty reasons why I hung the sign on my study door reading "Gone to Scotland back in a month." Reason number one: I was compelled to languish on a stone bench in the rocky high grounds of Edinburgh Castle, eyes closed, savoring the sweet sound of bagpipes echoing through the centuries-old stillness. The only thrill that could possibly surpass the bagpipes would be the sensory awakening at the Edinburgh Tattoo. Beyond that, my list included a longing to revisit the lochs in hopes of glimpsing the elusive Nessie, a craving for the earthy taste of haggis, a penchant for a lively Scottish reel and jig, and a need to purchase genuine Scottish shortbread. I also yearned for an authentic Scottish coat, gloves, and matching tam o' shanter, the sight of a man in a kilt, preferably bending over to tie his shoelaces, and the desire to potter around a certain famous viaduct crossing. Branding Ari-Veikko Anttiroiko, 2014-02-24 Globalization affects urban communities in many ways One of its manifestations is increased intercity competition which compels cities to increase their attractiveness in terms of capital entrepreneurship information expertise and consumption This competition takes place in an asymmetric field with cities trying to find the best possible ways of using their natural and created assets the latter including a naturally evolving reputation or consciously developed competitive identity or brand The Political Economy of City Branding discusses this phenomenon from the perspective of numerous post industrial cities in North America Europe East Asia and Australasia Special attention is given to local economic development policy and industrial profiling and global city rankings are used to provide empirical evidence for cities characteristics and positions in the global urban hierarchy On top of this social and urban challenges such as creative class struggle are also discussed The core message of the book is that cities should apply the tools of city branding in their industrial promotion and specialization but at the same time take into account the special nature of their urban communities and be open and inclusive in their brand policies in order to ensure optimal results This book will be of interest to scholars and practitioners working in the areas of local economic development urban planning public management and branding
