Macrowikinomics New Solutions For A Connected Planet:

Macrowikinomics Don Tapscott, Anthony D. Williams, 2010-09-28 In their bestseller *Wikinomics* Don Tapscott and Anthony Williams showed the world how mass collaboration was changing the way businesses communicate create value and compete in the new global marketplace This sequel shows that in more than a dozen fields from finance to health care science to education the media to the environment we have reached a historic turning point Collaborative innovation is revolutionizing not only the way we work but how we live learn create govern and care for one another The wiki revolutions of the Arab Spring were only one example of how rebuilding civilization was not only possible but necessary With vivid examples from diverse sectors *Macrowikinomics* is a hand book for people everywhere seeking a transformation of industry and institutions by embracing a new set of guiding principles including openness and interdependence Tapscott and Williams argue that this new communications medium like the printing press before it is enabling nothing less than the birth of a new civilization

MacroWikinomics Don Tapscott, 2010-10-01 The sequel to the international 1 bestseller *Wikinomics* *Wikinomics* showed how mass collaboration was changing businesses around the world *MacroWikinomics* takes it beyond the boardroom to show how the mass collaboration is revolutionizing the way we live work and create The era of the monolithic self contained inwardly focused corporation is over In *Wikinomics* Don Tapscott and Anthony D Williams showed how the internet is changing the way the very smartest business managers think about structures and strategies in the 21st century Now in *MacroWikinomics* they demonstrate how this revolution in thinking is spreading outwards to other sectors from education and scientific institutions to entertainment and media to government and democracy *MacroWikinomics* is a groundbreaking and definitive look at achieving success for a new century a new media a new generation and a new economy

points revolve around differing attitudes toward managing one's own time, texting, social media, organizational structure and of course clothing preferences. If we don't learn to work together and stick together around these 12 sticking points then we'll be wasting a lot of time fighting each other instead of enjoying a friendly and productive team. *Sticking Points* is a must-read book that will help you understand the generational differences you encounter while teaching how we can learn to speak one another's language and get better results together.

Small Business and the City Rafael Gomez, Andre Isakov, Matthew Semansky, 2015-01-01

In *Small Business and the City* Rafael Gomez, Andre Isakov and Matt Semansky highlight the power of small scale entrepreneurship to transform local neighbourhoods and the cities they inhabit. Studying the factors which enable small businesses to survive and thrive they highlight the success of a Canadian concept which has spread worldwide the Business Improvement Area (BIA). BIAs allow small scale entrepreneurs to pool their resources with like-minded businesses becoming sources of urban rejuvenation, magnets for human talent and incubators for local innovation in cities around the globe. *Small Business and the City* also analyses the policies necessary to support this urban vitality describing how cities can encourage and support locally owned independent businesses. An inspiring account of the dynamism of urban life. *Small Business and the City* introduces a new main street agenda for the twenty-first century city.

Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles Robert Cassidy, Elizabeth S. Charles, James D. Slotta, Nathaniel Lasry, 2019-07-11

This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence-based pedagogies in higher education at something of a level approaching large-scale impact. By offering a communication venue that attracts and enhances much-needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together, i.e. extending the implementation and knowledge of co-design methods. In this first edition of our Research Topic on Active Learning we highlight two of the three types of publications we wish to promote. First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community. These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research/practitioner partnerships. Second are studies empirically examining the implementations of evidence-based designs in naturalistic settings and under naturalistic conditions. Interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in-betweens straddling the two worlds. As a result these publications represent both the rigours of research and the pragmatism of reflective practice. In forthcoming editions we will add to this collection a third type of publication design profiles. These will present practitioner-developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners, instructional designers and researchers alike. We hope by bringing these types of studies together in

an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in pedagogical innovation
