*Turkey in Turmoil* Berna Pekesen, 2020-06-22 The essays in this book are the first scholarly attempt to examine the complex interrelation of social change and political radicalization during the 1960s In analyzing topics ranging from the 1968 student uprising working class politics and trade unionism Anti Americanism right wing and left wing militant action communitarian violence state coercion and the artistic representation of these phenomena the contributors offer insights to help to answer why the experiences of this decade turned so radical with lasting polarizing effects on contemporary Turkish society today Even though issues surrounding the topic are at the very center of intellectual and political debates in today's Turkey such as the collective remembrance of the Turkish 68ers and of the anti communist state persecution and prosecution after the military intervention in 1980 a cohesive analysis of this era is still strikingly absent in scholarly works Thus *Turkey in Turmoil* is unique in many regards As important as the presented diversity in research perspectives the volume will also showcase multiple and at some point contesting and even provocative perspectives on the subject at hand

*The Oxford Handbook of History and International Relations* Mlada

Bukovansky, Edward Keene, Christian Reus-Smit, Maja Spanu, 2023-08-03 Historical approaches to the study of world politics have always been a major part of the academic discipline of International Relations and there has recently been a resurgence

of scholarly interest in this area This Oxford Handbook examines the past and present of the intersection between history and IR and looks to the future by laying out new questions and directions for research Seeking to transcend well worn disciplinary debates between historians and IR scholars the Handbook asks authors from both fields to engage with the central themes of modernity and granularity Modernity is one of the basic organising categories of speculation about continuity and discontinuity in the history of world politics but one that is increasingly questioned for privileging one kind of experience and marginalizing others The theme of granularity highlights the importance of how decisions about the scale and scope of historical research in IR shape what can be seen and how one sees it Together these themes provide points of affinity across the wide range of topics and approaches presented here The Handbook is organized into four parts The first Readings gives a state of the art analysis of numerous aspects of the disciplinary encounter between historians and IR theorists Thereafter sections on Practices Locales and Moments offer a wide variety of perspectives from the longue dur e to the ephemeral individual moment and challenge many conventional ways of defining the contexts of historical enquiry about international relations Contributors come from a range of academic backgrounds and present a diverse array of methodological and philosophical ideas as well as their various historical interests The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal s original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

*Citizenship, Inequality, and*

*Difference* Frederick Cooper, 2018-05-15 A succinct and comprehensive history of the development of citizenship from the Roman Empire to the present day *Citizenship Inequality and Difference* offers a concise and sweeping overview of citizenship's complex evolution from ancient Rome to the present. Political leaders and thinkers still debate as they did in Republican Rome whether the presumed equivalence of citizens is compatible with cultural diversity and economic inequality. Frederick Cooper presents citizenship as claim making: the assertion of rights in a political entity. What those rights should be and to whom they should apply have long been subjects for discussion and political mobilization while the kind of political entity in which claims and counterclaims have been made has varied over time and space. Citizenship ideas were first shaped in the context of empires. The relationship of citizenship to nation and empire was hotly debated after the revolutions in France and the Americas and claims to imperial citizenship continued to be made in the mid twentieth century. Cooper examines struggles over citizenship in the Spanish, French, British, Ottoman, Russian, Soviet and American empires and he explains the reconfiguration of citizenship questions after the collapse of empires in Africa and India. He explores the tension today between individualistic and social conceptions of citizenship as well as between citizenship as an exclusionary notion and flexible and multinational conceptions of citizenship. *Citizenship Inequality and Difference* is a historically based reflection on some of the most fundamental issues facing human societies in the past and present. **Historical Dictionary of Popular Music**

Norman Abjorensen, 2017-05-25 This book seeks to trace the rise of popular music, identify its key figures and track the origins and development of its multiple genres and styles all the while seeking to establish historical context. It is fundamentally a ready reference guide to the broad field of popular music over the past two centuries. It has become a truism that popular music so pervasive in the modern world constitutes a soundtrack to our lives, a constant though changing presence as we cross thresholds and grow from children to teenagers to adults. But it has become more than a soundtrack; it has become a narrative. Not just an accompaniment to our daily lives but incorporating our lives, our sense of identity, our lived experiences into it. We have become part of the music just as the music has become part of us. The *Historical Dictionary of Popular Music* contains a chronology, an introduction, an appendix and an extensive bibliography. The dictionary section has over 1000 cross-referenced entries on major figures across genres, definitions of genres, technical innovations and surveys of countries and regions. This book is an excellent resource for students, researchers and anyone wanting to know more about popular music. **Advances in Design, Music and Arts**

Daniel Raposo, João Neves, José Silva, Luísa Correia Castilho, Rui Dias, 2020-09-11 This book presents the outcomes of recent endeavors that will contribute to significant advances in the areas of communication design, fashion design, interior design and product design, music and musicology as well as overlapping areas. Gathering the proceedings of the 7th EIMAD conference held on May 14-15 2020 and organized by the School of Applied Arts Campus da Talagueira in Castelo Branco, Portugal, it proposes new theoretical perspectives and practical research directions in design and music while also discussing teaching practices and some areas of intersection. It

addresses strategies for communication and culture in a global digital world that take into account key individual and societal needs

**Energy Justice in Latin America** Adolfo Mejía-Montero, 2025-02-18 This book presents valuable insights critiques and contributions from energy researchers focused on Latin American case studies Their work not only enriches the understanding of energy justice but also addresses a significant gap in the current academic literature Since it was coined as an academic term more than ten years ago energy justice has experienced accelerated growth as a relevant and widely recognised concept that allows energy researchers to engage with diverse energy issues Nevertheless energy justice still faces theoretical and empirical gaps including a lack of diversity in author demographics and case studies coming from regions in the Global South Against this backdrop this book brings together 30 authors whose research draws from Latin American countries like Argentina Brazil Bolivia Chile Costa Rica Ecuador Mexico Panama and Peru as well as wider regional perspectives The selected case studies combine low carbon transitions regulations and technologies with issues of gender indigeneity neo colonialism autonomy poverty and inequality Importantly the chapters examine how energy justice might influence existing approaches and worldviews on sustainability which strive for just and clean future energy systems by redressing regional inequalities and tackling the global challenge of climate change As such Energy Justice in Latin America opens new spaces for a growing research community to redefine and jointly construct a more complete regionally specific notion of energy justice Highlighting the ways in which the discussion included in this book resonates with other regions in the Global South this volume will be of great interest to students and scholars of energy justice energy poverty energy democracy and energy policy as well as Latin American studies more broadly

**Gender, Identity and Place** Linda McDowell, 2018-03-23 Feminist approaches within the social sciences have expanded enormously since the 1960s In addition in recent years geographic perspectives have become increasingly significant as feminist recognition of the differences between women their diverse experiences in different parts of the world and the importance of location in the social construction of knowledge has placed varied geographies at the centre of contemporary feminist and postmodern debates Gender Identity and Place is an accessible and clearly written introduction to the wide field of issues that have been addressed by geographers and feminist scholars It combines the careful definition and discussion of key concepts and theoretical approaches with a wealth of empirical detail from a wide ranging selection of case studies and other empirical research It is organized on the basis of spatial scale examining the relationships between gender and place from the body to the nation although the links between different spatial scales are also emphasized The conceptual division and spatial separation between the public and private spheres and their association with men and women respectively has been a crucial part of the social construction of gendered differences and its establishment maintenance and reshaping from industrial urbanization to the end of the millennium is a central linking theme in the eight substantive chapters The book concludes with an assessment of the possibilities of doing feminist research It will be essential reading for students in geography

feminist theory women s studies anthropology and sociology      Ancient and Indigenous Wisdom Traditions in the Americas Ehaab Abdou, Theodore Zervas, 2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures histories and wisdom traditions With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures it includes unique contributions from scholars studying these questions in various contexts The book offers a range of important studies from various contexts across the Americas including Canada the various member nations of the Caribbean Community CARICOM Puerto Rico and the United States The various chapter contributions address and discuss nuances of each of the contexts under study The contributions also help highlight some key commonalities across these contexts including how dominant discourses and various forces have historically shaped and continue to shape and reproduce such omissions misrepresentations and marginalization In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures the book charts a path forward toward more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond It will appeal to scholars researchers undergraduate and graduate students with interests in Indigenous education curriculum studies citizenship education history of education religion and educational policy      The Television Studies Reader Robert Clyde Allen, Annette Hill, 2004 A discussion of a truly international range of television programs this title covers alternative modes of television such as digital and satellite

*Amalgamation Schemes* Jared Sexton, 2008 In this analysis Sexton pursues a critique of contemporary multiracialism from the splintered political initiatives of the multiracial movement to the academic field of multiracial studies to the melodramatic media declarations about the browning of America He contests the rationales of colorblindness and multiracial exceptionalism and the promotion of a repackaged family values platform in order to demonstrate that the true target of multiracialism is the singularity of blackness as a social identity a political organizing principle and an object of desire From this vantage Sexton interrogates the trivialization of sexual violence under chattel slavery and the convoluted relationship between racial and sexual politics in the new multiracial consciousness BOOK JACKET      **Postcritical Theory and**

**Curriculum in Latin America** Silvia Morelli, 2024-10-08 This book drawing on a range of postcritical theories including postmodernism poststructuralism and postcolonialism provides a comprehensive analysis of the current state of curriculum in Latin America The book underscores the relationship between curriculum didactics and Bildung in the Latino field acknowledging the hegemony of the United States It initiates dialogues between scholars from various Latin American countries promoting the concept of translation and the didactic tradition as a political practice This practice enables the identification of new scopes and a privileged language challenging the dominant paradigms and offering fresh perspectives Recognizing the need for intervention the book depicts the intellectual history of the field in Argentina and across Latin

America It serves as a critical resource for understanding the complexities and nuances of curriculum studies in the region This work will appeal to curriculum studies scholars researchers faculty and postgraduate students worldwide It offers a unique lens to view and understand the educational landscape in Latin America making it an indispensable addition to the discourse on curriculum studies and educational research It challenges readers to rethink traditional approaches and explore new avenues in curriculum studies
