Purification and Characterization of Enzymes A Laboratory Manual provides a strong research foundation for students
enrolled in a biochemistry lab course by outlining how to evaluate and effectively use scientific data in addition to offering
students a more hands on approach with exercises that encourage them to think deeply about the content and to design their
own experiments Instructors will find this book useful because the modular nature of the lab exercises allows them to apply
the exercises to any set of proteins and incorporate the exercises into their courses as they see fit allowing for greater
flexibility in the use of the material Written in a logical easy to understand manner *Experiments in the Purification and*
Characterization of Enzymes A Laboratory Manual is an indispensable resource for both students and instructors in the fields
of biochemistry molecular biology chemistry pharmaceutical chemistry and related molecular life sciences such as cell
biology neurosciences and genetics Offers project lab formats for students that closely simulate original research projects
Provides instructional guidance for students to design their own experiments Includes advanced analytical techniques
Contains adaptable modular exercises that allow for the study proteins other than FNR LuxG and LDH Includes access to a
