Raffaella Di Napoli

Kepler S Law Robert Stetson:

Kepler's Law Robert Stetson,2013 Some believe that the difference in the way galaxies and solar systems appear to rotate is evidence that dark matter exists This paper does not deny the existence of dark matter This paper explains why solar systems and galaxies appear to obey different laws of motion Kepler s Three Laws of Planetary Motion do not violate the rotation of these two systems They both follow the same laws *Light Barrier* Robert Stetson,2013 Learn how the theory of relativity works Read about the reference point and how the relationship between this point and the object can change the mass volume energy and rate of time Is the speed of light really the maximum Quantum Entanglement occurs across the billions of miles of space at 10 000 times the speed of light If this is true it is then how can the universal maximum speed of 1 8282 Miles Per Second be accurate Then examine the concept from an astrological point of view and learn how the entire system can become unwieldy in a universe with trillions and trillions of stars Find out how the numbers can change when you change the point of reference
