achieve happiness and increase wealth while others can't seem to even get out of the starting block. What is it that equips some with the strength and energy for the fight while others are left listless? How is it that some can spot potential amidst a tangle of problems and work towards their dreams without stumbling under the cruel winds of fate while others struggle desperately making mistake after mistake without encountering any form of success? Years ago Napoleon Hill glimpsed the mysterious sparkling gem of success while speaking to Andrew Carnegie, one of the richest men on the planet. Carnegie advised Hill to examine how other successful people obtained wealth and to develop a formula for success that could be an example the world over. This book reveals the Secret of Success and an action plan for achieving it. Since the original 1937 edition, the book has been reprinted 42 times in the United States, selling out immediately upon publication. The book describes the road to sure success, overcoming all obstacles and achieving one's dreams with the sureness of a movie plot propelling the viewer towards the end along the eternal river of time. The book will shake and transform your life with its motivating energy. As you read it, you will understand how self-confident people amass wealth and achieve happiness. Most importantly, you will become such a success story.

Napoleon Hill was born in a small cabin in the mountains of Virginia. As a young man, he worked as a newspaper reporter in order to afford his studies at Georgetown University. During WWI, he worked as a public relations expert for President Woodrow Wilson's administration. In 1933, Jennings Randolph, a senator from West Virginia, introduced him to Theodore Roosevelt. Hill again found himself in the role of presidential advisor. After establishing the Napoleon Hill Association in 1952, he actively promoted the philosophy of personal success. He also headed the Napoleon Hill Foundation, a public organization aimed at educating people in the science of success.

Anything the mind can conceive and believe it can achieve. Within this one line is distilled a success formula so simple that anyone can apply it, and yet so demanding that only a minority of the population ever fully lives it out. Upon it was built a success philosophy that explains how human desires can be translated into material reality, a framework that rests upon the power of thoughts to seek expression in physical form. Through this singular concept, the world's wealthiest and most successful individuals, rich in money, relationships, power, peace of mind, and social standing, have built and maintained their prosperity. It is the foundational principle of Napoleon Hill's Science of Success program, an achievement philosophy that effectively helped end the Great Depression and that has since made more millionaires, cultural icons, and thought leaders than any other. Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age thirteen as a mountain reporter for small town newspapers. In 1908, as a young special investigator for a nationally known business magazine, he was sent to interview the great steel magnate Andrew Carnegie. During that interview, Carnegie shared the secrets that had enabled him to acquire hundreds of millions of dollars: a magic law of the human mind, a little-known psychological principle that was amazing in its power. Believing that this magic formula should be shared with those who did not have the time or resources to discover it on their own, Carnegie tasked Hill with spending twenty years or more developing this principle into a philosophy of personal success. This research would be conducted without pay; Carnegie merely provided Hill with access to over five hundred of America's greatest business leaders in order to test his success formula. In 1937, after twenty-nine years of research and writing, Hill published *Think and Grow Rich*, which contains the thirteen success principles that form the core of the Science of Success. Since its release, it has sold over one hundred million copies worldwide. No literary work in the personal development genre has had a greater creative impact than *Think and Grow Rich*. **The Think and Grow Rich Workbook** Napoleon Hill, 2009-06-25 For the millions of people who have read
