Mad For Foucault Mad For Foucault:

Mad for Foucault Lynne Huffer, 2010 Contemporary critiques of sexuality have their origins in the work of Michel Foucault While Foucault's seminal arguments helped to establish the foundations of queer theory and greatly advance feminist critique Lynne Huffer argues that our interpretation of the theorist's powerful ideas remains flawed Foucault's Strange Eros Lynne Huffer, 2020-06-16 What is the strange eros that haunts Foucault's writing In this deeply original consideration of Foucault's erotic ethics Lynne Huffer provocatively rewrites Foucault as a Sapphic poet She uncovers eros as a mode of thought that erodes the interiority of the thinking subject Focusing on the ethical implications of this mode of thought Huffer shows how Foucault's poetic archival method offers a way to counter the disciplining of speech At the heart of this method is a conception of the archive as Sapphic the past's remains are like Sappho's verses hole ridden scattered and dissolved by time Listening for eros across fragmented texts Huffer stages a series of encounters within an archive of literary and theoretical readings the eroticization of violence in works by Freud and Eve Kosofsky Sedgwick the historicity of madness in the Foucault Derrida debate the afterlives of Foucault's antiprison activism and Monique Wittig's Sapphic materialism Through these encounters Foucault's Strange Eros conceives of ethics as experiments in living that work poetically to make the present strange Crafting fragments that dissolve into Sapphic brackets Huffer performs the ethics she describes in her own practice of experimental writing Foucault's Strange Eros hints at the self hollowing speech of an eros that opens a space for the strange

Grave Attending Karen Bray, 2019-12-03 A thorough critique of the redemptive narratives of neoliberalism in US politics and society This is a book about what it would mean to be a bit moody in the midst of being theological and political Its framing assumption is that neoliberal economics relies on narratives in which not being in the right mood means a cursed existence So begins Grave Attending A Political Theology for the Unredeemed which mounts a challenge to neoliberal narratives of redemption Mapping the contemporary state of political theology Karen Bray brings it to bear upon secularism Marxist thought affect theory queer temporality and other critical modes as a way to refuse separating one's personal mood from the political or philosophical Introducing the concept of bipolar time she offers a critique of neoliberal temporality by countering capitalist priorities of efficiency through the experiences of mania and depression And it is here Bray makes her crucial critical turn one that values the power of those who are unredeemed in the eyes of liberal democracy those too slow too mad too depressed to be of productive worth suggesting forms of utopia in the poetics of crip theory and ordinary habit Through performances of what she calls grave attending being brought down by the gravity of what is and listening to the ghosts of what might have been Bray asks readers to choose collective care over individual overcoming Grave Attending brings critical questions of embodiment history and power to the fields of political theology radical theology secular theology and the continental philosophy of religion Scholars interested in addressing the lack of intersectional engagement within these fields will find this work invaluable As the forces of neoliberalism demand we

be productive efficient happy and flexible in order to be deemed worthy subjects Grave Attending offers another model for living politically emotionally and theologically Instead of submitting to such a market driven concept of salvation this book insists that we remain mad moody and unredeemed Drawing on theories of affect temporality disability queerness work and race Bray persuades us that embodying more just forms of sociality comes not in spite of irredeemable moods but through them In Grave Attending Bray forges a bold and yet surprisingly gentle theological response to the driving economies of salvation that flow through the bloodstream of US politics and American Christianity Immersed in multiple scholarly discourses Bray manages to expose the significance of theology amongst these as her theological vision insists on countering the pathologizing forces that either numb us or compel us to rise above suffering She catches readers off guard by crafting a lyrical work of theology that claims moods and modes of reflection that are often deemed unsuitable and unworthy Bray s theology claims the damned and damns the redemptive Shelly Rambo Boston University *Madness and Civilization* Michel Foucault,2001 This text is a classic of French post structuralist scholarship and is widely recommended on humanities courses across a variety of disciplines Foucault s analysis of psychology is a devastating critique of the common understanding of insanity *The Cambridge Companion to Foucault* Gary Gutting,1994-02-25 Each volume of this series of companions to major philosophers contains specially commissioned essays by an international team of scholars together with a substantial bibliography and will serve as a reference work for students and non specialists One aim of the series is to dispel the intimidation such readers often feel when faced with the work of a difficult and challenging thinker Michel Foucault one of the most important of contemporary French thinkers exerted a profound influence on philosophy history and social theory Foucault attempted to reveal the historical contingency of ideas that present themselves as necessary truths He carried out this project in a series of original and strikingly controversial studies on the origins of modern medical and social scientific disciplines These studies have raised fundamental philosophical questions about the nature of knowledge and its relation to power structures that have become major topics of discussion throughout the humanities and social sciences

Foucault's Heidegger Timothy Rayner,2007-11-15 A new and important study of the relationship between two key thinkers of the twentieth century *Acute Religious Experiences* Richard Saville-Smith,2023-02-09 This book engages the problem of how in the 21st century we are to speak about experiences of the extraordinary anomalous extreme which occur on a transhistorical and transcultural basis Critical re readings of seminal texts show how 20th century theoreticians in the humanities sought to erase madness from their irrational subjects This propensity to sanitize madness in the study of religions was mirrored by the instinct of psychiatrists to degrade religious experiences by reducing mad consciousness to psychosis or dissociation Richard Saville Smith introduces explanatory pluralism as a way of recognizing these disciplinary biases and mad studies as a way of negotiating this understanding The disproportionate significance of madness in shaping the fabric of the human story can then be recovered from both erasure and dismissal to be given the recognition previously

denied as acute religious experiences Acute Religious Experiences divides into three sections beginning with re readings of William James s pathological programme Rudolf Otto s numinous T K Oesterreich s possession Mircea Eliade s shamanism Walter Stace s mysticism Walter Pahnke s psychedelic experience and Abraham Maslow s peak experiences These ideas are shown to constitute the beginnings of a fractured discourse on the irrational In part two contemporary psychiatry s Diagnostic and Statistical Manual DSM and Foucault s History of Madness are re read to reposition madness as not necessarily pathological This opens the way for the identification of acute religious experiences as a new holistic and post colonial approach through which religious data can be organized and addressed on a comparative basis In part three The Gospel of Mark is re read as a case study to demonstrate the novel insights which flow from the identification of acute religious experiences Richard Saville Smith draws on his own experiences of madness and his PhD from the School of Divinity at The University of Edinburgh to elucidate his research

Foucault and the Making of Subjects Laura Cremonesi, Orazio Irrera, Daniele Lorenzini, Martina Tazzioli, 2016-10-10 Michel Foucault s account of the subject has a double meaning it relates to both being a subject of and being subject to political forces This book interrogates the philosophical and political consequences of such a dual definition of the subject by exploring the processes of subjectivation and objectivation through which subjects are produced Drawing together well known scholars of Foucaultian thought and critical theory alongside a newly translated interview with Foucault himself the book will engage in a serious reconsideration of the notion of autonomy beyond the liberal tradition connecting it to processes of subjectivation In the face of the ongoing proliferation of analyses using the notion of subjectivation this book will retrace Foucault s reflections on it and interrogate the current theoretical and political implications of a series of approaches that mobilize the Foucaultian understanding of the subject in relation to truth and power

Michel Foucault and Theology James Bernauer, 2017-03-02 Whilst Foucault s work has become a major strand of postmodern theology the wider relevance of his work for theology still remains largely unexamined Foucault both engages the Christian tradition and critically challenges its disciplinary regime *Michel Foucault and Theology* brings together a selection of essays by leading Foucault scholars on a variety of themes within the history thought and practice of theology

Revealing the diverse ways that the work of Michel Foucault 1926 1984 has been employed to rethink theology in terms of power discourse sexuality and the politics of knowledge the authors examine power and sexuality in the church in late antiquity Castelli Clark Schuld raise questions about the relationship between theology and politics Bernauer Leezenberg Caputo consider new challenges to the nature of theological knowledge in terms of Foucault s critical project Flynn Cutrofello Beadoin Pinto and rethink theology in terms of Foucault s work on the history of sexuality Carrette Jordan Mahon This book demonstrates for the first time the influence and growing importance of Foucault s work for contemporary theology
