Ordaining Women B. T. Roberts, 2015-11-10 B T Roberts saw the exclusion of women from ordination as analogous to racism His ability to see the new community made possible by Christ offers Christians today a prophetic vision of the difference Christ makes Roberts s 1891 Ordaining Women takes seriously the scriptural promise that Christ has unmasked the false distinctions and repaired the damaged social arrangements of this world Like the abolition of slavery the ordination of women becomes yet another obvious sign of the world made new in Christ With careful attention to biblical interpretation church tradition and empirical evidence Roberts exposes the biases that have long held captive the Christian imagination In this new edition Benjamin Wayman offers an updated and fully annotated version of Roberts s original work and demonstrates the breadth and depth of his analysis Roberts s vision of the gospel challenges the traditional and still dominant view of the global church and invites Christians to reimagine the inclusion of women in ordained ministry If Christians had for so long been wrong about race might we today be wrong about gender **Farmers' Guide** ,1897

private with no body no funeral and no public acknowledgement of the loss In her profound and wise theology of childlessness Emma Nash takes her own story as a starting point examining several distinctive features of this painful human experience She asks what biblical and theological resources offer consolation and what liberative action individuals and churches might take to make an appropriate response Weaving trauma theology together with personal experience Nash offers a profound and heartfelt theological reflection which breaks the barriers between pastoral resource and carefully constructed theology

*Focalization in the Old Testament Narratives with Specific Examples from the Book of Ruth* Konstantin Nazarov,2021-08-02 Since G rard Genette first coined the term in 1972 focalization has been

recognized as one of the key concepts in contemporary understandings of narrative. However, in the field of biblical studies, the concept has been largely overlooked. Dr. Konstantin Nazarov seeks to rectify this oversight by exploring the implications of focalization on Old Testament narratology. Utilizing the work of Wolf Schmid and Valeri Tjupa to develop his methodology and examining the book of Ruth as a case study, Nazarov demonstrates the value of focalization in furthering the appreciation and understanding of biblical texts. This is an excellent resource for students of narratology, biblical studies scholars, or anyone seeking to better understand the narratives of Scripture.

*Shakespeare and Wisdom*. Unhae Park Langis, Julia Reinhard Lupton, 2024-07-19. Explores how Shakespeare uses global wisdom literatures to encourage spiritual and moral growth and the arts of living in a connected world. Invites readers to consider Shakespeare as a wisdom writer. Welcomes readers into a wisdom ecology reflecting the ongoing interactions of agents from ecumenical, ecological, ethico-political, emotional, and experiential angles. Explores Shakespeare's plays transhistorically in conversation with the pre-modern Indo-European lifeworld as well as Indigenous ways of being. Shows how eco-logic replaces ego-logic in this sapient lens poised to confront the challenges of homo sapiens in the Ecocene. Highlights Shakespeare's women as curators of knowing and agents of communal care. This volume interweaves Shakespeare's wisdom with ancient spiritual practices and the insights of a post-secular age in order to explore a transhistorical space of sapient knowing and living. Pursuing the delight of heart, soul, and understanding in the synaesthetic experience of theatre and the meditative space of poetry, sapiential Shakespeare explores knowledge, love, beauty, nature, will, and power in conversation with multiple wisdom traditions tapping into a global *sensus communis* rooted in energetic knowing. With this collection of essays, begins in the Mediterranean with classical biblical and Egyptian wisdom, moves to the East to consider Sufi and Buddhist wisdom, and then turns to the West to reflect on Indigenous science and ways of knowing. Sharing a common root in *oikos* meaning home, the ecumenical and the ecological converge in an embodied ethics and politics of care premised in an ecological rather than ego-logical way of being.
