Williams,2017-09-01 On January 25 1917 HMS Laurentic struck two German mines off the coast of Ireland and sank The ship was carrying 44 tons of gold bullion to the still neutral United States via Canada in order to finance the war effort for Britain and its allies Britain desperately needed that sunken treasure but any salvage had to be secret since the British government dared not alert the Germans to the presence of the gold Lieutenant Commander Guybon Damant was the most qualified officer to head the risky mission Wild gales battered the wreck into the shape of an accordion turning the operation into a multiyear struggle of man versus nature As the war raged on Damant was called off the salvage to lead a team of covert divers to investigate and search through the contents of recently sunk U boats for ciphers minefield schematics and other secrets The information they obtained once in the hands of British intelligence proved critical toward Allied efforts to defeat the U boats and win the war But Damant had become obsessed with completing his long deferred mission His team struggled for five more years as it became apparent that the work could only be accomplished by muscle grit and persistence Using newly discovered sources author Joseph A Williams provides the first full length account of the quest for the Laurentic s gold More than an incredible

story about undersea diving adventure The Sunken Gold is a story of human persistence bravery and patriotism **Monthly Catalogue, United States Public Documents** ,1990 **The Sten Gun** Leroy Thompson,2012-09-20 The Sten submachine gun officially the Carbine Machine Sten was developed to fulfill the pressing British need for large quantities of cheaply produced weapons after Dunkirk when German invasion was a very real possibility Over four million were built during World War II and the Sten was widely used by airborne troops tankers and others who needed a compact weapon with substantial firepower It proved especially popular with Resistance fighters as it was easy to conceal deadly at close range and could fire captured German ammunition with a design so simple that Resistance fighters were able to produce them in bicycle shops Featuring vivid first hand accounts specially commissioned full colour artwork and close up photographs this is the fascinating story of the mass produced submachine gun that provided Allied soldiers and Resistance fighters with devastating close range firepower *Tragedy in Aurora* Tom Diaz,2019-10-31 *Tragedy in Aurora* is about the 2012 murder of budding sports journalist Jessica Jessi Redfield Ghawi in a public mass shooting and the widening circle of pain it inflicted on her family friends police medical first responders and others The book is at the same time a deep examination of the causes and potential cures of the quintessential 21st century American sickness public mass shootings At the heart of that examination is an unpacking of America s deep polarization and political gridlock It addresses head on the question of why Why is American gun violence so different from other countries Why does nothing seem to change The Parkland kids inspired hope of change But the ultimate questions stubbornly remain what should what can and what will Americans do to reduce gun violence *Tragedy in Aurora* argues that the answer lies in a conscious cultural redefinition of American civic order Over recent decades America has defined a cultural new normal about guns and gun violence Americans express formalistic dismay after every public mass shooting But many accept gun violence as an inevitable even necessary and to some laudable part of what it means to be American Although Americans claim to be shocked with each new outrage so far they have failed to coalesce around an effective way to reduce gun death and injury The debate is bogged down in polarized and profoundly ideological political and cultural argument Meanwhile America continues to lead the globe in its pandemic levels of gun deaths and injuries Combined with the cynical learned helplessness of its politicians the result is gridlock and a growing roll of victims of carnage Is there a path out of this cultural and political gridlock *Tragedy in Aurora* argues that if America is to reduce gun violence it must expand the debate and confront the fundamental question of who are we Tom Diaz gives a new understanding of American culture and the potential for change offered by the growing number and ongoing organization of victims and survivors of gun violence Without conscious cultural change the book argues there is little prospect of effective laws or public policy to reduce gun violence in general and public mass shootings in particular **Popular Science** ,1986-02 *Popular Science* gives our readers the information and tools to improve their technology and their world The core belief that *Popular Science* and our readers share The future is going to be better and science and technology are the driving
