Gustav Klimt 1862-1918:

Gustav Klimt, 1862-1918 Gottfried Fliedl, Gustav Klimt, 1997 Fliedl's introduction to the life and work of one of the leading artistic personalities of the turn of the century has become a standard work on Klimt **Gustav Klimt (Art Masterclass With)** Lucy Brownridge, 2019 Learn to make art like the masters with art masterclass In each book undertake 12 lessons including drawing colouring and sketching activities that are designed to show you how the artist worked Like Klimt you'll use collage to make portraits create patterns to illustrate your art and learn how to show the expressions of people in your pictures with a pencil Then you can use everything you've learnt to create your masterpiece on the pull out poster at the back using the sticker sheet Gustav Klimt Gilles Néret, Gustav Klimt, 2000 Gustav Klimt's art thoroughly expresses the apocalyptic atmosphere of Vienna's upper middle class society a society devoted to the cultivation of aesthetic awareness and the cult of pleasure The ecstatic joy which Klimt and his contemporaries found or hoped to find in beauty was constantly overshadowed by death And death therefore plays an important role in Klimt's art Klimt's fame however rests on his reputation as one of the greatest erotic painters and graphic artists of his times In particular his drawings which have been widely admired for their artistic excellence are dominated by the erotic portrayal of women Klimt saw the world in female form site accessed 23 07 2012 <http://www.amazon.com/Gustav-Klimt-1862-1918-Basic-Art/dp/382285980X> **Gustav Klimt Gender, Power, and Identity in The Films of Stanley Kubrick** Karen A. Ritzenhoff, Dijana Metlić, Jeremi Szaniawski, 2022-10-21 This volume features a set of thought provoking and long overdue approaches to situating Stanley Kubrick's films in contemporary debates around gender race and age with a focus on women's representations Offering new historical and critical perspectives on Kubrick's cinema the book asks how his work should be viewed bearing in mind issues of gender equality sexual harassment and abuse The authors tackle issues such as Kubrick's at times questionable relationships with his actresses and former wives the dynamics of power misogyny and miscegenation in his films and auteur apologism among others The selections delineate these complex contours of Kubrick's work by drawing on archival sources engaging in close readings of specific films and exploring Kubrick through unorthodox venture points With an interdisciplinary scope and social justice centered focus this book offers new perspectives on a well established area of study It will appeal to scholars and upper level students of film studies media studies gender studies and visual culture as well as to fans of the director interested in revisiting his work from a new perspective **Klimt** Klaus Carl, 2011-07-01 I am not interested in myself as a subject for painting but in others particularly women Beautiful sensuous and above all erotic Gustav Klimt's paintings speak of a world of opulence and leisure which seems aeons away from the harsh post modern environment we live in now The subjects he treats allegories portraits landscapes and erotic figures contain virtually no reference to external events but strive rather to create a world where beauty above everything else is dominant His use of colour and pattern was profoundly

influenced by the art of Japan ancient Egypt and Byzantium Ravenna the flat two dimensional perspective of his paintings and the frequently stylised quality of his images form an oeuvre imbued with a profound sensuality and one where the figure of woman above all reigns supreme Klimt's very first works brought him success at an unusually young age Gustav born in 1862 obtained a state grant to study at Kunstgewerbeschule the Vienna School of Arts and Crafts at the age of fourteen His talents as a draughtsman and painter were quickly noticed and in 1879 he formed the Künstlercompagnie Artists Company with his brother Ernst and another student Franz Matsch The latter part of the nineteenth century was a period of great architectural activity in Vienna In 1857 the Emperor Franz Joseph had ordered the destruction of the fortifications that had surrounded the medieval city centre The Ringstrasse was the result a budding new district with magnificent buildings and beautiful parks all paid for by public expenses Therefore the young Klimt and his partners had ample opportunities to show off their talents and they received early commissions to contribute to the decorations for the pageant organised to celebrate the silver wedding anniversary of the Emperor Franz Joseph and the Empress Elisabeth In 1894 Matsch moved out of their communal studio and in 1897 Klimt together with his closest friends resigned from the Künstlerhausgenossenschaft the Cooperative Society of Austrian Artists to form a new movement known as the Secession of which he was immediately elected president The Secession was a great success holding both a first and second exhibition in 1898 The movement made enough money to commission its very own building designed for it by the architect Joseph Maria Olbrich Above the entrance was its motto To each age its art to art its freedom From around 1897 onward Klimt spent almost every summer on the Attersee with the Flöge family These were periods of peace and tranquillity in which he produced the landscape paintings constituting almost a quarter of his entire oeuvre Klimt made sketches for virtually everything he did Sometimes there were over a hundred drawings for one painting each showing a different detail a piece of clothing or jewellery or a simple gesture Just how exceptional Gustav Klimt was is perhaps reflected in the fact that he had no predecessors and no real followers He admired Rodin and Whistler without slavishly copying them and was admired in turn by the younger Viennese painters Egon Schiele and Oskar Kokoschka both of whom were greatly influenced by Klimt

The Oxford History of Western Art Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how

the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK's most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students
