Photography and Ontology Donna West Brett, Natalya Lusty, 2018-09-03 This edited collection explores the complex ways in which photography is used and interpreted as a record of evidence as a form of communication as a means of social and political provocation as a mode of surveillance as a narrative of the self and as an art form What makes photographic images unsettling and how do the re uses and interpretations of photographic images unsettle the self evident reality of the visual field Taking up these themes this book examines the role of photography as a revelatory medium underscored by its complex association with history memory experience and identity **Getting Dressed** Carrie Yodanis, 2018-10-10 Getting Dressed teaches sociology through the everyday decision of what to wear It is about the rules that shape how we dress and how and why we conform It is about how and why we imitate others We may think about clothing as our personal style and identity But our personal style is not so personal it is social shaped and limited by countless social influences We use clothes to rank and treat each other as better and worse Yet we need each other to become who we are when getting dressed This book is about what we wear why we wear it and why it matters **Only Human** Phillip Prodger, 2019 By turns witty surprising and ingenious Martin Parr s photographs reveal the eccentricities of modern life with affection and insight This book published to coincide both with Parr s 2019 exhibition at London s National Portrait Gallery and also the date the UK will leave the EU examines what it means to be human at a time of both change and retrospection Bringing together new work from the last decade Only Human explores the concepts of Britishness and national identity through the rituals and habits of everyday life 00Exhibition National Portrait Gallery London UK 07 03 27 05 2019 [Modenetze - Modeschwärme](#)
