**Children's Literature in Hitler's Germany** Christa Kamenetsky, 2019-06-17 Between 1933 and 1945 National Socialists enacted a focused effort to propagandize children's literature by distorting existing German values and traditions with the aim of creating a homogenous folk community. A vast censorship committee in Berlin oversaw the publication, revision, and distribution of books and textbooks for young readers, exercising its control over library and bookstore content as well as over new manuscripts so as to redirect the cultural consumption of the nation's children. In particular, the Nazis emphasized Nordic myths and legends with a focus on the fighting spirit of the saga heroes, their community loyalty, and a fierce spirit of revenge, elements that were then applied to the concepts of loyalty to and sacrifice for the Führer and the fatherland. They also tolerated select popular series even though these were meant to be replaced by modern Hitler Youth camping stories. In this important book, first published in 1984 and now back in print, Christa Kamenetsky demonstrates how Nazis used children's literature to selectively shape a Nordic Germanic worldview that was intended to strengthen the German folk community, the Führer, and the fatherland by imposing a racial perspective on mankind. Their efforts corroded the last remnants of the Weimar Republic's liberal education while promoting an enthusiastic following for Hitler. **German Literature: A Very Short Introduction** Nicholas Boyle, 2008-02-28 German writers, be it Goethe, Nietzsche, Marx, Brecht, or Mann, have had a profound influence on the modern world. This Very Short Introduction illuminates the particular character and power of German literature and examines its impact on the wider cultural world. *Telecollaboration in Foreign Language Learning* Mark Warschauer, 1996 **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association. National Union Catalog Subcommittee, 1970 *War and Semiotics* Frank Jacob, 2020-12-28 Wars create their own dynamics, especially with regard to images and language. The semiotic and semantic codes are redefined according to the need to create an enemy image or in reference to the results of a war that are post-event defined as just or reasonable. The semiotic systems of wars are central to the discussion of the contributions within this volume, which highlight the interrelationship of semiotic systems and their constructions during wars in different periods of history. *In the Company of Crows and Ravens* John M. Marzluff, Tony Angell, 2008-10-01 Crows and people share similar traits and social strategies. To a surprising extent, to know the crow is to know ourselves. From the Preface: From the cave walls at Lascaux to the last painting by Van Gogh, from the works of Shakespeare to those of Mark Twain, there is clear evidence that crows and ravens influence human culture. Yet this influence is not unidirectional; say the authors of this fascinating book, people profoundly influence crow culture, ecology, and evolution as well. John Marzluff and Tony Angell examine the often surprising ways that crows and humans interact. The authors contend that those interactions reflect a process of cultural coevolution. They offer a challenging new view of the human-crow dynamic, a view that may change our thinking not only about crows but also about ourselves. Featuring more than 100

original drawings the book takes a close look at the influences people have had on the lives of crows throughout history and at the significant ways crows have altered human lives In the Company of Crows and Ravens illuminates the entwined histories of crows and people and concludes with an intriguing discussion of the crow human relationship and how our attitudes toward crows may affect our cultural trajectory *Junkers Ju 87 Stukageschwader 1937-41* John Weal,2012-11-20 The Ju 87 Stuka was the most feared weapon in the German arsenal in the first year of World War 2 the Luftwaffe using it to deadly effect during the Blitzkrieg between September 1939 and June 1940 Although vulnerable to the enemy fighters due to its moderate speed in level flight and general lack of manoeuvrability the Ju 87 nevertheless soon came to symbolise the might of Nazi Germany as the mere handful of Stukageschwader supporting the Wehrmacht rampaging out of the Fatherland took a heavy toll of the Allied forces Illustrated throughout with contemporary photography and detailed aircraft profiles John Weal s detailed history is ideal for modellers as well as general aircraft fans *Selected List of German Books Recommended for a Small Public Library* Emma Gattiker,1907 **Wilhelm Busch** Dieter P.
